

Preface: The Dictionary

Geological time scale

Terrestrial chronology of the quaternary ice age in the northern hemisphere

Marine oxygen isotope chronology of the quaternary ice age

Wallace's zoogeographical regions

Phytogeographical regions

Terrestrial biomes

Tectonic plates

Major oceanic surface currents

Marine depth zones

Lacustrine depth zones

Soil profile and horizon nomenclature

Zonation of the atmosphere

Plankton size categories

Sediment particle size categories

Taxonomic hierarchy

SI units

Temperature conversion chart

The beaufort wind scale

Chemical elements

The electromagnetic spectrum

Composition of the atmosphere

Global distribution of water

The genetic code and amino acids

Signs and symbols

Acronyms and abbreviations

Latin abbreviations

Greek and Russian alphabets: Roman numerals

Proof correction marks

International paper sizes
