Preface

Morphology and Developmental Anatomy

The Development and Involution of Tonsils p. 1
Three-Dimensional Ultrastructure of the Secondary Nodule of the Human Palatine Tonsil p. 5
The Microvasculature of the Human Palatine Tonsil and Its Role in the Homing of Lymphocytes p. 11
Functional Morphology of Tonsillar Germinal Center p. 16
Phylogenic and Ultrastructural Properties of the Primitive Tonsils of Laboratory Suncuses p. 21
Autonomic Nervous System in the Tonsil p. 28
Relationship between Lymphatic and Glandular Tissue in the Larynx p. 32
Contacts between Nerves and Lymphocytes in Human Tonsils p. 37
Allergic Tonsillitis. A Histopathological Study p. 41
Electron Microscope Observations on the Nasopharyngeal Tonsil in Children with Allergic Rhinosinusitis p. 46
High Endothelial Venules in the Developing Human Palatine Tonsil p. 54
Structure of the Palatine Tonsil in European Insectivores p. 59

Immunology and Immunopathology

Immunology and Immunopathology of Tonsils p. 64
Tonsils: The Gatekeeper of Mucosal Immunity? p. 76
Antigen-Presenting Cells in the Nasopharyngeal Tonsil. A Quantitative Immunohistochemical Study p. 80
HLA-DR Antigen Expression in Tonsillar Epithelium p. 91
Immunohistological Studies on Immunocompetent Cells in Palatine Tonsil p. 97
T-Lymphocyte Role in the Immunological Reactivity of Palatine Tonsil p. 101
Function and Morphology of Macrophages in Palatine Tonsils p. 107
The Role of Integrins in Tonsil p. 114
Immunological and Bacteriological Studies on Mucosa-Associated Lymphatic Tissue in Children with SOM p. 120
Intraepithelial [gamma]-[delta] T Cells in Normal and Hypertrophic Rhinopharyngeal Tonsils p. 124
A Role of Tonsillar Lymphocyte for Focal Infection. With Special Reference to Lymphocyte Adhesion to Vessels in Dermis p. 129

Tonsillar Infection

Evolution of the Bacterial Flora in Recurrent Adenotonsillitis. Therapeutic Implications p. 134
Interfering [alpha]-streptococci as a Protection against Recurrent Streptococcal Pharyngotonsillitis p. 142
Bacteriology of Tonsils in Children: Comparison between Recurrent Acute Tonsillitis and Tonsillar Hypertrophy p. 146
Epstein-Barr Virus in Waldeyer's Lymphatic Tissue p. 151
Experimental Study of the Pathological Changes of Rabbit Tonsils Exposed to Anthracite Coal Briquette Gas p. 161
