# Contents

<b>Preface</b> .....	<b>xvii</b>
<b>Acknowledgements</b> .....	<b>xix</b>
<b>1. INTRODUCTION</b> .....	<b>1</b>
1.1 SCOPE OF THE BOOK .....	1
1.2 EARLY HUMAN OCCUPATION .....	1
1.2.1 <i>'Primary' land claim</i> .....	4
1.2.2 <i>Converted lands: 'secondary' land claim</i> .....	5
1.3 NATURAL OR MAN-MADE?.....	6
1.3.1 <i>The importance of domestic stock</i> .....	7
1.3.2 <i>'Natural' succession</i> .....	8
1.4 DEFINING THE COASTAL ZONE .....	8
1.5 COASTAL LANDSCAPES.....	9
1.5.1 <i>'Hard' rock coastal landscapes</i> .....	10
1.5.2 <i>'Soft' coastal landscapes</i> .....	11
<b>2. GENERAL PRINCIPLES</b> .....	<b>15</b>
2.1 ORIGINS OF COASTAL CONSERVATION.....	15
2.1.1 <i>Species and habitat protection</i> .....	15
2.1.2 <i>Assessing nature conservation importance</i> .....	17
2.2 COASTAL MANAGEMENT.....	18
2.2.1 <i>The traditional approach to management</i> .....	19
2.2.2 <i>Coastal complexity</i> .....	20
2.2.3 <i>Human influences</i> .....	22
2.2.4 <i>Coastal change and conservation management</i> .....	22
<b>3. SEA CLIFFS &amp; SEA CLIFF VEGETATION</b> .....	<b>25</b>
3.1 INTRODUCTION AND SCOPE.....	25
3.1.1 <i>Habitat definition</i> .....	26
3.1.2 <i>Habitat type</i> .....	26
3.2 HABITAT DISTRIBUTION.....	28
3.2.1 <i>Habitat distribution in Europe</i> .....	28
3.3 NATURE CONSERVATION VALUE .....	30
3.3.1 <i>Vegetation</i> .....	31
3.3.2 <i>Plant community transitions and successions</i> .....	31

3.4	PLANT COMMUNITIES - REGIONAL VARIATION IN EUROPE .....	33
3.4.1	<i>'Hard' rocks of the north and west</i> .....	33
3.4.2	<i>Calcareous to neutral 'hard' rocks on the Atlantic coasts of Britain, Ireland, France, Spain and Portugal</i> .....	34
3.4.3	<i>Vegetation of the 'soft' rock cliffs of the southern North Sea, Channel coast and Baltic Sea</i> .....	35
3.4.4	<i>Cliffs of the Mediterranean and Black Sea coasts</i> .....	37
3.5	INVERTEBRATES.....	37
3.6	HUMAN ACTIVITIES AND CONSERVATION .....	38
3.6.1	<i>Habitat loss - agricultural</i> .....	39
3.6.2	<i>Habitat loss - tourists, urbanisation and engineering structures</i> .....	40
3.7	GRAZING .....	41
3.7.1	<i>Butterfly conservation - a cautionary tale</i> .....	43
3.7.2	<i>Sea cliffs and the chough</i> .....	44
3.7.3	<i>Restoration</i> .....	45
3.8	RECREATION.....	46
3.9	OTHER MANAGEMENT ISSUES .....	47
3.9.1	<i>Tipping</i> .....	47
3.9.2	<i>Invasive species</i> .....	48
3.10	CONSERVATION AND COAST PROTECTION.....	48
3.10.1	<i>Economics and conservation</i> .....	50
3.10.2	<i>Stay back or set back?</i> .....	51
4.	<b>SEABIRDS, SEA CLIFFS &amp; ISLANDS</b> .....	53
4.1	INTRODUCTION .....	53
4.2	SEABIRD LOCATIONS AND HABITAT.....	53
4.3	SEABIRD CONSERVATION AND HUMAN ACTIVITIES.....	55
4.3.1	<i>Exploitation</i> .....	55
4.3.2	<i>Seabirds and island predators</i> .....	56
4.3.3	<i>Oil pollution</i> .....	57
4.4	CUMULATIVE INTERACTIONS .....	59
