Contents

Foreword by Prof. Mohammad Shafi	iii
<i>Preface</i>	iv
<i>Acknowledgements</i>	ix
1. Introduction	1
2. Environmental Setting	16
3. Geomorphic Characteristics	39
4. Morphometric Characteristics : "Drainage Basin Analysis"	72
5. Climate and Hydrologic Cycle Analysis	107
6. Analysis of Hydrological Regime of the Ground Water Supply Sources	147
7. Analysis of Erosion, Sediment Load and Chemical Quality of the Water	170
8. Run-off Water Discharge Regime and its Hydrologic Characteristics	199
9. Management of Water and its Utilization	235
10. Conclusion	286
<i>Selected Bibliography</i>	305
<i>Appendices</i>	315
