Preface

List of Contributors

Ischemic Myocardial Damage

Postischemic Myocardial Dysfunction (Myocardial "Stunning"): Role of Oxidative Stress p. 3

Degradation of Membrane Phospholipids in the Ischemic and Reperfused Heart p. 8

Protective Effects of Antiarrhythmic Agents on Oxygen-Deficiency-Induced Contractile Dysfunction of Isolated Perfused Hearts p. 13

Ischemic Myocardial Damage p. 18

Cardiomyopathy

Role of Protein Kinase System in the Signal Transduction of Stretch-mediated Myocyte Growth p. 25

Cellular Mechanisms of Left Ventricular Hypertrophy p. 30

PI Response and Calcium Overload in Cardiomyopathic Hamster Heart Cell p. 36

Mitochondrial DNA Mutations in Cardiomyopathy p. 41

Disrupted Microtubule Structure in the Ischemic and Failing Myocardium - The Role of Calcium Overload p. 46

Signal Transduction in Myocardial Cells

GTP-binding Proteins and Bacterial Toxin-catalyzed ADP-ribosylation p. 53

Regulation of the G[superscript s]-Protein in the Heart p. 58

Alterations in [alpha][superscript 1]-Adrenergic Receptors in Response to Myocardial Ischemia and their Role in Arrhythmogenesis p. 62

Enzyme-Specific Desensitization of Adenyl Cyclase in Hypertrophied Heart in Monocrotaline-Treated Rats p. 70

A Mechanism of Catecholamine Tolerance in Congestive Heart Failure p. 75

Electrophysiological Abnormalities in Failing Heart p. 93

Regulation of Calcium Slow Channels in Myocardial Cells by Cyclic Nucleotides and Phosphorylation p. 81

Electrophysiological Abnormalities in Cardiac Hypertrophy p. 93

Altered Responsiveness to Humoral Factors in Cardiac Myocytes of Cardiomyopathic Syrian Hamsters p. 98

Stretch-Activated Current in Rabbit Cardiac Myocytes p. 105

Drug Therapy of Failing Heart p. 118

Evaluation of Functional Capacity of Patients with Congestive Heart Failure p. 113

Progress of Treatment and Changing Views on the Role of Compensatory Mechanisms in Chronic Heart Failure p. 118

Cardiotonic Drugs, Intracellular Calcium, and Failing Heart p. 122

Myocardial Calcium Sensitivity and Energy Turnover as Modulated by Inorganic Phosphate and EMD 53998, a Novel Inotropic Agent p. 128

Ischemic Heart Disease

Left Ventricular Diastolic Function in Effort Angina Pectoris p. 135

The Effect of N,N,N-Trimethylpsingosine on Reperfusion Injury p. 138

Signal Transduction
Possible Prerequisite Morphological Changes Preceding Cell Damage During Hypoxia-Reoxygenation in Cardiac Myocytes  
Opioid Modulation of Cardiac Sympathetic Nerve Activity of Baroreceptor Reflex in Rats  
Congestive Heart Failure  
Clinical Efficacy of Flosequinan in Patients with Mild Chronic Heart Failure: a Double-Blind Placebo-Controlled Study  
Clinical Efficacy of Pimobendan for Patients with Chronic Heart Failure - A Dose Finding Study by a Multicenter Double Blind Trial  
Effect of Lisinopril on Hemodynamics and Cardiac Hypertrophy in Rats with Aortocaval Fistula  
Increased Plasma Lipid Peroxide in Patients with Congestive Heart Failure  
Dopamine Sulfate and the Cardiovascular System  
Systemic Study of the Hemodynamic Effects of Nitroglycerin in Conscious Dogs: New Aspect of Mechanism of its Antianginal Action  
Load Dependence of Systolic and Diastolic LV Function - On-line Recorded in the Isolated Perfused Guinea Pig Heart. Effects of Ouabain, Caffeine, Gallopamil and [Mg$^{++}$][subscript o]  
Different Load Dependence of -dp/dt[subscript max] in Rat and Guinea Pig Hearts and the Influence of Ouabain and Caffeine  
Depressed Endothelium-Dependent Vasodilator Response in the Hindquarter Resistance Vessels in Heart Failure Dogs  
Effects of Calcitonin Gene-Related Peptide on Systemic and Regional Hemodynamics in Dogs with Congestive Heart Failure  
Remarkable Improvement in Congestive Heart Failure in Ventricular Septal Rupture by Dopexamine Infusion  
Direct Prevention Against Progressive 201TL Perfusion Defects by Captopril Treatment in Patients with Mild to Moderate Heart Failure  
An Optimal Control Strategy for Regulation of Cardiovascular System  
Myocardial Protection with Ryanodine and CoQ[subscript 10] Against Post-ischemic Reperfusion Injury of Rabbit Heart  
Angiotensin II Potentiates Collagen Synthesis in the Hypertrophied Heart  
Polyphosphoinositide Metabolism in Hypertrophic Rat Heart  
Cardiovascular Effects of SKandF 64139, a PNMT Inhibitor, in Rats  
Left Ventricular Hypertrophy and Myopathy  
Expression of c-fos mRNA by Acute Pressure Overload in Perfused Rat Heart  
Spontaneous Arrhythmias and Heart Rate Variability in Several Models of Cardiac Hypertrophy in Rat: a Holter Monitoring Study  
Does Angiotensin II Accelerate Protein Synthesis in Adult Rat Hearts?  
Stretch Induces Hypertrophic Growth Through Renin-Angiotensin System in Cultured Neonatal Rat Myocytes  
Does Hypertrophic Cardiomyopathy Change into Dilated Cardiomyopathy-Like Features?  
Likage Analyses of Familial Hypertrophic Cardiomyopathy  
Presence of Angiotensinogen and Renin mRNAs and Angiotensinogen Protein in the Human Heart
Alteration in Cardiac Renin-Angiotensin System in Spontaneously Hypertensive Rats (SHR) p. 234
Keyword Index p. 239
