The Model of Sums: the Normal Distribution  p. 249
The Model of Products: the Lognormal Distribution  p. 262
The Model of_extremes: the Extreme Value Distributions  p. 271
Summary  p. 285
Additional Common Distributions  p. 286
The Equally Likely Model: the Rectangular or Uniform Distribution  p. 286
The Beta Distribution  p. 287
Sorne Normal Related Distributions: Chi-square, Chi, t, and F  p. 292
Summary  p. 301
Modified Distributions  p. 302
Shifted and Transformed Distributions  p. 302
Truncated and Censored Distributions  p. 304
Compound Distributions  p. 306
Summary  p. 311
Multivariate Models  p. 312
Counting Multiple Events: the Multinomial Distribution  p. 312
The Multivariate Normal Distribution  p. 314
Summary  p. 321
Markov Chains  p. 321
Simple Markov Chains  p. 322
Two-state Homogeneous Chains  p. 330
Multistate Markov Chains  p. 336
Summary  p. 347
Summary for Chapter3  p. 348
Probabilistic Models and Observed Data  p. 370
Estimation of Model Parameters  p. 372
The Method of Moments  p. 372
The Properties of Estimators: Their First-and Second-order Moments  p. 376
The Distributions of Estimators and Confidence-interval Estimation  p. 383
The Method of Maximum Likelihood  p. 396
Summary  p. 402
Significance Testing  p. 403
Hypothesis Testing  p. 404
Some Common Hypothesis Tests  p. 409
Summary  p. 418
Statistical Analysis of Linear Models  p. 419
Linear Models  p. 419
Statistical Analysis of Simple Linear Models  p. 428
Summary  p. 439
Model Verification  p. 440
