Development of Online Internet Laboratory (Online I-Lab) p. 1
E-Assessment Tool: A Course Assessment Tool Integrated into Knowledge Assessment p. 7
Developing Educational Applications Using Adaptive E-Learning Model p. 13
Web Laboratory Experiences for E-Learning: The Michelson Interferometer p. 19
Using Graphing Calculators for Teaching Advanced Calculus Courses p. 29
Systemic Design of Instruction on Achieving the Goals of Undergraduate Level Education in Universities: A Case Study of Makerere University p. 35
A Systems Model for Authentic Pedagogy: Conceptualizing a Scaleable, University-wide Production Curriculum p. 41
Evaluating the Usability of the Mobile Interface of an Educational Website p. 47
Enhancing High School Science Through Sensor-Based Lab Exercises p. 53
Blackboard Adoption and Adaptation Approaches p. 59
An Empirical Study of Product Metrics in Software Testing p. 64
A Dual-Mode Collaborative Teaching and Learning Classroom Environment p. 73
Can Multicore Processing Learn from Arithmetic Concepts? p. 79
Come Play p. 86
A Tool to Support Self-Education in a Lifelong Learning p. 92
Postgraduate Distance E-Learning Programme on IT in Construction p. 98
A Hybrid Lab for Evaluation of Analog ASICs p. 102
Blogging from the Top: A Survey of Higher Education Leaders' Use of Web 2.0 Technologies p. 106
Pattern-Based Usability Evaluation of E-Learning Systems p. 117
Computerized Education: What is Behind the Attractive Curtain? p. 123
E-Education Over Homogenous Network p. 129
From Software Engineering to Enterprise Engineering - Introduction to a Language-Critical Approach p. 135
On Translation-Based Design of UML Profiles p. 144
Was Dyslexia Used to Order the Alphabet? p. 150
Construction of Assessments with Double Adaptation Processes p. 156
A Study on How Software Engineering Supports Projects Management p. 161
Multi-Variant Assignment Generation and Assessment Techniques p. 166
Critique of Traditional Statistical Tests in Asset Pricing Models p. 171
Impact of Short Sale Constraints on Pricing of Restricted Stocks p. 175
Blogfolios for Student-Centered Reflection and Communication p. 179
Innovative Online Course Using an Integrated Virtual Reality Based E-Learning Tool with Course Management Tool p. 183
Understanding Math Concepts Through Computer-Modeled Virtual Objects p. 190
Knowledge Control Model of Distance Learning System on IMS Standard p. 195
Issues and Difficulties in Teaching Novice Computer Programming  p. 199
Activity Theory for Designing Ubiquitous Learning Scenarios  p. 205
An Inexpensive Approach for a Scalable, Multi-Boot Computer Lab  p. 210
Lessons from the E-Learning Experience in South Korea in Traditional Universities  p. 216
Some Innovations for Keeping an E-Learning System Alive  p. 223
Applying a Methodology for Educating Students with Special Needs: A Case Study  p. 229
A Model for Multiplayer Interactive Games in Cellular Wireless Environment  p. 241
An Evolutionary Algorithm for Query Optimization in Database  p. 249
Contribution to the Research and Education of Innovation Engineering and New Product Development at the University  p. 261
Our Stations for Teaching Programmable Devices  p. 268
Implementation of Learning Objects Using J2ME: Putting into Practice the Concept of M-Learning in Brazil  p. 274
Using a Domain-Ontology and Semantic Search in an E-Learning Environment  p. 279
Workshop in Instrumentation, Sensors, and Engineering (Wise) for Teachers  p. 285
A Course in Instrumentation&Monitoring of Civil Infrastructure  p. 292
Explaining Swarm Design Concepts Using an Interactive, Bottom-up Simulation Tool  p. 298
Students' Self-management: E-Course, E-Tutoring and Online Support System  p. 304
E-Learning Promotes Information Security  p. 309
E-DETECT-Virtual Platform for Education in Computed Tomography  p. 315
Formative Assessment and E-Portfolios Depository or Expository?  p. 321
A Web Service-based Solution for E-Learning Resources Annotation and Retrieval - Conceptual Architecture  p. 326
E-Learning and ERP as Large-Scale Technological and Organizational Changes in Universities  p. 332
Experience with Pedagogical Patterns in Introductory Java Course  p. 338
Automating The Work at KAI-RCS: A Case Study on Using an Imaging Database to Optimize the Selection Process of Projects Team Members  p. 342
Automating The Work at KAI-RCS: A Case Study on Using Imaging Databases to Follow-Up Projects  p. 351
Automating The Work at KAI-RCS: A Case Study on Using an Imaging Database to Administer and Manage The International Competition for King Khaled University Campus Architectural Design  p. 360
Response of First Active Teaching / Learning Course at Taibah University  p. 366
Superfluous Curriculum Burdens on Mechanical Engineering Students, Causes and Remedies

