# **Controlled Drug Delivery**

## **Designing Technologies for the Future**

**Kinam Park, EDITOR**

*Purdue University*

**Randall J. Mrsny, EDITOR**

*Genentech, Inc.*

American Chemical Society, Washington, DC

# Contents

Preface .....	xi
---------------	----

## OVERVIEW

1. <b>Controlled Drug Delivery: Present and Future</b> .....	2
Kinam Park and Randall J. MRSNY	

### ORAL DELIVERY: DESIGN CONSIDERATION AND CHALLENGES

2. <b>Controlled-Release Oral Delivery Systems</b> .....	14
Joseph A. Fix, Kazuhiro Sako, and Toyohiro Sawada	
3. <b>Safe Mucosal Penetration Enhancers: A Fiction? Polymers as Absorption Enhancers for Transmucosal Drug Delivery</b> .....	25
H. E. Junginger, M. Thanou, H. L. Lueßen, A. F. Kotzé, and J. C. Verhoef	
4. <b>Prodrug Strategies to Improve the Oral Absorption of Peptides and Peptide Mimetics</b> .....	36
Ronald T. Borchardt and Binghe Wang	
5. <b>Designing Prodrugs for the hPEPT1 Transporter</b> .....	46
Hyo-kyung Han and Gordon L. Amidon	
6. <b>Oral Delivery of Heparin</b> .....	54
Andrea Leone-Bay, Theresa Rivera-Schaub, Rajesh Agarwal, Mark Gonze, Sam Money, Connie Rosado-Gray, and Robert A. Baughman	
7. <b>Hypoglycemic Effect of Insulin in Oil Preparation by Oral Administration</b> .....	65
M. X. Duan, J. H. Guo, H. Ma, Y. Zuo, and C. X. Zheng	
8. <b>Feasibility Assessment and Rapid Development of Oral Controlled Release Prototypes</b> .....	69
Avinash G. Thombre	
9. <b>The Effect of Adhesive Antioxidant Enzymes on Experimental Colitis in the Rat</b> .....	78
Abraham Rubinstein, Sigal Blau, Paul Bass, and Ron Kohen	
10. <b>Oral Dosage Forms with Controlled Release for Constant Plasma Drug Level</b> .....	90
A. Ainaoui, E. M. Ouriemchi, and J. M. Vergnaud	

## DELIVERY STRATEGIES

11. **Solving Drug Delivery Problems with Liposomal Carriers**..... 100  
Theresa M. Allen
12. **PEGylation: A Tool to Enhance Protein Delivery** ..... 110  
Wayne R. Gombotz and Dean K. Pettit
13. **Polymeric Delivery Vehicles for Bone Growth Factors** ..... 124  
Lichun Lu, Susan J. Peter, Georgios N. Stamatias, and Antonios G. Mikos
14. **De Novo Design and Synthesis of a Small Globular Protein That  
Forms a Pore in Lipid Bilayers**..... 139  
Sannamu Lee, H. Michael Ellerby, Taira Kiyota, and Gohsuke Sugihara
15. **Natural Pore Forming Proteins: Paneth Cell Cryptidins** ..... 149  
W. I. Lencer, D. Merlin, A. J. Ouellette, M. E. Selsted, and J. L. Madara
16. **Growth Factor Delivery from Tissue Engineering Matrices: Inducing  
Angiogenesis to Enhance Transplanted Cell Engraftment** ..... 157  
Martin C. Peters and David J. Mooney

## DRUG TARGETING

17. **Targeting Macromolecular Therapeutics to Specific Cell Organelles** ..... 168  
Gilbert-André Keller, Wenlu Li, and Randall J. Mrsny
18. **Modified Liposome Formulations for Cytosolic Delivery  
of Macromolecules**..... 184  
Kyung-Dall Lee and Gretchen M. Larson
19. **Molecular Targeting of Nuclear Transcriptional Regulators** ..... 193  
Yon Rojanasakul, Q. Luo, J. Ye, D. Faroonsargn, S. Dokka, and X. Shi
20. **Cell-Specific Targeting of Drugs and Genes with Glycosylated  
Liposomes: Comparison with Glycosylated Poly(amino acids)** ..... 201  
Mitsuru Hashida, Makiya Nishikawa, Fumiyoshi Yamashita,  
and Yoshinobu Takakura
21. **Targeted Gene Delivery via the Folate Receptor** ..... 212  
Wenjin Guo and Robert J. Lee
22. **Latest Advances in the Understanding of Active-Specific  
Immunotherapy for Brain Tumors** ..... 220  
Yang Liu, Qingzhong Kong, Ka-yun Ng, and Kevin Lillehei