4.4.1	<i>Puffin conservation: grazing, oil pollution and sandeels</i> .....	59
4.4.2	<i>Fishery management</i> .....	60
4.4.3	<i>Impacts on surrounding habitats</i> .....	61
5.	<b>SALTMARSH</b> .....	63
5.1	INTRODUCTION AND SCOPE.....	63
5.1.1	<i>Habitat definition</i> .....	64
5.1.2	<i>Habitat type</i> .....	64
5.2	HABITAT DISTRIBUTION.....	66
5.2.1	<i>Habitat distribution in Europe</i> .....	66
5.2.2	<i>Habitat distribution in eastern USA</i> .....	67
5.3	NATURE CONSERVATION VALUE .....	68
5.3.1	<i>Plant community successions and transitions</i> .....	68
5.3.2	<i>Plant community variation</i> .....	70
5.3.3	<i>Rare plants</i> .....	72
5.3.4	<i>Invertebrates</i> .....	73
5.3.5	<i>Breeding birds</i> .....	75

5.3.6	<i>Wintering birds</i> .....	76
5.3.7	<i>Other animals</i> .....	77
5.4	HUMAN ACTIVITIES AND CONSERVATION .....	77
5.5	HISTORICAL LOSSES AND SEA LEVEL CHANGE.....	79
5.5.1	<i>Enclosure for agriculture (primary land claim)</i> .....	79
5.5.2	<i>Saltmarshes and sea level rise</i> .....	81
5.5.3	<i>The saltmarsh 'squeeze'</i> .....	82
5.6	GRAZING ON SALTMARSH .....	83
5.6.1	<i>Ungrazed / light grazing</i> .....	84
5.6.2	<i>Moderate grazing</i> .....	85
5.6.3	<i>Heavy grazing</i> .....	85
5.6.4	<i>Abandoned (formerly grazed)</i> .....	87
5.6.5	<i>Deciding on a grazing regime</i> .....	87
5.7	OTHER MANAGEMENT ISSUES .....	89
5.7.1	<i>Turf-cutting</i> .....	89
5.7.2	<i>Hay-making</i> .....	89
5.7.3	<i>Samphire gathering</i> .....	90
5.8	RECREATION AND ACCESS .....	90
5.8.1	<i>Recreation</i> .....	90
5.8.2	<i>Wildfowling</i> .....	91
5.9	POLLUTION .....	92
5.9.1	<i>Oil</i> .....	92
5.9.2	<i>Litter</i> .....	93
5.10	COMPLEX RELATIONSHIPS .....	93
5.10.1	<i>Reeds, bitterns and eels</i> .....	93
5.10.2	<i>Freshwater and natterjack toad</i> .....	94
5.11	SEA DEFENCE, SEA LEVEL RISE AND SALTMARSHES.....	94
5.11.1	<i>Maintaining the line of defence</i> .....	95
5.11.2	<i>Managed retreat</i> .....	95
6.	<b>SPARTINA ANGLICA - A CASE OF INVASION</b> .....	99
6.1	ORIGINS AND COLONISATION .....	99
6.1.1	<i>Colonisation</i> .....	99
6.1.2	<i>The nature of Spartina invasion</i> .....	100
6.2	NATURE CONSERVATION IMPLICATIONS .....	101
6.2.1	<i>Plant species effects</i> .....	101
6.2.2	<i>Ornithological effects</i> .....	102
6.3	<i>SPARTINA IN THE USA</i> .....	103
6.4	METHODS OF MANAGEMENT.....	103
6.4.1	<i>Lessons from an amenity beach</i> .....	105
6.5	<i>SPARTINA FRIEND OR FOE?</i> .....	105
6.5.1	<i>Benefits</i> .....	106
6.5.2	<i>Conservation issues</i> .....	106
6.5.3	<i>'Die-back'</i> .....	107
6.6	IS THERE A CASE FOR CONTROL? .....	108
7.	<b>SAND DUNE</b> .....	111
7.1	INTRODUCTION AND SCOPE.....	111

7.1.1	<i>Habitat definition</i> .....	112
7.1.2	<i>Habitat type</i> .....	112
7.2	SAND DUNE DISTRIBUTION.....	115
7.2.1	<i>Habitat distribution in Europe</i> .....	115
7.3	NATURE CONSERVATION VALUE.....	117
