BPD Workshop
Introduction to the Fourth Workshop on Business Process Design (BPD 2009) p. 3
Diagnosing and Repairing Data Anomalies in Process Models p. 5
Designing Generic Business Processes Based on SOA: An Approach and a Use Case p. 17
From Requirements to Executable Processes: A Literature Study p. 42
Towards a Framework for Business Process Standardization p. 53

BPI Workshop
Introduction to the Fifth International Workshop on Business Process Intelligence (BPI 2009) p. 67
Analyzing Resource Behavior Using Process Mining p. 69
Mobile Workforce Scheduling Problem with Multitask-Processes p. 81
Understanding Spaghetti Models with Sequence Clustering for ProM p. 92
Flexible Multi-dimensional Visualization of Process Enactment Data p. 104
Autonomous Optimization of Business Processes p. 116
Activity Mining by Global Trace Segmentation p. 128
A Formal Model for Process Context Learning p. 140
Process Mining: Fuzzy Clustering and Performance Visualization p. 158
Trace Clustering Based on Conserved Patterns: Towards Achieving Better Process Models p. 170
Visualization of Compliance Violation in Business Process Models p. 182

BPMS2 Workshop
Introduction p. 197
Augmenting BPM with Social Software p. 201
Enabling Community Participation for Workflows through Extensibility and Sharing p. 207
AGILIPSO: Embedding Social Software Features into Business Process Tools p. 219
Workflow Management Social Systems: A New Socio-psychological Perspective on Process Management p. 231
Requirements Elicitation as a Case of Social Process: An Approach to Its Description p. 243
Co-creation of Value in IT Service Processes Using Semantic Media Wiki p. 255
Models, Social Tagging and Knowledge Management - A Fruitful Combination for Process Improvement p. 266
Micro Workflow Gestural Analysis: Representation in Social Business Processes p. 278

CBP Workshop
Introduction to the Third International Workshop on Collaborative Business Processes (CBP 2009) p. 293
HLA/RTI-Based BPM Middleware for Collaborative Business Process Management p. 295
Collaborative Specification of Semantically Annotated Business Processes p. 305
A Modeling Approach for Collaborative Business Processes Based on the UP-ColBPIP Language p. 318

Process Design Selection Using Proximity Score Measurement p. 330

edBPM Workshop

Introduction to the Second International Workshop on Event-Driven Business Process Management (edBPM09) p. 345

Feasibility of EPC to BPEL Model Transformations Based on Ontology and Patterns p. 347

New Event-Processing Design Patterns Using CEP p. 359

Towards an Executable Semantics for Activities Using Discrete Event Simulation p. 369

External and Internal Events in EPCs: e²EPCs p. 381

An Event-Driven Modeling Approach for Dynamic Human-Intensive Business Processes p. 393

Healthcare Process Mining with RFID p. 405

SLA Contract for Cross-Layer Monitoring and Adaptation p. 412

ER-BPM Workshop

The Concept of Process Management in Theory and Practice - A Qualitative Analysis p. 429

Requirements for BPM-SOA Methodologies: Results from an Empirical Study of Industrial Practice p. 453

On Measuring the Understandability of Process Models p. 465

Declarative versus Imperative Process Modeling Languages: The Issue of Maintainability p. 477

Tangible Business Process Modeling - Methodology and Experiment Design p. 489

A Comparison of Soundness Results Obtained by Different Approaches p. 501

Empirical Analysis of a Proposed Process Granularity Heuristic p. 513

BPMNCommunity.org: A Forum for Process Modeling Practitioners -- A Data Repository for Empirical BPM Research p. 525

From ADEPT to AristaFlow BPM Suite: A Research Vision Has Become Reality p. 529

ProHealth Workshop

A Hybrid Multi-layered Approach to the Integration of Workflow and Clinical Guideline Approaches p. 539

Learning the Context of a Clinical Process p. 545

A Light-Weight System Extension Supporting Document-Based Processes in Healthcare p. 557

¿-Flow: A Document-Based Approach to Inter-institutional Process Support in Healthcare p. 569

An Approach for Managing Clinical Trial Applications Using Semantic Information Models p. 581
Workflow for Healthcare: A Methodology for Realizing Flexible Medical Treatment Processes  p. 593
BPR Best Practices for the Healthcare Domain  p. 605
Verification of Careflow Management Systems with Timed BDICTL Logic  p. 623
Process-Aware Information System Development for the Healthcare Domain - Consistency, Reliability, and Effectiveness  p. 635
RefMod Workshop  p. 657
Introduction to the 12th International Workshop on Reference Modeling (RefMod 2009)  p. 659
Enabling Widespread Configuration of Conceptual Models - An XML Approach  p. 671
On the Contribution of Reference Modeling to e-Business Standardization -- How to Apply Design Techniques of Reference Modeling to UN/CEFACT's Modeling Methodology  p. 683
The Potential of Reference Modeling for Simulating Mobile Construction Machinery  p. 695
On the Contribution of Reference Modeling for Organizing Enterprise Mashup Environments  p. 707
Author Index  p. 707
