<b>Prefaces</b> .....	<b>iii</b>
<b>Foreword</b> <b>The Business Impact of 3-D Seismic</b> .....	<b>xv</b>
by W. K. Aylor, Jr.	
<b>Chapter 1</b> <b>Introduction</b> .....	<b>1</b>
<i>History and Basic Ideas • Resolution • Examples of 3-D Data Improvement • Survey Design • Volume Concept • Slicing the Data Volume • Manipulating the Slices • Dynamic Range and Data Loading • Synergism and Pragmatism in Interpretation • References</i>	
<b>Chapter 2</b> <b>Color, Character and Zero-Phaseness</b> .....	<b>27</b>
<i>Color Principles • Interpretive Value of Color • Assessment of Phase and Polarity • Psychological Impact of Color • References</i>	
<b>Chapter 3</b> <b>Structural Interpretation</b> .....	<b>55</b>
<i>Direct Contouring and the Importance of the Strike Perspective • Fault Recognition and Mapping • Interpretation in the Vicinity of Salt • Composite Displays • Interpretation Procedures • Advantages and Disadvantages of Different Displays • Subtle Structural Features • Visualization and Autotracking • References</i>	
<b>Chapter 4</b> <b>Stratigraphic Interpretation</b> .....	<b>97</b>
<i>Recognition of Characteristic Shape • Reconstituting a Depositional Surface • Methods of Making Horizon Slices • Horizon Slice Examples • Unconformity Horizon Slices • Windowed Amplitude • Acquisition Footprint • References</i>	
<b>Chapter 5</b> <b>Reservoir Identification</b> .....	<b>153</b>
<i>Bright Spots as They Used to Be • The Character of Hydrocarbon Reflections • Examples of Bright Spots, Flat Spots, Dim Spots and Phase Changes • Polarity and Phase Problems, Multiple Contacts and Transmission Effects • Use of Frequency, Amplitude Variations with Offset and Shear Waves • Philosophy of Reflection Identification • Questions an Interpreter Should Ask in an Attempt to Validate the Presence of Hydrocarbons • The Occurrence of Hydrocarbon Indicators • References</i>	
<b>Chapter 6</b> <b>Tuning Phenomena in Reservoirs</b> .....	<b>199</b>
<i>Effect of Tuning on Stratigraphic Interpretation • Deterministic Tuning Curves • Statistical Tuning Curves • Understanding the Magnitude of Tuning Effects • Tuning and Character Matching in Reservoir Evaluation • References</i>	
<b>Chapter 7</b> <b>Reservoir Evaluation</b> .....	<b>213</b>
<i>Reservoir Properties Deducible from Seismic Data • Porosity Using Inversion • Horizon Slices over Reservoir Interfaces • Net Pay Thickness • Pore Volume • Well Calibration • Statistical Use of Tracked Horizon Data • Further Observations of Reservoir Detail • Fault Slicing • References</i>	
<b>Chapter 8</b> <b>Horizon and Formation Attributes</b> .....	<b>247</b>
<i>Classification of Attributes • Time-derived Horizon Attributes • Coherence • Post-stack Amplitude Attributes • Hybrid Attributes • Frequency-derived Attributes • Spectral Decomposition • Amplitude Variation with Offset • Use of Multiple Attributes</i>	
	<b>Visualization of Horizon Attributes</b> ..... <b>295</b>
<i>contributed by Geoffrey A. Dorn</i>	
<i>Nature of Visualization • Perception of Three Dimensions • Attribute/Structure Relationships • Attribute/Attribute Relationships • Complex Structural Relationships • Relationships between Structure and Stratigraphy • Integrating Information • Applications of Stereopsis • Use of Motion • References</i>	
<b>Chapter 9</b> <b>Case Histories of 3-D Seismic Surveys</b> .....	<b>321</b>
<i>"East Painter Reservoir 3-D Survey, Overthrust Belt, Wyoming," by D. G. Johnson .....321</i>	
