

Rex H. Pilger

Geokinematics

Prelude to Geodynamics

With 187 Figures

Springer

Contents

Preface	V
Acknowledgements	VII
Chapter 1 Introduction	1
1.1 Aside	1
1.2 Kinematic Prediction: The Success of Plate Tectonics	4
Chapter 2 Proper Reference Frames: Hotspots, Paleomagnetism, Paleoclimate	9
2.1 Aside	9
2.2 Hotspots and Plumes	10
2.3 Plate Reconstructions and Kinematics in Hotspot Reference Frame(s)	14
Chapter 3 Plate Kinematic and Reconstruction Fundamentals	21
3.1 Aside	21
3.2 Basics	22
3.3 Instantaneous Relative Motion Indicators	26
3.4 Finite Rotations	27
Chapter 4 Kinematic and Reconstruction Modeling with Continuously Varying Parameters	33
4.1 Aside	33
4.2 Continuous Parameter Modeling	33
Chapter 5 An Inverse Model	43
5.1 Aside	43
5.2 A Grand Model	43
5.3 Finite Plate Reconstruction Data – Magnetic Isochrons and Paleofracture Zones	44
5.4 Instantaneous Proper Motion Indicators	45

Chapter 6	Hotspot Trace Patterns	49
6.1	Aside	49
6.2	Traces	49
6.3	Hotspot Trace Patterns	99
Chapter 7	Contemporary Stress Fields	101
7.1	Aside	101
7.2	Compilations	101
7.3	North America: Contemporary Stresses	101
7.4	Western Europe: Contemporary Stresses	103
7.5	Africa: Contemporary Stresses	105
7.6	South America: Contemporary Stresses	105
7.7	Australia: Contemporary Stresses	105
7.8	Other Areas	105
Chapter 8	Observed and Predicted Stress Orientations from Plate-Hotspot Motions	109
8.1	Aside	109
8.2	Empiricism	110
8.3	North America: Paleostresses	111
8.4	Europe: Paleostresses	136
8.5	East Africa: Paleostresses	152
8.6	East Australia: Paleostresses	165
Chapter 9	Paleomagnetic Reference Frame	179
9.1	Aside	179
9.2	Paleomagnetism	179
Chapter 10	Back-Arc Spreading Centers	193
10.1	Aside	193
10.2	Back Arcs	193
Chapter 11	Hotspot Reference Frames: The “Necessity” of Mesoplates	201
11.1	Aside	201
11.2	Hotspot Systems	201
11.3	Mesoplates	202
Chapter 12	Mesoplates and the Origin of Hotspots	213
12.1	Aside	213
12.2	Review	213
12.3	Small Island-Seamount Chains of the Pacific	214
12.4	A Model for the Small Island-Seamount Chains of the Pacific	212
12.5	Large Hotspot Traces – A Different Model Is Required	217
12.6	Summary	223

Chapter 13	Fracture Reservoirs and Intraplate Stresses	225
13.1	Aside	225
13.2	Fracture Reservoirs	225
13.3	Horizontal-Drilling Environments	226
13.4	Mechanisms for Fracturing	229
13.5	South Texas: Fractured Austin Chalk Fields	231
13.6	Possible Controls on Austin Chalk Fracturing – South Texas	235
13.7	Likely Factors Responsible for Fractures in Austin Chalk, South Texas	238
13.8	An Exploration Strategy for Fracture Reservoirs	241
Chapter 14	Conclusion	243
14.1	Aside	243
14.2	Summary	246
14.3	Future Work	246
14.4	A Final Speculation	247
14.5	Prospects	248
References		249
Supplementary References: Additional Sources for Appendix 5		255
Appendix 1: Derivation of Instantaneous Pole and Angle of Plate Motion from an Analytic Finite Rotation Functions		265
Appendix 2: Relative and Hotspot Plate Reconstruction Parameters		269
Appendix 3: Calculated Reconstruction and Kinematic Parameters		278
Appendix 4: Isotopic Ages from Inferred Hotspot Traces		307
Appendix 5: Paleostresses		316
Subject Index		329
