Foreword	vii
JABOYEDOFF, M., CROSTA, G. B. & STEAD, D. Slope tectonics: a short introduction	1
EL BEDOUI, S., BOIS, T., JOMARD, H., SANCHEZ, G., LEBOURG, T., TRICS, E., GUGLIELMI, Y., BOUSSOU, S., CHEMENDA, A., ROLLAND, Y., CORSINI, M. & PÉREZ, J. L. Paraglacial gravitational deformations in the SW Alps: a review of field investigations, <sup>10</sup> Be cosmogenic dating and physical modelling	11
SAINTOT, A., HENDERSON, I. H. C. & DERRON, M.-H. Inheritance of ductile and brittle structures in the development of large rock slope instabilities: examples from western Norway	27
HENDERSON, I. H. C. & SAINTOT, A. Regional spatial variations in rockslide distribution from structural geology ranking: an example from Storfjorden, western Norway	79
BÖHME, M., SAINTOT, A., HENDERSON, I. H. C., HENRIKSEN, H. & HERMANN, R. L. Rock slope instabilities in Sogn and Fjordane County, Norway: a detailed structural and geomorphological analysis	97
MARTINOTTI, G., GIORDAN, D., GIARDINO, M. & RATTO, S. Controlling factors for deep-seated gravitational slope deformation (DSGSD) in the Aosta Valley (NW Alps, Italy)	113
BAROŇ, I., KERNSTOCKOVÁ, M., NOVOTNÝ, R., BURIÁNEK, D., HRADECKÝ, P., HAVLIČEK, P. & MELICHAR, R. Palaeostress analysis of a giant Holocene rockslide near Boaco and Santa Lucia (Nicaragua, Central America)	133
JABOYEDOFF, M., OPPIKOFER, T., DERRON, M.-H., BLIKRA, L. H., BÖHME, M. & SAINTOT, A. Complex landslide behaviour and structural control: a three-dimensional conceptual model of Åknes rockslide, Norway	147
PEDRAZZINI, A., JABOYEDOFF, M., FROESE, C. R., LANGENBERG, C. W. & MORENO, F. Structural analysis of Turtle Mountain: origin and influence of fractures in the development of rock slope failures	163
HENDERSON, I. H. C., LAUKNES, T. R., OSMUNDSEN, P. T., DEHLS, J., LARSEN, Y. & REDFIELD, T. F. A structural, geomorphological and InSAR study of an active rock slope failure development	185
BIANCHI FASANI, G., DI LUZIO, E., ESPOSITO, C., MARTINO, S. & SCARASCIA-MUGNOZZA, G. Numerical modelling of Plio-Quaternary slope evolution based on geological constraints: a case study from the Caramanico Valley (Central Apennines, Italy)	201
AMBROSI, C. & CROSTA, G. B. Valley shape influence on deformation mechanisms of rock slopes	215
GHIROTTI, M., MARTIN, S. & GENEVOIS, R. The Celentino deep-seated gravitational slope deformation (DSGSD): structural and geomechanical analyses (Peio Valley, NE Italy)	235
JARMAN, D., AGLIARDI, F. & CROSTA, G. B. Megafans and outsize fans from catastrophic slope failures in Alpine glacial troughs: the Malser Haide and the Val Venosta cluster, Italy	253
Index	279
