# CONTENTS

## Volume 1

<i>Contributors</i>	<i>xiii</i>
<b>1. An Introduction to the “Handbook of Field Experiments”</b>	<b>1</b>
A.V. Banerjee, E. Duflo	
1. The Impact on the Way We Do Research	2
2. The Impact on the Way We Think About the World	15
3. Conclusion	21
References	21
<b>Section I. Some Historical Background</b>	
<b>2. The Politics and Practice of Social Experiments: Seeds of a Revolution</b>	<b>27</b>
J.M. Gueron	
1. Why Focus on Welfare?	28
2. Why Experiment?	29
3. The Story	30
4. Major Challenges	32
5. Demonstrating Feasibility: The National Supported Work Demonstration	33
6. Social Experiments Reincarnated as a Partnership: Testing Feasibility Anew by Evaluating State Initiatives	38
7. Using Randomized Controlled Trials to Test Full-Scale Programs: The Fight Got Tougher	45
8. What Works Best? A Multiarm Test of Labor Force Attachment versus Human Capital Development	50
9. The Momentum Shifts	53
10. Useful and Used	54
11. Lessons and Challenges	59
Acknowledgments	66
References	66

## Section II. Methodology and Practice of RCTs

<b>3. The Econometrics of Randomized Experiments</b>	<b>73</b>
S. Athey, G.W. Imbens	
1. Introduction	75
2. Randomized Experiments and Validity	78
3. The Potential Outcome/Rubin Causal Model Framework for Causal Inference	81
4. The Analysis of Completely Randomized Experiments	85
5. Randomization Inference and Regression Estimators	94
6. The Analysis of Stratified and Paired Randomized Experiments	99
7. The Design of Randomized Experiments and the Benefits of Stratification	102
8. The Analysis of Clustered Randomized Experiments	109
9. Noncompliance in Randomized Experiments	114
10. Heterogenous Treatment Effects and Pretreatment Variables	122
11. Experiments in Settings With Interactions	131
12. Conclusion	135
References	135
<b>4. Decision Theoretic Approaches to Experiment Design and External Validity</b>	<b>141</b>
A.V. Banerjee, S. Chassang, E. Snowberg	
1. Introduction	142
2. The Framework	145
3. Perspectives on Experimental Design	147
4. Rerandomization, Registration, and Preanalysis	153
5. External Validity	159
6. Structured Speculation	161
7. Issues of Particular Interest	165
8. Conclusion	171
References	171
<b>5. The Practicalities of Running Randomized Evaluations: Partnerships, Measurement, Ethics, and Transparency</b>	<b>175</b>
R. Glennerster	
1. Collaboration Between Researchers and Implementers	177
2. Preparing for Practical Pitfalls in Field Experiments	192
3. Ethics	200
4. Transparency of Research	216
5. Conclusion	238
References	238

<b>6. The Psychology of Construal in the Design of Field Experiments</b>	<b>245</b>
E.L. Paluck, E. Shafir	
1. Introduction	246
2. Pilot: Seek Shared Construal of Behavior and the Situation Between Investigators and Participants	253
3. Design: Ensure the Intervention Design, Measurement, and Deployment Achieve Shared Construal Between Investigators and Participants	256
4. Interpret: How Do Investigators Construe What Matters in the Data?	262
5. Concluding Thoughts	265
References	266
<b>Section III. Understanding Preferences and Preference Change</b>	
<b>7. Field Experiments in Markets</b>	<b>271</b>
O. Al-Ubaydli, J.A. List	
1. Introduction	272
2. Preamble	274
3. Main Results	280
4. Methodological Insights	300
5. Closing Remarks	302
References	303
<b>8. Field Experiments on Discrimination</b>	<b>309</b>
M. Bertrand, E. Duflo	
1. Introduction	310
2. Measuring Discrimination in the Field	315
3. Consequences of Discrimination	345
4. <i>What Affects Discrimination?</i>	359
5. Conclusion	382
References	383
<b>9. Field Experiments on Voter Mobilization: An Overview of a Burgeoning Literature</b>	<b>395</b>
A.S. Gerber, D.P. Green	
1. Intellectual Context for Emergence of Field Experiments in Political Science	397
2. How Do Experiments Address the Problems in the Prior Voter Turnout Research?	402
3. An Overview of the Experimental Literature on Voter Mobilization	406
4. The Effect of Messaging	417
References	434

