**Preface**

**PART I CLASSICAL ERA OF ECONOMIC DEVELOPMENT**

1. In the beginning was Chapter 1  
   *The history, the drivers of economic development, the Chapter 1 model, and the Two Ships—Privatism and Progressivism*

2. As the twig is bent: pre-Civil War migration and political culture  
   *Pennsylvania and Philadelphia, Winthrop and Massachusetts; the migration of political cultures and how culture impacted economic development*

3. Early Republic economic development  
   *The tools of the trade; Early Republic competitive hierarchy: transportation infrastructure; corporate charters and “the gift that keeps on giving”; constitutional gift and loan restrictions and Dillon’s Law*

4. The industrial Big City: primeval soup of Big City economic development  
   *The jurisdictional economic base and profit life cycle; agglomerations; railroads to subways; what the heck are Big Cities?; the development of the industrial-era Big City; industrial-era Big City economic development policy systems*

5. Big City economic development  
   *Beyond boosterism; chamber-style economic development; shifting, but not shifty, business elites; “first wave” chambers; Big City policy system capacity-building; City Efficient, structural reformers, city managers, and selling frozen water*

6. Two paths diverge: take one  
   *Early twentieth-century community development, from settlement house to neighborhood revitalization; social reform and socialist mayors; African-American economic and community development; the path to City Beautiful; City Beautiful and Boston’s Noble Experiment*

7. Pre-Depression South  
   *Where is the South’s Industrial City?; the South as a colony; southern-fried economic development; Redeemers, the “divided South,” and city-building; Southern chamber-style ED; the rise of the southern textile industry; the early rise of Big City Texas*
A history of American state and local economic development

8 Western economic development into the twenties
“You ain’t in Philadelphia now, darling”; western city-building, eastern hegemony, and beyond boosterism; early Pacific Coast cities; earthquakes; port authorities; Los Angeles—the city ED built; federal infrastructure; Fortress California and Pacific Coast regional hegemony

9 The twenties: not so calm before the storm
The chambers’ golden age; onionization and a pinch of siloization; states and ED; the oligopolistic profit cycle grinds; Lehigh Valley, second phase of New England’s textile war; pre-Depression community development; decentralization and the twenties’ suburb; the importance of “growth” as ED’s primary goal; worrisome changes lie ahead

10 Big Cities: New Deal, war years
Big Cities cope with the Depression; New Deal and Big City ED; Le Corbusier dukes it out with Frank Lloyd Wright; Robert Moses vs Catherine Bauer; Alinsky and the Second Ghetto; war comes to Big Cities and big suburbs; what is industrial decentralization?

11 Urban renewal: the scarlet letter of economic development
Pre-urban renewal; the feds get involved; phases of urban renewal; urban renewal as anti-suburbanization; types of urban renewal; CD urban renewal fights ED urban renewal; the last phase of urban renewal: urban renewal

12 The South: New Deal, World War II, and the fifties
BAWI; Second Reconstruction: plantation economy gone with the wind; war production and industrial decentralization; selling the South starts the “shadow war”; the civil rights movement and ED

13 The West: New Deal, war years, and the fifties
Roosevelt’s western revolution; federal government and the jurisdictional economic base; western postwar suburbanization: simultaneous suburbanization; snapshots of western policy systems: Los Angeles to Honolulu

14 Dry rot to decay: Big City change in the “Wonder Bread” years, 1945–1960
Truman–Eisenhower federal government: SBA to interstate highways; Gruen/Jacobs and the CBD; mid-century Big City suburbs; third phase of the New England textile war; port authorities and onionization

15 Hegemonic Big Cities and the rising Sunbelt
The big hinge: Big City urban renewal: Boston and Philadelphia; postwar Sunbelt urban renewal: Atlanta, Norfolk, Oklahoma City and San Diego

*Kennedy's experimentation; innovation in community development: Woodlawn and Gray Areas; War on Poverty and Great Society; HUD, CUED, and EDA; Nixonian Thermidor: the feds' "permanent role" in sub-state ED/CD*

*Postwar Community Development: Acorn to NHS to CDFI; Big Cities implode: will you play in my sandbox?; Second War Between the States; shifting sectors: Auto Alley, Route 128, and Silicon Valley*

*The Carter years and Reagan's devolution: the feds regroup; explosion in sub-municipal EDOs; messiah mayors: Big Cities stabilize; Reagan-era community development: Nehemiah to Sandtown; polycentric post-suburbia*

*Great forces at work; deindustrialization; not yet ready for prime time entrepreneurial state; Massachusetts; Big Sort political culture and policy system change: redefining growth; new strategies: economic gardening to casino gambling*

*The short story of American economic development; contemporary economic development; economic development, a partnership between CD and Mainstream, to manage creative destruction?*
