Jade and Jade-Working Methods

A Stone Kneeling Figure in the Art Institute of Chicago: New Evidence from Scientific Investigations and Archaeological Finds in China p. 3

A Noninvasive Mineralogical Study of Nephrite Artifacts from the Philippines and Surroundings: The Distribution of Taiwan Nephrite and Implications for Island Southeast Asian Archaeology p. 12

The Introduction of Rotary Incising Wheels for Working Jade in China p. 20

A Transfer of Technology: Jade Abrasive Methods Used to Create Inscriptions in Ancient Chinese Bronzes p. 26

Bronze, Iron, and Precious Metals

Technical Studies of Proto-Zhou and Early Western Zhou Bronze Vessels Excavated in Guanzhong, Shaanxi Province, China p. 39

Large Cast-iron Artifacts in Ancient China from the Seventh Century Onward: Technology and Conservation p. 48

Technical Study and Elemental Analysis of Chinese Gold from the Late Eastern Zhou Period p. 53

Elemental Composition of Sri Lankan Bronzes: Technological Style and Change p. 63

The Bronzes of the South of India: A Continuing Tradition? p. 75

Casting Compassion: The Technical Study of a Large Bronze from Tibet p. 90

Earth-Based Materials

New Methods for Analyzing Thin Sections of Casting Core Materials: A Case Study with Southeast Asian Bronzes p. 103

Mineralogical Characteristics of Khmer Stone Sculpture in the Bayon Style p. 115

Tibetan Buddhist Clay Figures: A Technical Examination p. 125

Analysis and Replication

Documenting Mongolia's Deer Stones: Application of Three-Dimensional Digital Imaging Technology to Preservation p. 133

The Scientific Study, Conservation, and Reproduction of a Sacred Lion Mask p. 143

Polychromy and Wood

Nondestructive Investigation of the Polychromy of Japanese Sculptures p. 159

Surface Decoration on the Limestone Sculptures from Qingzhou, Shandong Province, China p. 165

Polychrome Decoration on Far Eastern Gilt Bronze Sculptures of the Eighth Century p. 174

Examination and Analysis of the Chinese Polychrome Sculptures in the Collection of the Royal Ontario Museum p. 188

The Study of Buddhist Sculptures from Japan and China Based on Wood Identification p. 198

Chinese Buddhist Wood Sculptures of Water-Moon Guanyin: Preliminary Research on Their Wood Construction and Material p. 205