7.3.1	<i>The importance of succession</i> .....	118
7.3.2	<i>Rare and alien plants</i> .....	122
7.3.3	<i>Invertebrates</i> .....	123
7.3.4	<i>Birds and other vertebrates</i> .....	124
7.4	HUMAN ACTIVITIES AND CONSERVATION.....	124
7.4.1	<i>Human activities</i> .....	125
7.4.2	<i>Tourism and recreation</i> .....	127
7.4.3	<i>Afforestation</i> .....	128
7.5	THE IMPORTANCE OF GRAZING.....	130
7.5.1	<i>Overgrazing</i> .....	130
7.5.2	<i>Undergrazing</i> .....	132
7.5.3	<i>The role of the rabbit (<i>Oryctolagus cuniculus</i>)</i> .....	132
7.5.4	<i>Setting grazing regimes</i> .....	133
7.5.5	<i>Dune restoration</i> .....	135
7.5.6	<i>Hippophae rhamnoides (sea buckthorn)</i> .....	136
7.5.7	<i>Machair</i> .....	137
7.6	DUNE HYDROLOGY.....	138
7.6.1	<i>Dune slacks</i> .....	138
7.6.2	<i>Drinking water production</i> .....	139
7.6.3	<i>Nitrification</i> .....	139
7.7	GOLF COURSES.....	140
7.8	SAND DUNES, CLIMATE CHANGE AND SEA LEVEL RISE.....	141
7.8.1	<i>The sand dune 'squeeze'</i> .....	142
7.8.2	<i>Sand dune management - the nature of mobility</i> .....	142
7.8.3	<i>Catering for tourists - caring for dunes?</i> .....	145
7.8.4	<i>Erosion and accretion - the case for mobility</i> .....	146
<b>8.</b>	<b>SHINGLE BEACHES &amp; STRUCTURES.....</b>	<b>151</b>
8.1	INTRODUCTION AND SCOPE.....	151
8.1.1	<i>Habitat definition</i> .....	153
8.1.2	<i>Habitat type</i> .....	153
8.2	HABITAT DISTRIBUTION.....	156
8.2.1	<i>Habitat distribution in Europe</i> .....	156
8.2.2	<i>Habitat distribution in Great Britain</i> .....	157
8.3	NATURE CONSERVATION VALUE.....	158
8.3.1	<i>Successions and transitions</i> .....	158
8.3.2	<i>Plant community variation in Europe</i> .....	159
8.3.3	<i>Rare plants</i> .....	161
8.3.4	<i>Invertebrates</i> .....	162
8.3.5	<i>Other animals</i> .....	163
8.4	HUMAN ACTIVITIES AND CONSERVATION.....	163
8.4.1	<i>Habitat loss</i> .....	164
8.4.2	<i>Sea defence and sea level rise</i> .....	166

8.4.3	<i>Recreation, agriculture and forestry</i> .....	168
8.4.4	<i>Water resources</i> .....	170
8.5	OPTIONS AND OPPORTUNITIES.....	170
8.5.1	<i>Managing shingle banks for their flora</i> .....	170
8.5.2	<i>Sea defence and nature conservation</i> .....	171
8.5.3	<i>New habitats for old</i> .....	174
<b>9.</b>	<b>NATURE CONSERVATION AT DUNGENESS - A CASE HISTORY</b>	<b>175</b>
9.1	INTRODUCTION.....	175
9.2	EVOLUTION OF DUNGENESS.....	176
9.3	NATURE CONSERVATION IMPORTANCE.....	178
9.3.1	<i>Rare plants</i> .....	178
9.3.2	<i>Invertebrates</i> .....	179
9.3.3	<i>Birds</i> .....	181
9.4	HUMAN ACTIVITY AND CONSERVATION.....	181
9.4.1	<i>A question of Biodiversity</i> .....	182
9.4.2	<i>A case for integration</i> .....	183
9.4.3	<i>The shingle 'cycle'</i> .....	184
9.4.4	<i>Lessons</i> .....	185
<b>10.</b>	<b>COASTAL WETLANDS - ESTUARIES, DELTAS &amp; LAGOONS</b> .....	<b>187</b>
10.1	INTRODUCTION AND SCOPE.....	187
10.1.1	<i>Defining the ecosystems</i> .....	189
