Foreword	xiii
1. INTRODUCTION	1
1.1 Background and motivation	1
1.2 Contribution	3
1.3 Main results	12
1.4 Synopsis	13
Part I Labelled deduction for non-classical logics	
2. LABELLED NATURAL DEDUCTION SYSTEMS FOR PROPOSITIONAL MODAL LOGICS	17
2.1 A modular presentation of propositional modal logics	18
2.2 Soundness and completeness	29
2.3 Normalization and its consequences	37
3. LABELLED NATURAL DEDUCTION SYSTEMS FOR PROPOSITIONAL NON-CLASSICAL LOGICS	53
3.1 Modular presentations of propositional non-classical logics	54
3.2 Soundness and completeness	71
3.3 Normalization and its consequences	81
4. LABELLED NATURAL DEDUCTION SYSTEMS FOR QUANTIFIED MODAL LOGICS	91
4.1 A modular presentation of quantified modal logics	93
4.2 Soundness and completeness	100
4.3 Normalization and its consequences	107
5. ENCODING LABELLED NON-CLASSICAL LOGICS IN ISABELLE	115
5.1 Encoding propositional modal logics	115

5.2	Encoding propositional non-classical logics	126
5.3	Encoding quantified modal logics	131
6.	LABELLED SEQUENT SYSTEMS FOR NON-CLASSICAL LOGICS	137
6.1	Labelled sequent systems for propositional modal logics	138
6.2	Labelled sequent systems for non-classical logics	147
6.3	Equivalence of labelled natural deduction and sequent systems	149
7.	DISCUSSION	157
7.1	Related work	157
Part II <i>Substructural and complexity analysis of modal sequent systems</i>		
8.	INTRODUCTION AND PRELIMINARIES	167
8.1	Introduction	167
8.2	Preliminary results	170
9.	SUBSTRUCTURAL ANALYSIS OF $S(K)$	187
9.1	Eliminating contractions in $S(K)$	187
9.2	$S(K)$ and $SS(K)$	195
10.	SUBSTRUCTURAL ANALYSIS OF $S(T)$	201
10.1	Bounding contractions in $S(T)$	201
10.2	$S(T)$ and $SS(T)$	219
11.	SUBSTRUCTURAL ANALYSIS OF $S(K4)$ AND $S(S4)$	223
11.1	Infinite chains, infinite branches and periodicity	225
11.2	Bounding contraction in $S(K4)$ and $S(S4)$	230
11.3	$S(K4)$ and $SS(K4)$	238
11.4	$S(S4)$ and $SS(S4)$	245
12.	COMPLEXITY OF PROOF SEARCH IN K , T , $K4$ AND $S4$	247
12.1	Summary of our substructural analysis	247
12.2	Complexity of proof search in K	248
12.3	Complexity of proof search in T	250
12.4	Complexity of proof search in $K4$ and $S4$	251
13.	DISCUSSION	253
13.1	Related work	253
14.	CONCLUSIONS AND FURTHER RESEARCH	263