## MODULATED DRUG DELIVERY VEHICLES

23. **Application of pH- and Temperature-Sensitive Polymers for Controlled Drug Release Device** ..... 232  
Soon Hong Yuk, Jung Ki Seo, Jin Ho Lee, and Sun Hang Cho
24. **Characterization of Poly(2-ethylacrylic acid) for Use in Drug Delivery** ..... 243  
Jeffrey G. Linhardt and David A. Tirrell
25. **Synthesis and Characterization of Thermoreversible, Protein-Conjugating Polymers Based on *N*-Isopropylacrylamide**..... 253  
Hasan Uludag and Xiao-Dong Fan
26. **A Novel Composite Membrane for Temperature- and pH-Responsive Permeation** ..... 263  
F. Yam, X. Y. Wu, and Q. Zhang
27. **Glucose Monitoring via Reverse Iontophoresis** ..... 273  
Neil Ackerman, Bret Berner, Jim Biegajski, Qiang Chen, Hilary Chen, Tom Conn, Hardip Dehal, Tim Dunn, Al Ewing, Steve Fermi, Russell Ford, Priya Jagasia, Yalia Jayalakshmi, Priti Joshi, Brian Kersten, Ronald Kurnik, Tim Lake, Matt Lesho, Jan-Ping Lin, David Liu, Margarita Lopatin, Lexa Mack, Heather Messenger, Sam Morley, Michelle Oliva, Norman Parris, Russell Potts, Jeff Pudlo, Michael Reidy, Pravin Soni, Janet Tamada, Michael Tierney, Christopher Uhegbu, Prema Vijayakumar, Charles Wei, Steve Williams, Don Wilson, and Christine Wu

## DELIVERY VEHICLES FOR HYDROPHOBIC DRUGS

28. **Self-Emulsifying Drug Delivery Formulations in the 21<sup>st</sup> Century: Challenges and Opportunities** ..... 284  
Panayiotis P. Constantinides
29. **Polymeric Micelles for the Delivery of Poorly Soluble Drugs** ..... 297  
Vladimir P. Torchilin and Volkmar Weissig
30. **The Role of Plasma Lipoproteins as Carriers of Water-Insoluble Compounds: Biological and Physiological Consequences** ..... 314  
Kishor M. Wasan, Manisha Ramaswamy, Allison L. Kennedy, Kathy Peteherych, and Wesley Wong
31. **Polymeric Lipid Nanosphere Composed of Hemocompatible Phospholipid Polymers as Drug Carrier** ..... 324  
Kazuhiko Ishihara
32. **Solubility Considerations and Design of Controlled Release Dosage Forms**..... 335  
Gopi M. Venkatesh

## POLYMERIC DRUG DELIVERY VEHICLES

<b>33. Polymer Therapeutics into the 21<sup>st</sup> Century</b> .....	<b>350</b>
Ruth Duncan	
<b>34. Controlled Release from Ordered Microstructures Formed by Poloxamer Block Copolymers</b> .....	<b>364</b>
Lin Yang and Paschalis Alexandridis	
<b>35. Supramolecular-Structured Polymers for Drug Delivery</b> .....	<b>375</b>
Tooru Ooya and Nobuhiko Yui	
<b>36. Fentanyl-Loaded Poly(L-lactide-co-glycolide) Microspheres for Local Anesthesia</b> .....	<b>385</b>
Hai Bang Lee, Gilson Khang, Jin Cheol Cho, John M. Rhee, and Jung Sik Lee	
<b>37. Ionically Cross-Linked Polyphosphazene Microspheres</b> .....	<b>395</b>
Alexander K. Andrianov, Jianping Chen, Sameer S. Sule, and Bryan E. Roberts	
<b>38. Polysaccharide as a Drug-Coating Polymer</b> .....	<b>407</b>
Ki-Young Lee, Kun Na, and Yu-Eun Kim	
<b>39. Preparation of Blood-Compatible Nanoparticles Bearing Phosphorylcholine Group</b> .....	<b>417</b>
Kazuhiko Ishihara, Tomohiro Konno, Kimio Kurita, Yasuhiko Iwasaki, and Nobuo Nakabayashi	
<b>Author Index</b> .....	<b>429</b>
<b>Subject Index</b> .....	<b>431</b>