10.2	HABITAT DISTRIBUTION.....	192
10.2.1	<i>Wetlands in Europe</i> .....	193
10.3	NATURE CONSERVATION VALUE.....	194
10.3.1	<i>Plant communities</i> .....	195
10.3.2	<i>Invertebrates</i> .....	195
10.3.3	<i>Fish</i> .....	196
10.4	SPECIES DISTRIBUTION WITHIN AN ESTUARY.....	196
10.5	HUMAN ACTIVITIES AND CONSERVATION.....	198
10.5.1	<i>Historical loss</i> .....	198
10.5.2	<i>An accumulation of losses</i> .....	199
10.6	THE 'ESTUARY SQUEEZE'.....	201
10.6.1	<i>Sea level change</i> .....	201
10.6.2	<i>A question of sediments</i> .....	202
10.7	COASTAL DEFENCE.....	203
10.7.1	<i>Polders</i> .....	204
10.7.2	<i>Sediment extraction and dredging</i> .....	204
10.8	POLLUTION.....	205
10.9	TIME-SCALES FOR CHANGE.....	205
10.9.1	<i>Successions and transitions</i> .....	206
10.9.2	<i>The margin of error</i> .....	206
10.9.3	<i>Levels of complexity</i> .....	207
<b>11.</b>	<b>GRAZING MARSHES &amp; SALINAS</b> .....	<b>209</b>
11.1	INTRODUCTION AND SCOPE.....	209
11.2	GRAZING MARSH (COASTAL WET GRASSLAND).....	209

11.2.1	<i>Habitat definition</i> .....	210
11.3	HABITAT DISTRIBUTION .....	211
11.3.1	<i>Habitat location</i> .....	211
11.4	NATURE CONSERVATION VALUE .....	212
11.4.1	<i>Plant communities</i> .....	213
11.4.2	<i>Rare plants</i> .....	213
11.4.3	<i>Invertebrates</i> .....	214
11.4.4	<i>Birds</i> .....	214
11.5	HUMAN ACTIVITIES AND CONSERVATION .....	215
11.5.1	<i>Arable intensification</i> .....	215
11.5.2	<i>Infrastructure</i> .....	216
11.6	MANAGEMENT .....	216
11.6.1	<i>Grazing regimes</i> .....	216
11.6.2	<i>Hydrology</i> .....	217
11.7	SEA DEFENCE .....	217
11.7.1	<i>Maintaining sea-walls</i> .....	218
11.7.2	<i>Grazing (of sea walls) and impact on scarce plants</i> .....	219
11.7.3	<i>Other issues</i> .....	219
11.7.4	<i>Set back ('managed retreat')</i> .....	219
11.8	SALINAS AS SECONDARY HABITATS? .....	220
11.8.1	<i>Salinas, origins and definition</i> .....	220
11.8.2	<i>Defining the habitat</i> .....	221
11.8.3	<i>Nature conservation importance</i> .....	222
11.8.4	<i>Birds</i> .....	222
11.8.5	<i>Plant communities</i> .....	223
11.8.6	<i>Invertebrates</i> .....	224
11.9	MANAGEMENT .....	224
11.9.1	<i>Industrial salinas</i> .....	224
11.9.2	<i>Abandoned salinas</i> .....	226
11.10	FISH-FARMS AND RICE FIELDS .....	226
11.10.1	<i>Rice fields</i> .....	226
11.10.2	<i>Hydrology</i> .....	227
11.10.3	<i>Conservation</i> .....	227
12.	<b>ECOLOGICAL NETWORKS</b> .....	<b>229</b>
12.1	INTRODUCTION AND SCOPE .....	229
12.1.1	<i>Protecting migratory birds</i> .....	230
12.1.2	<i>Pan-European Biological and Landscape Diversity Strategy</i> .....	231
12.2	THE NATURE OF COASTAL NETWORKS .....	232
12.3	NETWORKS, SOME EXAMPLES .....	233
12.3.1	<i>'Stepping stones' - barnacle goose (Branta leucopsis)</i> .....	233
12.3.2	<i>'Core' breeding areas, dispersed migration and feeding areas - marine mammals and sea turtles</i> .....	234
