# Fuzzy and Neural: Interactions and Applications

With 59 Figures  
and 3 Tables

**Physica-Verlag**

A Springer-Verlag Company

# Table of Contents

|  |    |
|--|----|
| <b>1. Introduction</b> .....                   | 1  |
| <b>2. Fuzzy Sets and Fuzzy Functions</b> ..... | 3  |
| 2.1 Fuzzy Sets .....                           | 3  |
| 2.1.1 Fuzzy Numbers .....                      | 3  |
| 2.1.2 Discrete Fuzzy Sets .....                | 4  |
| 2.1.3 Alpha-Cuts .....                         | 5  |
| 2.1.4 Inequalities .....                       | 6  |
| 2.1.5 Fuzzy Relation .....                     | 6  |
| 2.2 Algebra of Fuzzy Sets .....                | 6  |
| 2.2.1 $t$ -norms .....                         | 6  |
| 2.2.2 Set Algebra .....                        | 8  |
| 2.2.3 Properties .....                         | 8  |
| 2.3 Fuzzy Arithmetic .....                     | 13 |
| 2.3.1 Extension Principle .....                | 13 |
| 2.3.2 Interval Arithmetic .....                | 14 |
| 2.3.3 Fuzzy Arithmetic .....                   | 15 |
| 2.4 Fuzzy Expressions .....                    | 16 |
| 2.5 Fuzzy Functions .....                      | 17 |
| 2.5.1 Extension Principle .....                | 17 |
| 2.5.2 Alpha-Cuts and Interval Arithmetic ..... | 17 |
| 2.5.3 Differences .....                        | 18 |
| References Chapter 2 .....                     | 19 |
| <b>3. Neural Nets</b> .....                    | 21 |
| 3.1 Universal Approximators .....              | 25 |
| 3.2 Backpropagation Algorithm .....            | 25 |
| 3.2.1 Backward Pass .....                      | 27 |
| References Chapter 3 .....                     | 33 |
| <b>4. First Approximation Results</b> .....    | 35 |
| 4.1 Fuzzy Expert Systems .....                 | 35 |
| 4.2 Discrete Fuzzy Expert System .....         | 36 |
| 4.3 Fuzzy Controller .....                     | 39 |

|           |   |           |
|-----------|---|-----------|
| 4.3.1     | Sugeno-type FC .....                          | 40        |
| 4.3.2     | Expert System .....                           | 41        |
| 4.3.3     | Other Fuzzy Controllers .....                 | 42        |
| 4.4       | Summary .....                                 | 42        |
| 4.5       | Applications .....                            | 45        |
|           | References Chapter 4 .....                    | 47        |
| <b>5.</b> | <b>Hybrid Neural Nets .....</b>               | <b>49</b> |
| 5.1       | Discrete Fuzzy Expert Systems .....           | 50        |
| 5.1.1     | FITA .....                                    | 51        |
| 5.1.2     | FATI .....                                    | 52        |
| 5.2       | Fuzzy Controller .....                        | 55        |
| 5.2.1     | Sugeno .....                                  | 55        |
| 5.2.2     | Expert System .....                           | 57        |
| 5.2.3     | Mamdani .....                                 | 58        |
| 5.3       | Summary .....                                 | 61        |
|           | References Chapter 5 .....                    | 63        |
| <b>6.</b> | <b>Neural Nets Solve Fuzzy Problems .....</b> | <b>65</b> |
| 6.1       | Fuzzy Equations .....                         | 67        |
| 6.1.1     | Training Justification .....                  | 71        |
| 6.2       | Approximate Fuzzy Functions .....             | 71        |
| 6.3       | Summary .....                                 | 73        |
|           | References Chapter 6 .....                    | 75        |
| <b>7.</b> | <b>Fuzzy Neural Nets .....</b>                | <b>77</b> |
| 7.1       | Evaluation .....                              | 78        |
| 7.1.1     | Extension Principle .....                     | 78        |
| 7.1.2     | Alpha-cuts plus Interval Arithmetic .....     | 79        |
| 7.1.3     | Monotone .....                                | 80        |
| 7.2       | Training .....                                | 80        |
| 7.2.1     | Fuzzified Delta Rule .....                    | 83        |
| 7.2.2     | Backpropagation .....                         | 84        |
| 7.2.3     | Two Step Training .....                       | 85        |
| 7.2.4     | Evolutionary Algorithm .....                  | 88        |
| 7.3       | Summary .....                                 | 93        |
|           | References Chapter 7 .....                    | 95        |
| <b>8.</b> | <b>Second Approximation Results .....</b>     | <b>97</b> |
| 8.1       | Universal Approximators .....                 | 98        |
| 8.1.1     | Extension Principle .....                     | 99        |
| 8.1.2     | Simplified Fuzzy Arithmetic .....             | 101       |
| 8.1.3     | Capabilities .....                            | 103       |
| 8.2       | Approximations .....                          | 105       |
| 8.2.1     | Fuzzy Expert Systems .....                    | 105       |

|            |   |            |
|------------|---|------------|
| 8.2.2      | Fuzzy Input–Output Controllers . . . . .  | 106        |
| 8.3        | Summary . . . . .   | 107        |
|            | References Chapter 8 . . . . .  | 109        |
| <b>9.</b>  | <b>Hybrid Fuzzy Neural Nets . . . . .</b>   | <b>111</b> |
| 9.1        | Universal Approximator . . . . .  | 112        |
|            | References Chapter 9 . . . . .  | 117        |
| <b>10.</b> | <b>Applications of Hybrid Fuzzy Neural Nets and Fuzzy Neural<br/>Nets . . . . .</b> | <b>119</b> |
| 10.1       | Fuzzy Expert System . . . . .   | 119        |
| 10.2       | Fuzzy Input–Output Controllers . . . . .  | 122        |
| 10.3       | Fuzzy Functions . . . . .   | 122        |
| 10.4       | Summary on <i>HFNNs</i> . . . . .   | 124        |
| 10.5       | Overfitting . . . . .   | 125        |
| 10.5.1     | Covering . . . . .  | 125        |
| 10.5.2     | Output Estimation . . . . .   | 126        |
| 10.5.3     | Overfitting for Crisp Neural Nets . . . . .   | 128        |
