## Part I: Theoretical Foundations

1. Industrial organization: an introduction  
   1.1 Introduction  
   1.2 Static and dynamic views of competition  
   1.3 The structure–conduct–performance paradigm  
   1.4 Strategic management: a short diversion  
   Discussion questions  
   Further reading  

2. Production, costs, demand and profit maximization  
   2.1 Introduction  
   2.2 Production and costs  
   2.3 Demand, revenue, elasticity and profit maximization  
   2.4 Summary  
   Discussion questions  
   Computational questions  
   Further reading  

3. The neoclassical theory of the firm  
   3.1 Introduction  
   3.2 The neoclassical theory of the firm: historical development  
   3.3 Theories of perfect competition and monopoly

### Part III: Analysis of Firm Strategy

**14 Pricing**

14.1 Introduction 391  
14.2 Cost plus pricing 392  
14.3 Price discrimination 397  
14.4 Peak-load pricing 413  
14.5 Transfer pricing 417  
14.6 Price dispersion 426  
14.7 Summary 428  

Discussion questions 431  
Computational questions 432  
Further reading 433  

**15 Auctions**

15.1 Introduction 435  
15.2 Auction formats and models of bidders' valuations 437  
15.3 The pure common value model and the winner's curse 439  
15.4 Optimal bidding strategies and revenue equivalence in the independent private values model 442  
15.5 Extensions and additional topics in auction theory 449  
15.6 Empirical evidence 454  
15.7 Summary 462  

Discussion questions 464  
Computational questions 464  
Further reading 465  

**16 Product differentiation**

16.1 Introduction 466  
16.2 Types of product differentiation 468  
16.3 Monopolistic competition revisited: the socially optimal amount of product differentiation 470  
16.4 Lancaster's product characteristics model 473  
16.5 Hotelling's location model 480  
16.6 Salop's location model 492  
16.7 Summary 496  

Discussion questions 498  
Further reading 499  

**17 Advertising**

17.1 Introduction 500  
17.2 Determinants of advertising expenditure 503
21 Vertical restraints 633
  21.1 Introduction 633
  21.2 Motives for vertical restraints 634
  21.3 Forms of vertical restraint 637
  21.4 Summary 647

22 Network goods and services 649
  22.1 Introduction 649
  22.2 Demand for a network product or service 651
  22.3 Market equilibrium price and quantity for a network
       good or service: perfect competition and monopoly 658
  22.4 Market equilibrium price and quantity for a network
       good or service: duopoly 663
  22.5 Forms of competition over standardization and compatibility 668
  22.6 Summary 671

23 Diversification 675
  23.1 Introduction 675
  23.2 Types of diversification 676
  23.3 Motives for diversification 678
  23.4 Corporate focus and deconglomeration 688
  23.5 Empirical evidence 691
  23.6 The multinational enterprise 696
  23.7 Summary 703

Part IV: Analysis of Public Policy

24 Competition policy 709
  24.1 Introduction 710
  24.2 Competition policy: theoretical framework 710
## Appendices: Analytical Tools

<table>
<thead>
<tr>
<th>Appendix</th>
<th>Title</th>
