Preface

Corticosteroid Hormones and Signal Specificity p. 1

Brain Mineralocorticoid Receptor Function p. 8

Corticosteroids and the Control of Function in the Hypothalamo-Pituitary-Adrenal (HPA) Axis p. 22

Corticosteroid Action and Neuroendocrine-Immune Interactions p. 33

Glial and Neuronal Glucocorticoid Receptor Immunoreactive Cell Populations in Developing, Adult, and Aging Brain p. 42

The Functional Relevance of the Heteromeric Structure of Corticosteroid Receptors p. 68

The Binary Corticosteroid Response: Transcriptional Regulation by Mineralo- and Glucocorticoid Receptors p. 79

Corticosteroid Receptor Modulation in Transgenic Mice p. 89

Mechanistic and Functional Studies of Rapid Corticosteroid Actions p. 101

Basic Concept: Glucocorticoids and Stress: Permissive and Suppressive Actions p. 115

Special Lecture: Corticosteroids and Hippocampal Plasticity p. 134

Gene Products of Corticosteroid Action in Hippocampus p. 145

Corticosteroid-Induced Proteins in Brain p. 157

Gene-Mediated Control of Hippocampal Neuronal Excitability p. 166

Dexamethasone Reverses Adrenalectomy-Induced Neuronal De-differentiation in Midbrain Raphe-Hippocampus Axis p. 180

Glucocorticoids and Neurotrophin Gene Regulation in the Nervous System p. 195

Steroid Regulation of Cytokines: Relevance for TH1-to-TH2 Shift? p. 204

Basic Concept: Downregulation of the Glucocorticoid Receptor: a Mechanism for Physiological Adaptation to Hormones p. 216

Special Lecture: Pharmacology of Neurosteroid Biosynthesis: Role of the Mitochondrial DBI Receptor (MDR) Complex p. 223

In Vitro Studies of Glucocorticoid Effects on Neurons and Astrocytes p. 243

Environmental Regulation of the Development of Glucocorticoid Receptor Systems in the Rat Forebrain: the Role of Serotonin p. 260

Basic Concept: The Ontogeny of the Hypothalamic-Pituitary-Adrenal Axis: the Influence of Maternal Factors p. 275

The Physiological Relevance of Glucocorticoid Endangerment of the Hippocampus p. 294

The Glucocorticoid Hypothesis of Age-Related Hippocampal Neurodegeneration: Role of Dysregulated Intraneuronal Calcium p. 308

Hypothalamic-Pituitary-Adrenal Axis Regulation and Human Aging p. 327

Regulation of the Hypothalamic-Pituitary-Adrenal Axis in Dementia Disorders p. 336

Steroid Effects on Central Neurons and Implications for Psychiatric and Neurological Disorders p. 345

Glucocorticoid Resistance in Humans: Elucidation of the Molecular Mechanisms and Implications for Pathophysiology p. 362

Circadian Regulation of Basal Cortisol Levels in Posttraumatic Stress Disorder p. 378
Altered Responses of Cortisol, GH, TSH, and Testosterone to Acute Stress after Four Months' Practice of Transcendental Meditation (TM) p. 381

Effects of Hydrocortisone Infusion on rCBF in Schizophrenic Patients during a Memory Task: an O\([15]\) PET Study p. 385

Behavioral and Endocrine Impact of Impaired Type II Glucocorticoid Receptor Function in a Transgenic Mouse Model p. 388

Corticosterone Potentiation of Conditioned Fear in Rats p. 392

Modulation of the Locomotor Response to Amphetamine by Corticosterone p. 394

Evidence for Nitric Oxide-Mediated Rapid Locomotor Effects of Corticosterone in a Novel Environment p. 398

Glucocorticoid Receptor (GR)-Mediated Effects on Cocaine Kindling in Rats p. 400

Stress Dependent Impairments of Spatial Memory: Role of 5-HT p. 403

Adrenalectomy Impairs Spatial Memory in Rats p. 405

Adrenalectomy Leads to a Different Responsiveness to 8-OH-DPAT in a Water-Maze Learning Task p. 408

Stress Impairs LTP and Hippocampal-Dependent Memory p. 411

Hypertension and the Mineralocorticoid Receptor in the Brain p. 415

The Effects of RU 38486 and RU 28318 on Energy Balance of Ovariectomized Rats p. 418

Social Defeat Impairs Plasma Corticosterone Response to the 5-HT[1A] Agonist 8-OH-DPAT in the Rat p. 426

Regulation of Hippocampal Glucocorticoid Receptor Gene Expression by Psychosocial Conflict p. 429

Sex Differences in Type I Corticostero horizontal Receptor Binding in Selective Brain Areas of Rats p. 431

Interaction of Progesterone with the Hippocampal Mineralocorticoid Receptor p. 434

Lesion of the Central Nucleus of the Amygdala Decreases Basal CRH mRNA Expression and Stress-Induced ACTH Release p. 438

Lipocortin 1 and Hypothalamo-Pituitary Function in the Rat p. 441

The Role of Lipocortin 1 (LC1) in the Steroid Feedback Control of Hypothalamo-Pituitary-Adrenocortical Function: in Vivo Studies p. 446

Effects of Chronic Antidepressant Treatment on the Hypothalamic-Pituitary-Adrenal Axis of Wistar Rats p. 449

Glucocorticoid Negative Feedback in Pituitary Corticotropes: Pivotal Role for Calcineurin Inhibition of Adenylyl Cyclase p. 453

Early Glucocorticoid Inhibition of Hormone Release in Pituitary Corticotrope Cells Is Voltage Dependent p. 456

Modulation of Carbachol Responsiveness by Corticosteroid Hormones in Rat CA1 Pyramidal Neurons p. 460

Calbindin-D28K and Parvalbumin Immunoreactivity in the Rat Hippocampus following Adrenalectomy and Corticosterone Treatment p. 463

Central and Systemic Corticosterone Differentially Affect Dopamine and Norepinephrine in the Frontal Cortex of the Awake Freely Moving Rat p. 467

Dexamethasone Does Not Prevent Apoptosis in the Hippocampus of the Rat p. 470