<i>"Three-Dimensional Seismic Interpretation: Espoir Field Area, Offshore Ivory Coast," by L. R. Grillot, P. W. Anderton, T. M. Haselton, and J. F. Dermagne .....326</i>	
<i>"Field Appraisal with 3-D Seismic Surveys Offshore Trinidad," by R. M. Galbraith and A. R. Brown .....330</i>	

	<i>"Three-Dimensional Seismic Monitoring of an Enhanced Oil Recovery Process,"</i> by R. J. Greaves and T. J. Fulp .....	336
	<i>"Impact of 3-D Seismic on Structural Interpretation at Prospect Cougar,"</i> by C. J. McCarthy and P. W. Bilinski .....	350
	<i>"Three-Dimensional Seismic Interpretation of an Upper Permian Gas Field in Northwest Germany,"</i> by H. E. C. Swanenberg and F. X. Fuehrer .....	358
	<i>"Seismic Data Interpretation for Reservoir Boundaries, Parameters, and Characterization,"</i> by W. L. Abriel and R. M. Wright .....	366
	<i>"A 3-D Reflection Seismic Survey over the Dollarhide Field, Andrews County, Texas,"</i> by M. T. Reblin, G. G. Chapel, S. L. Roche, and C. Keller .....	375
	<i>"Shallow 3-D Seismic and a 3-D Borehole Profile at Ekofisk Field,"</i> by J. A. Dangerfield .....	383
	<i>"Extending Field Life in Offshore Gulf of Mexico Using 3-D Seismic Survey,"</i> by T. P. Bulling and R. S. Olsen .....	392
	<i>"Modern Technology in an Old Area — Bay Marchand Revisited,"</i> by W. L. Abriel, P. S. Neale, J. S. Tissue, and R. M. Wright .....	403
	<i>"Lisburne Porosity — Thickness Determination and Reservoir Management from 3-D Seismic Data,"</i> by S. F. Stanulonis and H. V. Tran .....	418
<b>Chapter 10</b>	<b>Depth Conversion and Depth Imaging</b> .....	<b>433</b>
	<i>Introduction</i>	
	<b>Depth Conversion</b> .....	<b>435</b>
	contributed by L. R. Denham and D. K. Agarwal <i>Sources and Computation of Velocity • General Considerations in Depth Conversion • Depth Conversion Using a Single Velocity Function • Depth Conversion Using Mapped Velocity Function • Depth Conversion Using Layers • Map Migration • Dealing with Conversion Errors • Discussion • References</i>	
	<b>Three-Dimensional Depth Image Interpretation</b> .....	<b>449</b>
	contributed by W. L. Abriel, J. P. Stefani, R. D. Shank, and D. C. Bartel <i>Concept of 3-Depth Imaging • Why Time Imaging Is Not Depth Imaging • Required Elements of 3-D Depth Imaging • Three-Dimensional Post-stack Depth vs. 3-D Post-stack Time Imaging • Noise Characteristics of Depth-Imaged Data • Pre-stack Depth Imaging • Example of Pre-stack vs. Post-stack 3-D Depth Imaging — Model Data • Example of Pre-stack vs. Post-stack 3-D Depth Imaging — Live Data • Discussion • Acknowledgments</i>	
<b>Chapter 11</b>	<b>Regional and Reconnaissance Use of 3-D Data</b> .....	<b>477</b>
	<i>References</i>	
<b>Chapter 12</b>	<b>Four-Dimensional Reservoir Monitoring</b> .....	<b>495</b>
	<i>Summary of Principles • Four-Dimensional Survey Results • References</i>	
<b>Appendix A</b>	<b>Considerations for Optimum 3-D Survey Design, Acquisition and Processing</b> .....	<b>509</b>
	contributed by M. Lansley <i>General Issues • Marine Data Acquisition • Land Data Acquisition • Data Processing • References</i>	
<b>Appendix B</b>	<b>Interpretation Exercise</b> .....	<b>517</b>
	<i>Background Information • Structural Component of Exercise • Stratigraphic Component of Exercise • Procedure • Solution</i>	
<b>Appendix C</b>	<b>Instructions for Assessing Phase and Polarity</b> .....	<b>530</b>
<b>Appendix D</b>	<b>Summary of Recommendations to Help Today's Interpreter</b> .....	<b>534</b>
<b>Index</b>	.....	<b>535</b>
