Contents

Adapted behaviour and shifting ranges of species – a result of recent climate warming? <i>G.-R. Walther</i>	1
Terrestrial ecosystem responses to climate changes in the Antarctic <i>P. Convey</i>	17
Climate change and ice breeding pinnipeds <i>B. P. Kelly</i>	43
Detection of range shifts: General methodological issues and case studies using butterflies <i>C. Parmesan</i>	57
Climate and recent range changes in butterflies <i>J. K. Hill, C. D. Thomas and B. Huntley</i>	77
Expansion of Mediterranean Odonata in Germany and Europe – consequences of climatic changes <i>J. Ott</i>	89
Phytophenological trends in different seasons, regions and altitudes in Switzerland <i>C. Defila and B. Clot</i>	113

Plant phenological changes <i>A. Menzel and N. Estrella</i>	123
High summits of the Alps in a changing climate <i>H. Pauli, M. Gottfried and G. Grabherr</i>	139
Evergreen broad-leaved species as indicators for climate change <i>G.-R. Walther, G. Carraro and F. Klötzli</i>	151
The expansion of thermophilic plants in the Iberian Peninsula as a sign of climatic change <i>E. Sobrino Vesperinas, A. González Moreno, M. Sanz Elorza, E. Dana Sánchez, D. Sánchez Mata and R. Gavilán</i>	163
Climate change and coastal flora <i>D. Metzinger and A. Gerlach</i>	185
Sizing the impact: Coral reef ecosystems as early casualties of climate change <i>O. Hoegh-Guldberg</i>	203
Fingerprints of climate changes on the photosynthetic apparatus' behaviour, monitored by the JIP-test. <i>M. Tsimilli-Michael and R. Strasser</i>	229
Did recent climatic shifts affect productivity of grass-dominated vegetation in southern Switzerland? <i>A. Stampfli</i>	249
Responses of some Austrian glacier foreland plants to experimentally changed microclimatic conditions <i>B. Erschbamer</i>	263
Reliability and effectiveness of Ellenberg's indices in checking flora and vegetation changes induced by climatic variations <i>S. Pignatti, P. Bianco, G. Fanelli, R. Guarino, J. Petersen and P. Tescarollo</i>	281
Fingerprints of climate change – concluding remarks <i>Ch. Körner and G.-R. Walther</i>	305
Index	317
