Chronic TVP-1012 (rasagiline) dose - activity response of monoamine oxidases A and B in the brain of the common marmoset p. 271

Increased striatal dopamine production from L-DOPA following selective inhibition of monoamine oxidase B by R(+)-N-propargyl-1-amino-indan (rasagiline) in the monkey p. 279

Effects of N-proparagyl-1-(R)aminoindan (rasagiline) in models of motor and cognition disorders p. 287

(R)(+)-N-Propargyl-1-aminoindan (rasagiline) and derivatives: highly selective and potent inhibitors of monoamine oxidase B p. 301

Function of endogenous monoamine oxidase inhibitors (tribulin) p. 307

Long term administration of (-)-deprenyl increases mortality in male Wistar rats p. 315

Selegiline as immunostimulant - a novel mechanism of action? p. 321

Clorgyline effect on pineal melatonin biosynthesis in rats with lesioned suprachiasmatic nuclei p. 329

The effect of MAO-A inhibition and cold-immobilization stress on N-acetylserotonin and melatonin in SHR and WKY rats p. 333

The influence of the antidepressant pirindole and its dehydroderivative on the activity of monoamine oxidase A and GABA[subscript A] receptor binding p. 337

"In vitro" effect of some 5-hydroxy-indolalkylamine derivatives on monoamine up-take system p. 343

N-Alkyloxycarbonyl derivatives of ethylene diamine as monoamine oxidase inhibitors p. 351
