Robustness in Econometrics

Contents

Part I Keynote Addresses

Robust Estimation of Heckman Model	3
Elvezio Ronchetti	

Part II Fundamental Theory

Sequential Monte Carlo Sampling for State Space Models	25
Mario V. Wüthrich	

Robustness as a Criterion for Selecting a Probability Distribution Under Uncertainty	51
Songsak Sriboonchitta, Hung T. Nguyen, Vladik Kreinovich and Olga Kosheleva	

Why Cannot We Have a Strongly Consistent Family of Skew Normal (and Higher Order) Distributions	69
Thongchai Dumrongpokaphan and Vladik Kreinovich	

Econometric Models of Probabilistic Choice: Beyond McFadden's Formulas	79
Olga Kosheleva, Vladik Kreinovich and Songsak Sriboonchitta	

How to Explain Ubiquity of Constant Elasticity of Substitution (CES) Production and Utility Functions Without Explicitly Postulating CES	89
Olga Kosheleva, Vladik Kreinovich and Thongchai Dumrongpokaphan	

How to Make Plausibility-Based Forecasting More Accurate	99
Kongliang Zhu, Nantiworn Thianpaen and Vladik Kreinovich	

Structural Breaks of CAPM-type Market Model with Heteroskedasticity and Quantile Regression	111
Cathy W.S. Chen, Khemmanant Khamthong and Sangyeol Lee	

Weighted Least Squares and Adaptive Least Squares: Further Empirical Evidence	135
Martin Sterchi and Michael Wolf	
Prior-Free Probabilistic Inference for Econometricians	169
Ryan Martin	
Robustness in Forecasting Future Liabilities in Insurance	187
W.Y. Jessica Leung and S.T. Boris Choy	
On Conditioning in Multidimensional Probabilistic Models	201
Radim Jiroušek	
New Estimation Method for Mixture of Normal Distributions	217
Qianfang Hu, Zheng Wei, Baokun Li and Tonghui Wang	
EM Estimation for Multivariate Skew Slash Distribution	235
Weizhong Tian, Guodong Han, Tonghui Wang and Varith Pipitpojanakarn	
Constructions of Multivariate Copulas	249
Xiaonan Zhu, Tonghui Wang and Varith Pipitpojanakarn	
Plausibility Regions on the Skewness Parameter of Skew Normal Distributions Based on Inferential Models	267
Xiaonan Zhu, Ziwei Ma, Tonghui Wang and Teerawut Teetranont	
International Yield Curve Prediction with Common Functional Principal Component Analysis	287
Jiejie Zhang, Ying Chen, Stefan Klotz and Kian Guan Lim	
An Alternative to p-Values in Hypothesis Testing with Applications in Model Selection of Stock Price Data	305
Hien D. Tran, Son P. Nguyen, Hoa T. Le and Uyen H. Pham	
Confidence Intervals for the Common Mean of Several Normal Populations	321
Warisa Thangjai, Sa-Aat Niwitpong and Suparat Niwitpong	
A Generalized Information Theoretical Approach to Non-linear Time Series Model	333
Songsak Sriboochitta, Woraphon Yamaka, Paravee Maneejuk and Pathairat Pastpipatkul	
Predictive Recursion Maximum Likelihood of Threshold Autoregressive Model	349
Pathairat Pastpipatkul, Woraphon Yamaka and Songsak Sriboonchitta	
A Multivariate Generalized FGM Copulas and Its Application to Multiple Regression	363
Zheng Wei, Daeyoung Kim, Tonghui Wang and Teerawut Teetranont	

Part III Applications

Key Economic Sectors and Their Transitions:

- Analysis of World Input-Output Network** 381
T.K. Tran, H. Sato and A. Namatame

Natural Resources, Financial Development and Sectoral

- Value Added in a Resource Based Economy** 401
Ramez Abubakr Badeeb and Hooi Hooi Lean

Can Bagging Improve the Forecasting Performance of Tourism Demand Models?

- 419
Haiyan Song, Stephen F. Witt and Richard T. Qiu

The Role of Asian Credit Default Swap Index in Portfolio Risk Management

- 435
Jianxu Liu, Chatchai Khiewngamdee and Songsak Sriboonchitta

Chinese Outbound Tourism Demand to Singapore, Malaysia and Thailand Destinations: A Study of Political Events and Holiday Impacts

- 449
Jianxu Liu, Duangthip Sirikancharak, Jiachun Xie
and Songsak Sriboonchitta

Forecasting Asian Credit Default Swap Spreads:

- A Comparison of Multi-regime Models** 471
Chatchai Khiewngamdee, Woraphon Yamaka and Songsak Sriboonchitta

Effect of Helmet Use on Severity of Head Injuries

- Using Doubly Robust Estimators** 491
Jirakom Sirisrisakulchai and Songsak Sriboonchitta

Forecasting Cash Holding with Cash Deposit Using

- Time Series Approaches** 501
Kobpongkit Navapan, Jianxu Liu and Songsak Sriboonchitta

Forecasting GDP Growth in Thailand with Different Leading

- Indicators Using MIDAS Regression Models** 511
Natthaphat Kingnetr, Tanaporn Tungtrakul and Songsak Sriboonchitta

Testing the Validity of Economic Growth Theories Using

- Copula-Based Seemingly Unrelated Quantile Kink Regression** 523
Pathairat Pastpipatkul, Paravee Maneejuk and Songsak Sriboonchitta

Analysis of Global Competitiveness Using Copula-Based

- Stochastic Frontier Kink Model** 543
Paravee Maneejuk, Woraphon Yamaka and Songsak Sriboonchitta

Gravity Model of Trade with Linear Quantile Mixed Models Approach	561
Pathairat Pastpipatkul, Petchaluck Boonyakunakorn and Songsak Sriboonchitta	
Stochastic Frontier Model in Financial Econometrics: A Copula-Based Approach	575
P. Tibprasorn, K. Autchariyapanitkul and S. Sriboonchitta	
Quantile Forecasting of PM10 Data in Korea Based on Time Series Models	587
Yingshi Xu and Sangyeol Lee	
Do We Have Robust GARCH Models Under Different Mean Equations: Evidence from Exchange Rates of Thailand?	599
Tanaporn Tuntrakul, Natthaphat Kingnetr and Songsak Sriboonchitta	
Joint Determinants of Foreign Direct Investment (FDI) Inflow in Cambodia: A Panel Co-integration Approach	615
Theara Chhorn, Jirakom Sirisrisakulchai, Chukiat Chaiboonsri and Jianxu Liu	
The Visitors' Attitudes and Perceived Value Toward Rural Regeneration Community Development of Taiwan	637
Wan-Tran Huang, Chung-Te Ting, Yu-Sheng Huang and Cheng-Han Chuang	
Analyzing the Contribution of ASEAN Stock Markets to Systemic Risk	649
Roengchai Tansuchat, Woraphon Yamaka, Kritsana Khemawanit and Songsak Sriboonchitta	
Estimating Efficiency of Stock Return with Interval Data	667
Phachongchit Tibprasorn, Chatchai Khiewngamdee, Woraphon Yamaka and Songsak Sriboonchitta	
The Impact of Extreme Events on Portfolio in Financial Risk Management	679
K. Chuangchid, K. Autchariyapanitkul and S. Sriboonchitta	
Foreign Direct Investment, Exports and Economic Growth in ASEAN Region: Empirical Analysis from Panel Data	691
Pheara Pheang, Jianxu Liu, Jirakom Sirisrisakulchai, Chukiat Chaiboonsri and Songsak Sriboonchitta
