Information Brokerage: Gaia Service Assessment
Mall2000 -- A Document-Based Platform for Negotiations in Electronic Commerce
Adding Complexity to the Electronic Market Model: Lessons Learned from an Oil Industry Case Study
Agent-Based Decentralized Coordination for Electronic Markets
Towards an Intelligent Marketspace for Virtual Enterprises
Electronic Commerce System Supporting Scalable and High End Marketing Facility
Vr-Shopland: Online Shopping in A Virtual World as A Community Event
Feasibility Study on the Application of A Human Collaborative Robot System to the Inspecting Patrol of Nuclear Power Plants
User-Interface Design of the Support System for Constructing Virtual Environment
Hybrid Monitoring System for High Temperature Gas Cooling Reactor
Intelligent Plant Human-Machine Interface Based on Intent Inferencing
An Experimental Study on Implementing Real-Time Estimator of Human Cognitive Process into Eye-Sensing Head Mounted Display for Realizing Adaptive Cai for Teaching Plant Diagnosis Knowledge
Intellectual Simulation of Operating Team Behavior in Coping with Anomalies Occurring at Commercial Nuclear Power Plants
Reduction of Human Errors in Plant Operation Utilizing Human Error Correction Function as an Individual and Crew
Learning Human-Computer Interactive Process of Learning with Intelligence Tutoring System
Image Clustering by Computer with Human Oriented Emergence Algorithm
Human-Computer Cooperative Work for Design and Production Cycle
Human Cognitive Model for Organizational Design Suited to Task in Agile Manufacturing
Extending Effective Target Width in Fitts' Law to Two-Dimensional Pointing Task
Ergonomics Issues in Agile Manufacturing -- from an Occupational Health Viewpoint --
Virtual Vertical Integration as A Strategy for Agility
A Study on Organizational Aspects of Agile Manufacturing in Japan
Integration Approach for Agile Manufacturing Cell
Design and Evaluation of Air Traffic Control Support Tools
A Vertical Situation Display for Automated Aircraft - Design and Evaluation in Full Mission Simulation
The Search for Pilot's Ideal Complement: Experimental Results with the Crew Assistant Military Aircraft Cam
Flight Crew Factors for Ctas/Fms Integration in the Terminal Airspace
Visualization and Analysis of Flight Crew Procedure Performance
Influence of Interfaces on Human Performance in S&c of Large Technical Systems
An Operator Support System Based on Situation Similarity
Three-Dimensional Representation of Process Values
Identifying Core Sequences in Process Control Across Branches
Estimation of Plant Operator's Cognitive Modes Based on the Cognition Model
Human-Computer-Interactions in Call-Centers - Ergonomic Demands and Design Solutions
Call Centre: Technical and Organisational Challenges
Mental Load of Call Center Agents
New Design Solution for Call Centre Work Places from the Point of View of Furniture Manufacturer
Call Center - Interface Between Companies' Practice and the Competence Network of Safety and Health at Work in North-Rhine-Westfalia
Communication Beyond Reality
Preface
Acknowledgements
Information Networks and Communication
Focus Groups: A Qualitative Method to Elicit Culture-Specific User Requirements
A Direct Manipulation User Interface for the Control of Communication Processes - Making Call Handling Manageable -
User Interface Design -- the Driving Force for the Integration of Information and Communication
Transparent Communication Appliances
Mental Effort Increases When Adding A Voice Control Feature to A Familiar Interface
Contextual Research for Technological Innovation - Satisfying User Needs in the Design of Mobile Communication Devices
Defining User Requirements for Wap Services
Usability Evaluation of A High-Fidelity Smart Phone Prototype: Task Navigation Depth Affects Effectiveness
Sound in the Interface to A Mobile Computer
Strategy Differences in Data Flow Diagram Comprehension Between Intermediates and Novices
Using the Memory Load Measurement to Improve Software Development
Likes and Dislikes of Electronic Mail Addresses: A Users' Survey
Information Representation and Decision Process: Effects of Measurement Scale and Shape of Decision Matrix on Preferential Choice
Cultural and Cultivation Features on Web Designing: A Case Study of Gold Peach Community
Learning Path Planning Using Genetic Algorithm Approach
What Are You Looking at on the Web: Information or Applications?
