

Preface	p. vii
Modeling of impedance spectra	
Impedance of nonlinear current or voltage dependent devices	p. 3
Time domain simulations of constant phase elements using IIR filter	p. 9
Material measurement and testing	
Electrochemical characterization of packed beds by impedance spectroscopy measurements	p. 23
Measurement of the electric conductivity of highly conductive metals with 4-electrode impedance method	p. 35
Eddy current sensing	
Precise eddy current impedance measurement of metal plates	p. 43
High-speed impedance measurement for inline process control of hot-rolled rods	p. 47
Bio and environmental applications	
Analysis of body segments using bioimpedance spectroscopy and finite element method	p. 57
Design and evaluation of a portable device for the measurement of bio-impedance-cardiograph	p. 65
Implementing bio impedance spectroscopy for application specific multichannel measurement&diagnostic solutions	p. 73
Measurement methods	
Chirp pulse excitation in the impedance spectroscopy of dynamic subjectsùSignal modelling in time and frequency domain	p. 79
Measurement concept for broadband impedance spectroscopy analysers for process applications	p. 83
Corrosion	
The impact of decreasing chloride concentration on the corrosion state of steel in alkaline solution	p. 91
Author index	p. 101
