<i>Preface</i>	v
<b>I. INTRODUCTORY REMARKS</b>	<b>1-18</b>
1. Electromagnetic Waves in Geophysics: A personal perspective <i>J.R. Wait</i>	3
2. Role of Electromagnetics in Probing the Earth <i>D. Guptasarma</i>	4
3. Antennas in Geophysical Environment <i>J.R. Wait</i>	10
<b>II. ELECTRICAL AND ELECTROMAGNETIC SOUNDING</b>	<b>19-226</b>
4. Dilemmas of the MT Interpretation, EM Field Distortion or Real Indication of Resistivity Distribution <i>A. Ádám</i>	21
5. The Fennoscandian Shield: A treasure box of deep electromagnetic studies <i>T. Korja and S.-E. Hjelt</i>	31
6. Magnetotelluric Technique <i>B.P. Singh and S.G. Gokarn</i>	74
7. Rotation Invariant Magnetotelluric Tensors: A case study from West Singhbhum (Bihar, India) <i>K.K. Roy, S. Srivastava and A.K. Singh</i>	99
8. Magnetotelluric Model of Singhbhum Granite Batholith <i>K.K. Roy, A.K. Singh and C.K. Rao</i>	120
9. Telluric Field Observations During the Earth Tremor Activity Near Gandipet (Hyderabad, India) <i>S.V.S. Sarma, T. Harinarayana and C.V.G. Krishna</i>	152

10. Deep Electrical Conductivity Investigations in Some Geothermal Areas of India	160
<i>T. Harinarayana and S.V.S. Sarma</i>	
11. Frontier Technologies for Hydrocarbon Exploration—Electrical Conductivity Reference Exploration (ECRE)	176
<i>R. Karmann, J.L. Seara and U. Jensen</i>	
12. Technology and Some Results of Deep Electromagnetic Soundings in the Former USSR	188
<i>I.S. Feldman</i>	
13. Direct Current Resistivity Traversing Across Singhbhum Shear Zone Near Ghatshila-Mosabani (Eastern India)	205
<i>K.K. Roy, L.K. Das, H. Das, K.K. Mukherjee, M.K. Sen, P.S. Routh, D.K. Saha, M.K. Rai, D.C. Naskar and R. Chunduru</i>	
<b>III. OCEAN FLOOR ELECTROMAGNETICS</b>	<b>227–280</b>
14. Oceanic Mantle Conductivity Structure Determined from Magnetotelluric Data: Hollister revisited	229
<i>Wenjie Dong, Randall Mackie and Theodore Madden</i>	
15. Methods for the Analysis and Interpretation of the Sea Floor Electromagnetic Fields	248
<i>O.N. Zhdanova and M.S. Zhdanov</i>	
16. On the Design of Ocean Bottom Electrometer	260
<i>R.V. Iyengar</i>	
17. EM Sounding of Sea Bottom Around Indian Peninsula	268
<i>E. John Joseph, R.V. Iyengar and L.A. D'Cruz</i>	
<b>IV. ELECTROMAGNETIC MODELLING</b>	<b>281–438</b>
18. Electromagnetic Migration	283
<i>M.S. Zhdanov</i>	
19. Numerical Modelling in Electromagnetic Induction	299
<i>J.T. Weaver</i>	
20. Thin-Sheet Modelling for Deep Electromagnetic Studies in the Fennoscandian Shield	364
<i>P. Kaikkonen</i>	
21. The Generation and Thermal and Electromagnetic Effects of Rising Melt in a Three-Dimensional Subducting Lithospheric Slab Model	387
<i>F.W. Jones, F. Pascal and M.E. Ertman</i>	

22. Fast Difference-Differential Modelling for Geophysical Electrodynamic	402
<i>V. Druskin, L. Knizhnerman and T. Tamarchenko</i>	
23. The 2- and 3-D Modelling of EM Induction and Current Channelling in the Saurashtra and Adjoining Regions	412
<i>K. Veeraswamy</i>	
24. Magnetotelluric Response on a Layered Earth with Non-monotonic Resistivity Distribution	425
<i>B.P. Pal</i>	
25. Application of Robust Estimation of Transfer Functions for a Magnetovariational Array in Eastern India	432
<i>Nandini Nagarajan</i>	
<b>V. INVERSE PROBLEMS</b>	<b>439-516</b>
26. Geophysical Inversion	441
<i>V.K. Gaur</i>	
27. Crustal Resistivity Inversion Using Global Optimization Techniques	465
<i>P.S. Routh and K.K. Roy</i>	
28. Backus-Gilbert Magnetotelluric Inversion	488
<i>A. Manglik and P.S. Moharir</i>	
29. Stochastic Inversion of Magnetotelluric Data	497
<i>B.B. Bhattacharya and R.K. Sarkar</i>	
30. Computational Efficiency of the Matrix Method in the Inversion of Resistivity Sounding Data	507
<i>M. Israil, Sri Niwas and K.N. Khattri</i>	
<b>VI. TRANSIENT ELECTROMAGNETICS</b>	<b>517-596</b>
31. Application of Ground Transient EM Systems in Geophysical Exploration	519
<i>A.K. Sinha</i>	
32. Diffusion of an Electromagnetic Pulse in a Heterogeneous Earth	527
<i>S.K. Verma</i>	
33. The Theoretical Study of a Possible High Resolution Resistivity Sounding Technique for Groundwater Exploration in Hard Rocks	566
<i>M. Poddar</i>	

34. Transient CFS Response Over a Multilayer Earth <i>H.P. Patra and N.L. Shastri</i>	575
35. Frontier Technologies for Hydrocarbon Exploration, Deep Transient Electromagnetic Sounding (DTEM) <i>R. Karmann, U. Matzander, J.R. Rossow, J.L. Seara, K.M. Strack and P.A. Wolfgram</i>	585
<b>VII. SHALLOW ELECTROMAGNETICS</b>	<b>697-652</b>
36. Recent Developments in Quantitative Interpretation of VLF-EM Data <i>A.K. Sinha</i>	599
37. A Study on the Possibility of Assessing Anisotropy Due to 2D Structures from VLF-EM Data <i>I.B. Rama Prasada Rao, R.R. Mathur and N.S. Patangay</i>	607
38. Response Resolution of Shielded Conductors Through Multifrequency Measurements: A review <i>D. Indira Nagubai and P.D. Saraf</i>	616
39. Electromagnetic Depth Sounding on a Transitional Earth Using Large Rectangular Loop Source <i>K. Prabhakara Rao, P.D. Saraf and K. Mallick</i>	628
40. Application of Electromagnetic Propagation Logging in the Interpretation of Fresh Water Neogene Sands of Upper Assam Tertiary Basin (India) <i>G.K. Handique, A.K. Saikia, R.K. Mallick and S.C. Das</i>	639
