Cardiovascular and Renal Effects of Taurine

Effect of Taurine on Protein Kinase C Isoforms: Role in Taurine's Actions? p. 3

Taurine as the Nutritional Factor for the Longevity of the Japanese Revealed by a World-Wide Epidemiological Survey p. 13

Taurine-Mediated Cardioprotection is Greater When Administered upon Reperfusion than Prior to Ischemia p. 27

Vascular Modulation of Rat Aorta by Taurine p. 37

Modulation by Taurine of Human Arterial Stiffness and Wave Reflection p. 47

Taurine Suppresses Pressor Response Through the Inhibition of Sympathetic Nerve Activity and the Improvement in Baro-Reflex Sensitivity of Spontaneously Hypertensive Rats p. 57

Beneficial Effect of Taurine Treatment Against Doxorubicin-Induced Cardiotoxicity in Mice p. 65

Antihypertensive Effect of Taurine in Rat p. 75

Attenuating Action of Taurine and Labetalol on Cardiovascular Alterations by Pyridoxal-Isoproterenol, a Vitamin-Drug Interaction with Cardiopathologic Significance p. 85

Tool from Traditional Medicines is Useful for Health-Medication: Bezoar Bovis and Taurine p. 95

Mechanism of TauT in Protecting Against Cisplatin-Induced Kidney Injury (AKI) p. 105

TauT Protects Against Cisplatin-Induced Acute Kidney Injury (AKI) Established in a TauT Transgenic Mice Model p. 113

Perinatal Taurine Depletion Increases Susceptibility to Adult Sugar-Induced Hypertension in Rats p. 123

Sex Dependent Effects of Perinatal Taurine Exposure on the Arterial Pressure Control in Adult Offspring p. 135

Perinatal Taurine Alters Arterial Pressure Control and Renal Function in Adult Offspring p. 145

Effect of Taurine on Brain and Retina

Taurine Protects Immature Cerebellar Granular Neurons against Acute Alcohol Administration p. 159

Mechanism of Neuroprotective Function of Taurine p. 169

Taurine and Guanidinoethanesulfonic Acid (GES) Differentially Affects the Expression and Phosphorylation of Cellular Proteins in C6 Glial Cells p. 181

Taurine Improves Congestive Functions in a Mouse Model of Fragile X Syndrome p. 191

Functional Implication of Taurine in Aging p. 199

Effects of Taurine on Anxiety-Like and Locomotor Behavior of Mice p. 207

Taurine Transporter in Lymphocytes of Patients with Major Depression Treated with Venlafaxine Plus Psychotherapy p. 217

Effect of Medium Osmolarity and Taurine on Neuritic Outgrowth from Goldfish Retinal Explants p. 225

Localization of Taurine Transporter, Taurine, and Zinc in Goldfish Retina p. 233

Effect of Taurine on Skeletal Muscle p. 245

Effects of Taurine Administration on Exercise
Characterization of Myogenic Differentiation under Endoplasmic Reticulum Stress and Taurine Treatment p. 253

Gastroenteric and Hepatic Effects of Taurine

Dietary Taurine Attenuates Dextran Sulfate Sodium (DSS)-induced Experimental Colitis in Mice p. 265

Protective Effect of Taurine against Nitrosative Stress in the Stomach of Rat with Water Immersion Restraint Stress p. 273

Taurine Feeding Inhibits Bile Acid Absorption from the Ileum in Rats Fed a High Cholesterol and High Fat Diet p. 285

The Protective Effect of Taurine Against Hepatic Damage in a Model of Liver Disease and Hepatic Stellate Cells p. 293

Taurine Depletion by [beta]-Alanine Inhibits Induction of Hepatotoxicity in Mice Treated Acutely with Carbon Tetrachloride p. 305

Effect of Taurine on Alcoholic Liver Disease in Rats p. 313

Effect of Taurine on Bone

Does Taurine Deficiency Cause Metabolic Bone Disease and Rickets in Polar Bear Cubs Raised in Captivity? p. 325

The Preventive Effect of Fermented Milk Supplement Containing Tomato (Lycopersicon Esculentum) and Taurine on Bone Loss in Ovariectomized Rats p. 333

The Effects of Dietary Taurine Supplementation on Bone Mineral Density in Ovariectomized Rats p. 341

Effect of Taurine on Diabetes and Obesity

Taurine Supplementation and Pancreatic Remodeling p. 353

The Effects of Taurine, Taurine Homologs and Hypotaurine on Cell and Membrane Antioxidative System Alterations Caused by Type 2 Diabetes in Rat Erythrocytes p. 359

The Effects of Taurine, Hypotaurine, and Taurine Homologs on Erythrocyte Morphology, Membrane Fluidity and Cytoskeletal Spectrin Alterations Due to Diabetes, Alcoholism and Diabetes-Alcoholism in the Rat p. 369

Effect of PTP1B Inhibitors and Taurine on Blood Lipid Profiles in Adolescent Obesity p. 381

The Effects of Dietary Taurine Supplementation on Plasma and Liver Lipid in Ovariectomized Rats p. 389

Potential Therapeutic Effects of Taurine

Comparative Studies on 24-hour Urinary Excretion in Japanese and Chinese Adults and Children - Need for Nutritional Education p. 399

Taurine Normalizes Blood Levels and Urinary Loss of Selenium, Chromium, and Manganese in Rats Chronically Consuming Alcohol p. 407

Effect of Taurine Supplementation on Plasma Homocysteine Levels of the Middle-Aged Korean Women p. 415

Correlations Between Dietary Taurine Intake and Life Stress in Korean College Students p. 423

Dietary Taurine and Nutrients Intake and Anthropometric and Body Composition Data by Abdominal Obesity in Korean Male College Students p. 429

Taurine as an Antioxidant: Role in Immune System and Other Tissues

Taurine Haloamines and Heme Oxygenase-1 Cooperate in the Regulation of Inflammation and Attenuation of Oxidative Stress p. 439
