Preface

Acknowledgements

High Pressure Microbiology: Invited Review p. 1

Hyperbaric Superfusion Experiments Using Synaptosomes Prepared from Deep Frozen Brain p. 15

Pressure Induced Disruption of the Cytoskeleton and the Protein Synthesizing Machinery p. 23

Human Osteosarcoma Cells Alter Cytoskeletal and Adhesion Proteins in Response to Physiological Levels of Hydrostatic Pressure p. 31

Effect of Mild Hydrostatic Pressure on Red Blood Cell Aggregability p. 41

Effects of Elevated Pressures of Inert and Narcotic Gases on Basal and Stimulated Free Cystolic Calcium Levels of Human Platelets p. 47

Hyperbaric Superfusion of Synaptosomes Using Heliox Saturated Solutions p. 57

Decompression-Inducible Platelet Aggregation (DIPA) p. 63

Pressure-Induction of Diploid Gynogenesis in the Eggs of African Catfish (Clarias garepinus) p. 73

Molecular Responses to Hydrostatic Pressure: Invited Review p. 83

Molten-Globule and Collapsed States Under Pressure p. 99

Pressure Induced Salt-Bridge Rupture and Aggregate Dissociation of Homopolypeptides p. 111

The Use of High Pressure Spectroscopy to Determine the Perturbations of Lipid Membranes Caused by Cholesterol p. 119

Pressure Effects on Ligand Binding Kinetics for Hemoproteins p. 131

Physico-Chemical State of the Cell Membranes After Effect of Increased Pressure of the Medium p. 141

Pressure-Induced Reversible Changes in Secondary Structure of Ribonuclease A: An FT-IR Spectroscopic Study p. 147

Nervous System at High Pressure: Invited Review p. 157

Mice and Monkeys Deep Dives in Heliox, Hydrox and Hydreliox Gas Mixtures - Synthesis of COMEX "Hydra" Programme p. 173

Effects of 5 MPa Heliox Pressure Anaesthesia on Dopaminergic Pathway: An In Vivo Neurochemical and Receptor Study p. 185

High Pressure Effects on Modulation of Mammalian Spinal Monosynaptic Reflex p. 193

Species Dependency of a Partial Agonist at the GABA-Benzodiazepine Receptor Against the High Pressure Neurological Syndrome (HPNS) p. 201

Quantal Analysis of Synaptic Currents at High Pressure p. 213

Adaptive Ganglioside Effect on Mouse Motor Activity Under High He or O2 Pressure p. 221

Nitrogen Narcosis and High Pressure Nervous Syndrome: Experimental Study in Rabbits p. 231

Effect of High Helium Pressure upon Lipoperoxidation in Rat Cerebral Cortical Slices p. 237

Neurophysiological Studies in Macaca Fascicularis During Exposures with Breathing Mixtures Containing Hydrogen up to 1200 MSW p. 243
