Oxidant Air Pollution Impacts in the Montane Forests of Southern California

A Case Study of the
San Bernardino Mountains

Foreword by O. Clifton Taylor

With 102 illustrations, 6 in color

Introduction	1
P.R. Miller and J.R. McBride	

Section 1. Description of Soils, Climate, Natural Resources, and Their Modification by Anthropogenic Influences

1. Geography, Geology, Geomorphology, and Forest Soils	7
M.A. Poth and P. Wohlgemuth	
2. Climatology	28
F.M. Fujioka, J.O. Roads, and S.-C. Chen	
3. Vegetation, Fire Regimes, and Forest Dynamics	44
Richard A. Minnich	

Section 2. Effects of Ozone and Other Air Pollutants on Vegetation and Soils in the San Bernardino Mountains

- | | |
|---|-----|
| 4. Ambient Air Quality at Barton Flats and Other California Forests | 81 |
| John G. Watson, Judith C. Chow, Clifton A. Frazier,
Barbara Hinsvark, and Mark Green | |
| 5. Visibility Impairment in the San Bernardino Mountains | 106 |
| S. Copeland | |
| 6. Physiological Responses of Ponderosa Pine to Gradients of Environmental Stressors | 126 |
| N.E. Grulke | |
| 7. Temporal Changes in Crown Condition Indices, Needle Litterfall, and Collateral Needle Injuries of Ponderosa and Jeffrey Pines | 164 |
| P.R. Miller and J. Rechel | |
| 8. Air Pollution Effects on Growth of Ponderosa Pine, Jeffrey Pine, and Bigcone Douglas-Fir | 179 |
| M.J. Arbaugh, D.L. Peterson, and P.R. Miller | |
| 9. Effects of Ozone on Understory Vegetation in the Mixed Conifer Forest | 208 |
| Patrick J. Temple | |
| 10. Epiphytic Lichens in the San Bernardino Mountains in Relation to Oxidant Gradients | 223 |
| T.H. Nash III and L.L. Sigal | |
| 11. Wet and Dry Pollutant Deposition to the Mixed Conifer Forest | 235 |
| A. Bytnerowicz, M.E. Fenn, P.R. Miller, and M.J. Arbaugh | |
| 12. Direct Effects of Nitric Acid on Forest Trees | 270 |
| A. Bytnerowicz, P. Padgett, K. Percy, M. Krywult, G. Riechers,
and J. Hom | |
| 13. Nitrogen Deposition and Cycling in Mediterranean Forests: The New Paradigm of Nitrogen Excess | 288 |
| M.E. Fenn and M.A. Poth | |

Section 3. Interactions of Physical, Chemical, and Biological Factors and Their Influences on Forest Health and Forest Use

- | | |
|---|-----|
| 14. Insects and Pathogens in a Pollution-Stressed Forest | 317 |
| J. Pronos, L. Merrill, and D. Dahlsten | |

15. Impact of Oxidant Air Pollutants on Forest Succession in the Mixed Conifer Forests of the San Bernardino Mountains	338
Joe R. McBride and Richard D. Laven	
16. Simulated Effects of N Deposition, Ozone Injury, and Climate Change on a Forest Stand in the San Bernardino Mountains	353
M.J. Arbaugh, D.W. Johnson, and W.M. Pulliam	
17. Human Aspects of Air Quality in the San Bernardino Mountains	373
P.L. Winter	
Section 4. Synthesis and Conclusions	
18. Assessment of Ecological Risks and Implications for Policy and Management in the San Bernardino Mountains	397
P.R. Miller and J.R. McBride	
19. Implications of Chronic Air Pollution in the San Bernardino Mountains for Forest Management and Future Research	405
J.R. McBride and P.R. Miller	
Index	417