<b>10. Lab in the Field: Measuring Preferences in the Wild</b>	<b>439</b>
U. Gneezy, A. Imas	
1. Theoretically-Relevant Populations	441
2. Using Lab-in-the Field for Collecting Covariates as Complements to RCTs and for Targeting Policy	445
3. Comparing Between Contexts and Cultures	452
4. External Validity	456
5. Conclusion	459
References	461
<b>11. Field Experiments in Marketing</b>	<b>465</b>
D. Simester	
1. Papers that Report Field Experiments	466
2. Pricing Topics	471
3. Advertising Topics	476
4. Product-Related Topics	479
5. Model Validation	480
6. Other Topics	481
7. Designing Experiments and Future Topics	484
8. Conclusions	488
Appendix: Summary of the Papers	490
References	494
<i>Index</i>	499

## VOLUME 2

<i>Contributors</i>	<i>xiii</i>
---------------------	-------------

### Section I. The Challenge of Improving Human Capital

<b>1. Impacts and Determinants of Health Levels in Low-Income Countries</b>	<b>3</b>
P. Dupas, E. Miguel	
1. Introduction	4
2. Methodological Section	6
3. Experimental Estimates of the Impact of Health on Individual Productivity	18
4. Environmental/Infrastructural Determinants of Health	31
5. Demand for Health Products and Healthcare	34
6. Supply of Health Care	69
7. Conclusion	82
References	84

<b>2. The Production of Human Capital in Developed Countries: Evidence From 196 Randomized Field Experiments</b>	<b>95</b>
R.G. Fryer, Jr.	
1. Introduction	96
2. A Method for Finding and Evaluating Field Experiments	105
3. Evidence From 196 Randomized Field Trials	110
4. Combining What Works: Evidence From a Randomized Field Experiment in Houston	169
5. Conclusion	181
References	307
<b>3. Field Experiments in Education in the Developing Countries</b>	<b>323</b>
K. Muralidharan	
1. Introduction	324
2. Field Experiments in Education—A Short Overview	325
3. Selected Overview of Field Experiments in Education in Developing Countries	330
4. Limitations of Field Experiments and Strategies for Mitigating Them	349
5. Conducting Field Experiments in Education in the Developing Countries	357
6. Conclusion	376
References	379
<b>Section II. Designing Effective Social Programs</b>	
<b>4. Social Policy: Mechanism Experiments and Policy Evaluations</b>	<b>389</b>
W.J. Congdon, J.R. Kling, J. Ludwig, S. Mullainathan	
1. Introduction	390
2. What Are Mechanism Experiments?	394
3. Why Do Mechanism Experiments?	397
4. When to Do Mechanism Experiments Versus Policy Evaluations?	409
5. Conclusion	422
References	423
<b>5. Field Experiments in Developing Country Agriculture</b>	<b>427</b>
A. de Janvry, E. Sadoulet, T. Suri	
1. Introduction	428
2. A Review of FEs in Agriculture	429
3. Agriculture and FEs: A Conceptual Framework	437
4. Agriculture is Different: Implications for the Design and Implementation of FEs	441
5. Discussion: Using FEs to Reveal the Production Function in Agriculture	460
References	463

<b>6. The Personnel Economics of the Developing State</b>	<b>467</b>
<b>F. Finan, B.A. Olken, R. Pande</b>	
1. Introduction	468
2. Stylized Facts on the Architecture of the State and the Role of Individuals	470
3. The Selection and Recruitment of Public Officials	482
4. Using Incentives to Improve Performance	491
5. Monitoring Mechanisms and Public Service Delivery	500
6. Towards Smart(er) Governance: the Promise of e-Governance and Other Avenues	505
7. Concluding Thoughts	507
Appendix	509
References	511
<b>7. Designing Social Protection Programs: Using Theory and Experimentation to Understand How to Help Combat Poverty</b>	<b>515</b>
<b>R. Hanna, D. Karlan</b>	
1. Introduction	516
2. Redistributive Programs	519
3. Missing Insurance Markets	528
4. Behavioral Constraints	530
5. Market Failures Preventing Asset Accumulation	537
6. Ideas Only Go So Far: Implementation Matters Too	542
7. Conclusion: Key Areas for Further Work	545
References	548
<b>8. Social Experiments in the Labor Market</b>	<b>555</b>
<b>J. Rothstein, T. von Wachter</b>	
1. Introduction	556
2. What Are Social Experiments? Historical and Econometric Background	560
3. A More Thorough Overview of Labor Market Social Experiments	570
4. Going Beyond Treatment–Control Comparisons to Resolve Additional Design Issues	596
5. Conclusion	628
References	630
<i>Index</i>	639
