

Foreword	p. xiii
Preface	p. xvii
Design and Art Across Digital Realities	
How Humans Interact with Computers	p. 3
Common Term Definition	p. 3
Introduction	p. 4
Modalities Through the Ages: Pre-Twentieth Century	p. 4
Modalities Through the Ages: Through World War II	p. 7
Modalities Through the Ages: Post-World War II	p. 8
Modalities Through the Ages: The Rise of Personal Computing	p. 10
Modalities Through the Ages: Computer Miniaturization	p. 12
Why Did We Just Go Over All of This?	p. 14
Types of Common HCI Modalities	p. 14
New Modalities	p. 20
The Current State of Modalities for Spatial Computing Devices	p. 20
Current Controllers for Immersive Computing Systems	p. 21
Body Tracking Technologies	p. 22
A Note on Hand Tracking and Hand Pose Recognition	p. 23
Voice, Hands, and Hardware Inputs over the Next Generation	p. 24
Designing for Our Senses, Not Our Devices	p. 29
Envisioning a Future	p. 30
Sensory Technology Explained	p. 30
So, Who Are We Building This Future For?	p. 33
The Role of Women in AI	p. 36
Sensory Design	p. 36
An Introduction	p. 37
Five Sensory Principles	p. 39
Intuitive Experiences Are Multisensory	p. 39
3D Will Be Normcore	p. 40
Designs Become Physical Nature	p. 41
Design for the Uncontrollable	p. 41
Unlock the Power of Spatial Collaboration	p. 42
Adobe's AR Story	p. 42
Conclusion	p. 44
How eXtended Reality Is Changing Digital Art	
Virtual Reality for Art	p. 47
A More Natural Way of Making 3D Art	p. 47
VR for Animation	p. 55
3D Art Optimization	p. 59
Introduction	p. 59
Options to Consider	p. 61

Ideal Solution	p. 61
Topology	p. 62
Baking	p. 66
Draw Calls	p. 72
Using VR Tools for Creating 3D Art	p. 73
Acquiring 3D Models Versus Making Them from Scratch	p. 73
Summary	p. 74
Hardware, SLAM, Tracking	
How the Computer Vision That Makes Augmented Reality Possible Works	p. 77
Who Are We?	p. 77
A Brief History of AR	p. 78
How and Why to Select an AR Platform	p. 80
I'm a Developer, What Platform Should I Use and Why?	p. 80
Performance Is Statistics	p. 80
Integrating Hardware and Software	p. 82
Optical Calibration	p. 83
Inertial Calibration	p. 85
The Future of Tracking	p. 87
The Future of AR Computer Vision	p. 88
Mapping	p. 91
How Does Multiplayer AR Work?	p. 95
What's the Difficult Part?	p. 96
How Does Relocalization Work?	p. 98
What's the State of the Art in Research (and Coming Soon to Consumer)?	p. 99
Can the Relocalization Problem Really Be Solved for Consumers?	p. 100
Can't Google or Apple Just Do This?	p. 101
Relocalization 1= Multiplayer; Its Also Critical for	p. 102
How Is Relocalization Really Being Done Today in Apps?	p. 104
Platforms	p. 107
Apple's ARKit	p. 107
Some Mysteries Explained	p. 109
Isn't ARCore Just Tango-Lite?	p. 110
So, Should I Build on ARCore Now?	p. 111
What About Tango, Hololens, Vuloria, and Others?	p. 112
Other Development Considerations	p. 113
Lighting	p. 113
Multiplayer AR-Why It's Quite Difficult	p. 114
How Do People Connect Through AR?	p. 115
How Do AR Apps Connect to the World and Know Where They Really Are?	p. 116
How Do AR Apps Understand and Connect to Things in the Real World?	p. 117
The AR Cloud	p. 119

What I Envision When I Think About the AR Cloud	p. 119
How Big a Deal Is the AR Cloud?	p. 120
So, Just What Is This AR Cloud?	p. 121
Why All the "Meh" from the Press for ARKit and ARCore?	p. 121
What's Missing to Make a Great AR App?	p. 121
Is Today's Mobile Cloud up to the Job?	p. 122
Is ARKit (or ARCore) Useless Without the AR Cloud?	p. 122
The Dawn of the AR Cloud	p. 123
The Bigger Picture-Privacy and AR Cloud Data	p. 125
Glossary	p. 128
Creating Cross-Platform Augmented Reality and Virtual Reality	
Virtual Reality and Augmented Reality: Cross-Platform Theory	p. 135
Why Cross-Platform?	p. 136
The Role of Game Engines	p. 138
Understanding 3D Graphics	p. 139
The Virtual Camera	p. 139
Degrees of Freedom	p. 140
Portability Lessons from Video Game Design	p. 143
Simplifying the Controller Input	p. 145
Development Step 1: Designing the Base Interface	p. 146
Development Step 2: Platform Integration	p. 148
Summary	p. 151
Virtual Reality Toolkit: Open Source Framework for the Community	p. 153
What Is VRTK and Why People Use It?	p. 153
The History of VRTK	p. 154
Welcome to the Steam VR Unity Toolkit	p. 154
VRTK v4	p. 156
The Future of VRTK	p. 157
The Success of VRTK	p. 159
Getting Started with VRTK 4	p. 160
Three Virtual Reality and Augmented Reality Development Best Practices	p. 167
Developing for Virtual Reality and Augmented Reality Is Difficult	p. 167
Handling Locomotion	p. 168
Locomotion in VR	p. 169
Locomotion in AR	p. 176
Effective Use of Audio	p. 178
Audio in VR	p. 179
Audio in AR	p. 182
Common Interactions Paradigms	p. 183
Inventory for VR	p. 184
Augmented Reality Raycasts	p. 187

