London

## Contents

Preface	vii
HARRIS, C. & MURTON, J. B. Interactions between glaciers and permafrost: an introduction	1
<b>Glaciers and Permafrost</b>	
ETZELMÜLLER, B. & HAGEN, J. O. Glacier–permafrost interaction in Arctic and alpine mountain environments with examples from southern Norway and Svalbard	11
HAEBERLI, W. Investigating glacier–permafrost relationships in high-mountain areas: historical background, selected examples and research needs	29
WALLER, R. I. & TUCKWELL, G. W. Glacier–permafrost interactions and glaciotectonic landform generation at the margin of the Leverett Glacier, West Greenland	39
BENNETT, M. R., HUDDART, D. & WALLER, R. I. The interaction of a surging glacier with a seasonally frozen foreland: Hagafellsjökull-Eystri, Iceland	51
MOORMAN, B. J. Glacier–permafrost hydrological interconnectivity: Stagnation Glacier, Bylot Island, Canada	63
DORNBUSCH, U. Glacier–rock glacier relationships as climatic indicators during the late Quaternary in the Cordillera Ampato, Western Cordillera of southern Peru	75
<b>Proglacial and Ice Marginal Processes</b>	
IRVINE-FYNN, T. D. L., MOORMAN, B. J., SJOGREN, D. B., WALTER, F. S. A., WILLIS, I. C., HODSON, A. J., WILLIAMS, J. L. M. & MUMFORD, P. N. Cryological processes implied in Arctic proglacial stream sediment dynamics using principal components analysis and regression	83
HARESIGN, E. & WARREN, C. R. Melt rates at calving termini: a study at Glacier León, Chilean Patagonia	99
MERCIER, D. & LAFFLY, D. Actual paraglacial progradation of the coastal zone in the Kongsfjorden area, western Spitsbergen (Svalbard)	111
<b>Permafrost and Frozen Ground</b>	
HUMLUM, O. Holocene permafrost aggradation in Svalbard	119
HARRIS, C. & MURTON, J. B. Experimental simulation of ice-wedge casting: processes, products and palaeoenvironmental significance	131
KIRKBRIDE, M. P. & DUGMORE, A. J. Late Holocene solifluction history reconstructed using tephrochronology	145
Index	157
