Aldehyde Dehydrogenase

Aldehyde Dehydrogenases - The 1992 Perspective p. 1

Metabolic Role of Aldehyde Dehydrogenase p. 5

Effects of Aldehyde Products of Lipid Peroxidation on the Activity of Aldehyde Metabolizing Enzymes in Hepatomas p. 17

Metabolic Interactions of 4-Hydroxynoenal, Acetaldehyde and Glutathione in Isolated Liver Mitochondria p. 27

Biological Role of Human Cytosolic Aldehyde Dehydrogenase 1: Hormonal Response, Retinal Oxidation and Implication in Testicular Feminization p. 37

Human Cytosolic Aldehyde Dehydrogenase in Androgen Insensitivity Syndrome p. 45

The Use of Immortalized Mouse L1210/OAP Cells Established in Culture to Study The Major Class 1 Aldehyde Dehydrogenase-Catalyzed Oxidation of Aldehydes in Intact Cells p. 51

Enhanced Transcription of the Cytosolic ALDH Gene in Cyclophosphamide Resistant Human Carcinoma Cells p. 63

Attempts to Increase the Expression of Rat Liver Mitochondrial Aldehyde Dehydrogenase in E. coli by Altering the mRNA p. 73

Preliminary Characterization of the Rat Class 3 Aldehyde Dehydrogenase Gene p. 81

Human High-K[subscript m] Aldehyde Dehydrogenase (ALDH3): Molecular, Kinetic, and Structural Features p. 87

Overexpression or Polycyclic Aromatic Hydrocarbon-Mediated Induction of an Apparently Novel Class 3 Aldehyde Dehydrogenase in Human Breast Adenocarcinoma Cells and Its Relationship to Oxazaphosphorine-Specific Acquired Resistance p. 99

Tumor-Associated Aldehyde Dehydrogenase (ALDH3): Expression in Different Human Tumor Cell Lines with and without Treatment with 3-Methylcholanthrene p. 115

Sexual Differentiation in the Induction of the Class 3 Aldehyde Dehydrogenase p. 123

Mouse Class 3 Aldehyde Dehydrogenases: Positive and Negative Regulation of Gene Expression p. 131

Human Stomach Aldehyde Dehydrogenase, ALDH[Subscript 3] p. 141

Bovine Corneal Aldehyde Dehydrogenases: Evidence for Multiple Gene Products (ALDH3 and ALDHX) p. 153

Carbonyl-Metabolizing Enzymes and Their Relatives Recruited as Structural Proteins in the Eye Lens p. 159

Members of the ALDH Gene Family are Lens and Corneal Crystallins p. 169

Retinoic Acid Synthesis in the Developing Retina p. 181

Human Liver High Km Aldehyde Dehydrogenase (ALDH4): Properties and Structural Relationship to the Yeast Glutamic [gamma]-Semialdehyde Dehydrogenase p. 191

Effect of Some Compounds Related to Disulfiram on Mitochondrial Aldehyde Dehydrogenase in Vitro and in Vivo p. 199

Photoaffinity Labeling of Aldehyde Dehydrogenase from Horse Liver by P[Superscript 1]-N[Superscript 6]- (4-Azidophenylethyl) Adenosine-P[Superscript 2][4-(3-Azidopyridinio)Butyl] Diphosphate p. 211
Horse Liver Alcohol Dehydrogenase-S-Isozyme: Confirmation of the Primary Structure by Protein Sequencing and Ion Spray Mass Spectrometry  p. 451
Mixed Substrate Experiments with Class III (chi) Alcohol Dehydrogenases from Human and Pig Liver and Stomach  p. 457
Glutathione-Dependent Formaldehyde Dehydrogenase/Class III Alcohol Dehydrogenase: Further Characterization of the Rat Liver Enzyme  p. 465
Class IV Alcohol Dehydrogenase: Structure and Function  p. 475
The Oxidation of Aldehydes by Horse Liver Alcohol Dehydrogenase  p. 481
Effect of Glycation Upon Activity of Liver Alcohol Dehydrogenase  p. 493
Kinetically Specific Spin-Label Substrates of Liver Alcohol Dehydrogenase and of Liver Aldehyde Dehydrogenase  p. 501
Fluorescence Studies of Tenary Complexes of Liver Alcohol Dehydrogenase  p. 513
Evolutionary Relationships of Branched Chain and Non-Specific Alcohol and Aldehyde Dehydrogenases  p. 523
Enzyme and Isozyme Developments within the Medium-Chain Alcohol Dehydrogenase Family  p. 533
Tissue Distribution of Alcohol and Sorbitol Dehydrogenase mRNAs  p. 545
The Role of Alcohol and Aldehyde Dehydrogenases in Alcohol-Related Diseases: Clinical Studies of Molecular Markers  p. 555
Regulation of the Human Alcohol Dehydrogenase Genes ADH1, ADH2, and ADH3: Differences in cis-Acting Sequences at CTF/NF-1 Sites  p. 561
DNA Elements Mediating Retinoid and Thyroid Hormone Regulation of Alcohol Dehydrogenase Gene Expression  p. 571
Modulation of Hepatic and Renal Alcohol Dehydrogenase Activity and mRNA by Steroid Hormones in Vivo  p. 581
Alcohol- and Aldehyde-Dehydrogenase: Modulation by Biogenic Amine Metabolites, Neuropeptides and Psychoactive Agents  p. 591
Microbial Alcohol, Aldehyde, and Formate Ester Oxidoreductases  p. 605
Carbonyl Metabolising Enzymes in Alkane-Grown Microorganisms  p. 621
Index  p. 631