"Search Manager": A Dynamic and Incremental Tool for Searching Complex Objects in Multihierarchical Structures p. 81
Using User Behavior Similarity for Recommendation Computation: the Broadway Approach p. 85
Developing HCl Design Principles for Information Retrieval Applications p. 91
The Link Between Data and Tasks - the Crucial Challenge in Designing User Interfaces for Information Retrieval Systems p. 97
Visualization in Document Retrieval p. 102
Designing Usable Keyword Search Systems p. 108
Expertise in a Complex Domain: Supporting Creativity Through Knowledge Visualisation and Re-Description p. 114
Visualization of Scientific Information in a Virtual Information Space p. 123
Maximizing Data Density: A Case Study of Visualization in Network Monitoring p. 128
Visualizing Collaborative Filtering Results p. 134
Dynamic Spatial Layout in Graphical User Interfaces p. 138
Emotion Recognition and Its Application to Computer Agents with Spontaneous Interactive Capabilities p. 143
Personal Service Assistants with Personality p. 148
An Empirical Study on the Trustworthiness of Life-Like Interface Agents p. 154
Agents in the Box p. 159
How to Get the Right Outfit for My Agent?: Classification- and Design Methodology for a Virtual Shopping Assistant in a 3d World p. 163
Recognition of Japanese Sign Language Words Using Finite Automata p. 168
Towards the Realization of Non-Verbal Communication - Computer Vision Based Technologies for Analyzing Human Images p. 174
Multiple Points Face-To-Face Communication in Cyberspace Using Multi-Modal Agent p. 178
Virtual Face-To-Face Communication System for Human Interaction Analysis by Synthesis p. 183
The Super Operator Concept - Wearable Information System for Manufacturing System Personnel p. 193
Supporting a Learning Operative Organization p. 197
Determinants of a Successful Hypermedia Application to Support Team-Based Maintenance p. 203
The Starwalker Virtual Environment -- an Integrative Design for Social Navigation p. 209
Influence of Interaction Modes on a Collaborative Task and Structure of Dialogues in Video Communication p. 213
Video in Digital Storys: A New Approach for Team Integration and Knowledge Management in Business Context p. 217
The Drawstream Station: A Tool for Distributed and Asynchronous Chats About Sketches and Artifacts p. 223
Visualisation in Collaborative Computer Mediated Dialogue p. 227
Wearing A Telephone  
Tailor to Fit  
A Sensor Network System for Human Support in Living Environments  
Electronic Manual: Helping Users with Ubiquitous Access  
Sensor-Based Adaptive Mobile User Interfaces  
Concurrent Engineering Activities Using Videophone Communications  
Ergonomic Approach to Customised Development of Videotelephony Applications  
Field Experiences of Providing Home Care and Related Services Over A Videophone  
Implementation Criteria for A Videophone System Used in Telemedicine - A Case in Finnish Health Care  
Multimedia Applications for Supporting Industrial Maintenance  
Supporting Cooperation  
Spaces for Creating Context & Awareness - Designing A Collaborative Virtual Work Space for (landscape) Architects  
Augmenting Self-Controlled Work Allocation in Workflow-Management-Applications  
Supporting Perspective Making and Perspective Taking: A Framework for Contextual Information  
Computer Supported Communication and Cooperation - Making Information Aware  
Enterprise Expert and Knowledge Discovery  
Concepts for Distributed Groupware Operating Systems  
Norms and Conventions in Collaborative Systems  
Improving Public Administration by Video Conferencing and Application Sharing - Mission Possible  
Towards an Awareness Infrastructure for Cooperative Applications  
Atmosphere: Towards Context-Selective Awareness Mechanisms  
Knowledge Lifecycle Management Along the Supply Chain  
„Why Did That Happen?“ -- Building Appropriate Mental Models on Groupware Functions  
Groupware Support for Chemical Process Design  
A Framework for Modelling and Designing Co-operation Support Systems  
Mobile and Seamless Collaboration in Engineering Company  
Group Work with Younger Children for Making Animated Stories  
An Introduction of the Accident Recovery by the Agent in Nuclear Power Plants  
Proposal of Visual Interfaces to Coordinate Decision Making in Hierarchical Structures and Their Application to Fire Systems  
Organisational Issues and Technical Support for De-Centralised Planning  
Tools for Computer-Supported Learning in Organisations  
Conventions for Cooperation - Lessons Learned from Videoconferencing  
Enhancing Participatory Design by Multiple Communication Channels
Being with Information Technology p. 393
Systems of Intellectual Capital in Collectivities from Work Organizations to Human Settlements: Some Conceptualizations p. 397
Learning in Networks p. 409
Team Performance in Complex Systems p. 413
Paper User-Interfaces for Local Community Support p. 419
Supporting Collaborative Information Activities in Networked Communities p. 422
Using the Paper User Interface to Support Community Involvement in Urban Development p. 428
Concepts as Handles for Sharing Knowledge from Documents p. 432
Cyber Rally: an Experience of Democratic Use of the Internet p. 433
Facilitating Community Knowledge Evolution by Talking Virtualized Egos p. 437
Supporting Cross-Cultural Communication in Real-World Encounters p. 443
Prairieknow: A Tool to Assist the Study, Creation, and Growth of Community Networks p. 448
Virtual Clubs: Timeout on the Internet p. 453
Orientation Vs Accommodation --New Requirements for the Hci of Digital Communities p. 458
Place People in Context -- the Awareness Forum p. 464
Networking Companies: From Basic Web Services to Business Extranet Solutions p. 467
Network Centric Computing Platform - the Contribution of Telcos to Networking Companies p. 474
Is Informal Communication Needed, Wanted and Supported? p. 477
Measurement of Team Problem Solving Performance Via A Computerized Quasi- Experimental Simulation p. 482
Building the Premise of A Virtual Organization: Obstacles and Enabling Conditions p. 487
Introducing Groupware in Administrative Environments - Experiences from the Poliwork Project p. 492
Towards A Teleworking Framework Based on Advanced Telematic Service Architectures p. 497
Results of Experiments in Text-Based, Synchronous, Distributed, Formal Electronic Meetings p. 507
Advantages and Disadvantages of A 3d Virtual Environment for Supporting Informal Communication in Distributed Workgroups Compared with A Text-Chat and A Chat/Cam System p. 512
Synchronous, Dynamic Derivative Generation in Computer-Supported Meetings p. 517
Context and Expectations in Teleconversations p. 523
User-Centred Design of A Virtual Meeting Environment for Ordinary People p. 528
User-Centred Design of A Virtual Meeting Environment for Ordinary People p. 528
