# Table of Contents

Acknowledgements .......................................................... 1
Preface ........................................................................ 11
About the Editors .......................................................... 111
About the Contributors ................................................... 113
Foreword ........................................................................ 115

CHAPTER 1
Introduction ....................................................................... 1
Shingirirai S Mutanga and Munyaradzi Mujuru

CHAPTER 2
The Legacy of Acid Mine Drainage in South Africa .......... 8
Vuyo Mjimba, Munyaradzi Mujuru and Shingirirai S Mutanga

CHAPTER 3
The Formation of Acid Mine Drainage ....................... 27
Munyaradzi Mujuru, Shingirirai S Mutanga and Zolani Dyosi

CHAPTER 4
Impact of Acid Mine Drainage on Water Resources in South Africa ......................................................... 41
Tichatonga Gonah

CHAPTER 5
An Assessment of the Social Impact of Acid Mining Drainage on the West Rand, South Africa .................. 66
Towards Responsive Mining and Sustainable Cities on the African Continent
Lawrence Matenga and Trynos Gumbo

CHAPTER 6
AMD and the Mining Sector’s Contribution to the South African Economy ...................................................... 77
Martin Kaggwa

CHAPTER 7
Strategic Planning and Sustainable Management of Acid Mine Drainage .................................................. 97
Caliphas Zvinowanda
CHAPTER 8
Interrogating and Reviewing Legal and Policy Frameworks Governing Acid Mine Drainage in South Africa
Olivia Lwabukuna

CHAPTER 9
Mathematical Modelling in Acid Mine Drainage
Geoffrey S Simate

CHAPTER 10
The Role of Geospatial Technologies in Modelling Acid Mine Drainage
A Case Study of South Africa’s Tweelopiespruit
Shingirirai Mutanga, Munyaradzi Mujuru, Kenelwe Hlahane and Mashilo D Mashobane

CHAPTER 11
Financing Acid Mine Drainage Treatment in South Africa
Zolani Dyosi and Geoffrey Banda

CHAPTER 12
Acid Mine Drainage Treatment Technologies
Sehliselo Ndlovu

CHAPTER 13
Acid Mine Drainage Bio-Remediation and Techniques
South African Perspective
Memory Tekere and Ilunga Kamika

CHAPTER 14
Deriving Benefits from Acid Mine Drainage
Mike Masukume, Maurice S Onyango and Jannie P Maree

CHAPTER 15
Managing the Acid Mine Drainage Menace
The Way Forward
Vuyo Mjimba