12.3.3	<i>'Core' breeding areas, dispersed feeding and migration - Eleonora's falcon</i> .....	234
12.3.4	<i>Dispersed breeding and winter feeding</i> .....	235
12.4	GEOGRAPHICAL SCALES .....	236
12.4.1	<i>An 'autumn network'</i> .....	236

12.4.2	<i>A 'winter network'</i> .....	237
12.4.3	<i>A 'tidal network'</i> .....	237
12.5	THE RED KNOT, LAND CLAIM AND SEA LEVEL RISE.....	238
12.5.1	<i>Site protection and population status</i> .....	238
12.5.2	<i>An accumulation of losses</i> .....	240
12.5.3	<i>Policy responses and sea level rise</i> .....	240
12.6	INTERNATIONAL PROTECTION AND LOCAL MANAGEMENT.....	243
12.6.1	<i>Protecting 'stepping stones'</i> .....	243
12.6.2	<i>Breeding success</i> .....	243
12.6.3	<i>Lessons</i> .....	244
<b>13.</b>	<b>INTEGRATED COASTAL MANAGEMENT.....</b>	<b>247</b>
13.1	INTRODUCTION.....	247
13.2	DEFINING THE COASTAL ZONE.....	248
13.3	COASTAL MANAGEMENT.....	249
13.3.1	<i>The integrated approach</i> .....	249
13.4	INTERNATIONAL / NATIONAL POLICY.....	250
13.4.1	<i>The Rio Summit</i> .....	250
13.4.2	<i>The United Nations Environment Programme</i> .....	251
13.4.3	<i>The European Union</i> .....	251
13.4.4	<i>A European Strategy?</i> .....	252
13.5	THE EUROPEAN UNION DEMONSTRATION PROGRAMME.....	252
13.5.1	<i>Finding best practice</i> .....	253
13.5.2	<i>The thematic studies</i> .....	253
13.5.3	<i>Conclusions from the programme</i> .....	254
13.6	EUROPEAN GOVERNMENTAL APPROACHES.....	254
13.6.1	<i>Coast specific, prescriptive policies</i> .....	255
13.6.2	<i>Use existing policies</i> .....	255
13.6.3	<i>An example from the USA</i> .....	256
13.7	OTHER INSTITUTIONAL METHODS.....	257
13.7.1	<i>Regional seas programmes</i> .....	257
13.7.2	<i>Inter-departmental co-ordination</i> .....	258
13.7.3	<i>The emerging eastern European states</i> .....	259
13.8	LOCAL INITIATIVES; RAISING AWARENESS AND PROMOTING UNDERSTANDING, THE ROLE OF RESEARCH.....	260
13.9	IMPLEMENTING INTEGRATED COASTAL MANAGEMENT.....	261
<b>14.</b>	<b>HABITAT PROTECTION, COASTAL CONSERVATION &amp; MANAGEMENT.....</b>	<b>263</b>
14.1	INTRODUCTION.....	263
14.1.1	<i>Site protection and management</i> .....	263
14.2	THE COASTAL 'SQUEEZE' - A NEW PARADIGM?.....	264
14.2.1	<i>Changing perceptions: embankment in the southern North Sea</i> .....	264
14.3	SEA LEVEL CHANGE.....	266
14.3.1	<i>A shared problem</i> .....	266
14.4	CHANGING ATTITUDES - DYNAMIC CONSERVATION?.....	267
14.5	INTEGRATING MANAGEMENT.....	269
14.5.1	<i>Local approaches</i> .....	270

14.5.2 <i>Sustainable use</i> .....	270
14.6 PARTICIPATION AND CONSULTATION.....	271
14.7 THE FUTURE.....	273
14.7.1 <i>The politics of sustainability</i> .....	273
14.7.2 <i>The stakeholder principle</i> .....	274
14.8 “WIN SOME, LOSE SOME”.....	277
References .....	279
Index .....	301
<b>English Names of Commoner Plants .....</b>	<b>307</b>