Conclusion	p. 188
Enhancing Data Representation: Data Visualization and Artificial Intelligence in Spatial Computing	
Data and Machine Learning Visualization Design and Development in Spatial Computing	p. 193
Introduction	p. 193
Understanding Data Visualization	p. 194
Principles for Data and Machine Learning Visualization in Spatial Computing	p. 195
Why Data and Machine Learning Visualization Works in Spatial Computing	p. 197
The Evolution of Data Visualization Design with the Emergence of XR	p. 197
2D and 3D Data Represented in XR	p. 200
2D Data Visualizations versus 3D Data Visualization in Spatial Computing	p. 200
Interactivity in Data Visualizations in Spatial Computing	p. 201
Animation	p. 202
Failures in Data Visualization Design	p. 204
Good Data Visualization Design Optimize 3D Spaces	p. 204
"Savings in Time Feel Like Simplicity"	p. 205
Data Representations, Infographics, and Interactions	p. 205
What Qualifies as Data Visualization?	p. 206
Defining Distinctions in Data Visualization and Big Data or Machine Learning Visualizations	p. 207
How to Create Data Visualization: Data Visualization Creation Pipeline	p. 207
WebXR: Building Data Visualizations for the Web	p. 208
Data Visualization Challenges in XR	p. 209
Data Visualization Industry Use Case Examples of Data Visualizations	p. 210
3D Reconstruction and Direct Manipulation of Real-World Data: Anatomical Structures in XR	p. 212
A Closer Look at Glass Brain	p. 212
TVA Surg Medical Imaging VR Module	p. 213
Data Visualization Is for Everyone: Open Source-Based Data Visualization in XR	p. 213
Protein Data Visualization	p. 215
Hands-On Tutorials: How to Create Data Visualization in Spatial Computing	p. 216
How to Create Data Visualization: Resources	p. 217
Conclusion	p. 218
References	p. 219
Resources	p. 220
Data Visualization Tools	p. 220
Machine Learning Visualization Tools	p. 220
Data Journalism Visualizations	p. 220
Glossary	p. 221
Character AI and Behaviors	p. 223
Introduction	p. 223
Behaviors	p. 226

Current Practice: Reactive AI	p. 229
Adaptability	p. 231
Complexity and Universality	p. 231
Feasibility	p. 232
More Intelligence in the System: Deliberative AI	p. 233
Machine Learning	p. 241
Reinforcement Learning	p. 242
Deep Reinforcement Learning	p. 243
Imitation Learning	p. 244
Combining Automated Planning and Machine Learning	p. 245
Applications	p. 246
Conclusion	p. 247
References	p. 248
Use Cases in Embodied Reality	
The Virtual and Augmented Reality Health Technology Ecosystem	p. 255
VR/AR Health Technology Application Design	p. 256
Standard UX Isn't Intuitive	p. 257
Pick a Calm Environment	p. 258
Convenience	p. 258
Tutorial: Insight Parkinson's Experiment	p. 259
What Insight Does	p. 259
How It Was Built	p. 260
Companies	p. 264
Planning and Guidance	p. 264
Experiences Designed for Medical Education	p. 265
Experiences Designed for Use by Patients	p. 267
Proactive Health	p. 269
Case Studies from Leading Academic Institutions	p. 270
The Fan Experience: SportsXR	p. 277
Introduction	p. 277
Five Key Principles of AR and VR for Sports	p. 280
Nothing Is Live	p. 281
The Next Evolution of Sports Experiences	p. 285
Making the Future	p. 287
Ownership	p. 289
Final Thought	p. 292
Conclusion	p. 293
Virtual Reality Enterprise Training Use Cases	p. 295
Introduction: The Importance of Enterprise Training	p. 295
Does VR Training Work?	p. 296
Use Case: Flood House Training	p. 298

What Is VR Training Good for? R.I.D.E.	p. 302
What Makes Good VR Training?	p. 303
Spherical Video	p. 304
The Benefits of Spherical Video	p. 305
The Challenges of Spherical Video	p. 305
Interactions with Spherical Video	p. 305
Use Case: Factory Floor Training	p. 310
The Role of Narrative	p. 311
Use Case: Store Robbery Training	p. 312
The Future of XR Training: Beyond Spherical Video	p. 314
Computer Graphics	p. 314
Use Case: Soft Skills Training	p. 314
The Future: Photogrammetry	p. 316
The Future: Light Fields	p. 317
The Future: AR Training	p. 318
The Future: Voice Recognition	p. 319
The Future: The Ideal Training Scenario	p. 319
References	p. 320
Afterword	p. 321
Index	p. 323
