

Preface

Introduction, definition, and general characteristics

Essential criteria: distinguishing LIP from non-LIP events

Continental flood basalts and volcanic rifted margins

Oceanic LIPs: oceanic plateaus and ocean basin flood basalts and their remnants through time

Plumbing system of LIPs

Archean LIPs

Planetary LIPs

Silicic (Felsic) LIPs

Links with carbonatites, kimberlites, and lamprophyres/lamproites

Geochemistry of LIPs

LIPs and topographic changes

LIPs and rifting

LIPs and links with contractional structures

LIPs and environmental catastrophes

Assessing the origin of LIPs

LIPs and implications for mineral, hydrocarbon and water resources