Distance Learning in Architectural Design Studio: Two Comparative Studies with One Onsite Teaching

Design Computing Education: A Comparative Study Among Learning Environments

Software Technique for Performance Evaluation of a Volumetric Screw Dosing System for Agro-Foods Bulk Solids

Test Harness Environment for Embedded Java Applications

Study Management and Allocation of Exercise Classes for Large Lectures at TU Berlin

The Changing Concept of Digital Divide

Brain Wave Games and E-Learning

Learning Property Management-Self-Regulation in Distance Learning

Training Geometry Teachers with Support of a Telepresence Tool

A Fuzzy Approach to Solving Multicriteria Investment Problems

Strengthening University-Industry Linkage in Developing Countries Through International Cooperation: Case of Sri Lanka Through Cooperation of Toyohashi University of Technology, Japan

Issues in Mobile Learning in Ghana

A First Investigation for Reducing E-Learning Environment Complexity by Multiscale

Virtualized Computer Labs and the Software Tools to Make It So

Ultrasound Medical Diagnostics Laboratory for Remote Learning in EVICAB Campus

An Integrated Course on Wavelet-Based Image Compression - Learning Abstract Information Theory on Visual Data

MOSFET Amplifier Using Advanced Analysis in PSpice

Assessment of Size Effects on Efficiency

ASM++ Diagrams Used on Teaching Electronic Design

Using Platform Virtualisation to Teach System Architectures in Undergraduate Computer Science - An Evaluation of Student Learning Experiences

Taxonomy of Linux Kernel Vulnerability Solutions

Competency-based, Customer-Oriented Curriculum Design Methodology: A Case Study

Using Embedded Systems for Literacy Teaching and Learning

The G[Superscript 2] Project: Establishing A CSU "Grand Grid" for Scientific Computing in Research and Education

Teaching and Assessing Graduate Ethics in Engineering, Science, and Technology

An Empirical Study of Potential Vulnerability Faults in Java Open-Source Software

An Analysis of Faulty and Fault-Free C++ Classes Using an Object-Oriented Metrics Suite
An Effective Construction of Computer Assisted Lesson Based on Interactive Multimedia Computer Assisted Instruction Theory (IMMCAI)  p. 526
Model of Structure of Personal Innovativeness in Education and Innovational Anxiety: Pilot Research Results  p. 532
The Role of System Dynamics in Learning Environments  p. 538
Dynamic Semantics of the Web: Useful Tool for the New Generation Agent-Based Software  p. 542
Reducing Assessment Complexity of Stem-Responses with Belnap's Logic  p. 548
Usability Engineering of an Interactive Voice Response System in a Diverse-Cultured and Multilingual Setting  p. 554
The Integrated Education of Transportation Engineers in Fields of Computer Graphics, Descriptive Geometry and Technical Drawings  p. 560
Demonstrations of Transmission Line Effects  p. 565
Web Tool for Teachers: Information Systems on Categorized Teacher Materials and Online Examination  p. 570
Teaching Operating Systems Using Visualization: A Comparative Study  p. 576
Leave Management Software for University Personnel  p. 581
Author Index  p. 593
Subject Index  p. 597
