

Preface

Abbreviations

Free radicals and antioxidants in normal and pathological processes p. 1

Lipid transport and lipoprotein metabolism p. 33

The chemistry of oxidation of lipoproteins p. 55

Free radicals in the vasculature: pathological and physiological significance p. 81

Cell-mediated oxidation of lipoproteins p. 99

Ceroid, macrophages and atherosclerosis p. 131

Vascular responses during the development of atherosclerosis and lipoprotein oxidation p. 143

Free radicals and the inflammatory response p. 161

Subject index p. 181
