

National Parks and Protected Areas: Their Role in Environmental Protection

Edited by R. Gerald Wright
Professor, Department of Wildlife Resources, and
Unit Leader, National Biological Service,
Cooperative Park Studies Unit,
University of Idaho
Moscow, Idaho

Consulting Editor:
John Lemons
Department of Life Sciences
University of New England
Biddeford, Maine

Contents

Preface	vii
Acknowledgments	ix
Contributing Authors	xi
Introduction	xv
I. Protected Areas in Context	1
1. The Origin and Purpose of National Parks and Protected Areas <i>R. Gerald Wright and David J. Mattson</i>	3
2. Changes in Landscape Values and Expectations: What Do We Want and How Do We Measure It? <i>William L. Halvorson</i>	15
3. Ecosystem Management: An Appropriate Concept for Parks? <i>James K. Agee</i>	31
4. Ecosystem-Based Management: Natural Processes and Systems Theory <i>Katherine L. Jope and Joseph C. Dunstan</i>	45
5. Ecosystem Management: Exploring the Legal-Political Framework <i>Robert B. Keiter</i>	63
II. Planning and Evaluating the Ecological Integrity of Parks and Protected Areas	89
6. Protected Areas: How Much Is Enough? <i>Reed F. Noss</i>	91
7. Evaluating the Ecological Suitability of Lands for Parks and Protected Areas Using Gap Analysis Databases <i>R. Gerald Wright and J. Michael Scott</i>	121
8. Designing and Managing Protected Areas for Grizzly Bears: How Much Is Enough? <i>David J. Mattson, Stephen Herrero, R. Gerald Wright, and Craig M. Pease</i>	133
9. Expansion of the U.S. National Park System in Alaska <i>R. Gerald Wright</i>	165

10. The Role of Networks and Corridors in Enhancing the Value and Protection of Parks and Equivalent Areas	173
<i>Larry D. Harris, Thomas Hoctor, Dave Maehr, and Jim Sanderson</i>	
11. Fragmentation of a Natural Area: Dynamics of Isolation for Small Mammals on Forest Remnants	199
<i>L. Scott Mills</i>	
III. Management Opportunities and Conflicts in Parks	221
12. Management of Overabundant Species in Protected Areas: The White-Tailed Deer as a Case Example	223
<i>William F. Porter</i>	
13. Managing and Understanding Wild Ungulate Population Dynamics in Protected Areas	249
<i>James G. MacCracken</i>	
14. The Use and Role of Fire in Natural Areas	277
<i>Stephen C. Bunting</i>	
15. Restoring Aquatic Environments: A Case Study of the Elwha River	303
<i>Catherine Hawkins Hoffman and Brian D. Winter</i>	
16. Wolf Restoration in the Northern Rocky Mountains	325
<i>James M. Peek and John C. Carnes</i>	
IV. Dealing with the Human and Cultural Environments of Parks and Protected Areas	353
17. The Cultural and Natural Resource Management Needs of Parks and Protected Areas: Is There an Appropriate Balance?	355
<i>Stephanie S. Toothman</i>	
18. Hinterlands, Wilderness, and Protected Areas in Northern Canada	369
<i>D. Scott Slocombe</i>	
19. The Role of Science and Law in the Protection of National Park Resources	389
<i>John Lemons and Kirk Junker</i>	
V. Parks as Baselines	415
20. Research in Parks and Protected Areas: Forging the Link Between Science and Management	417
<i>David L. Peterson</i>	
21. Exploring the Dynamics of Crater Lake, Crater Lake National Park	435
<i>Gary L. Larson</i>	
Index	451
