

Contents

INTRODUCTION

1 Risk Management in the Governmental Context	3
Risk Management and Government Processes	3
The Concept and Process of Risk Management	6
A Framework for Risk Management in Government	12
Major Objectives of This Book	19
Organization of This Book	19
Appendix 1.1: Theoretical Models	23
Notes	26

PART I

Legislative and Incentive-Based Systems for Managing Chemical Risk

2 Legal and Regulatory Directives and Decrees	31
Introduction	31
The Legislative Basis for Risk Management	32
The Use and Development of Rules (Standards)	58
Conclusions	73
Appendix 2.1: Definition of Terms	75
Appendix 2.2: Typologies of Legislation Based on Health Risk-Only vs Economic Balancing Concepts	77
Appendix 2.3: A Typology of Standards	79
Notes	85
3 Incentive-Based Approaches	89
Introduction	89
Risk Management via Common Law	90
Liability Claims and Payments	99
Financial Mechanisms for Risk Management: Some General Comments ..	109
Insurance and Compensation	110
Taxation	135
Marketable Rights	141
Miscellaneous Financial Responsibility Requirements	148

Grants and Loans	151
Conclusions	156
Notes	157

PART II

Risk Management in the Federal System

4 Congress	163
Introduction	163
The Congressional Decisionmaking System for Risk Management	164
Policy Adjustments Through Performance Evaluations: The Role of Oversight	180
Conclusions	183
Notes	184
5 Executive Departments and Independent Agencies	187
Introduction	187
Major Agencies Involved in Risk Management	188
Trends in the Size of the Risk Bureaucracy and Its Budgetary Capacity ..	200
Discretionary Authority	208
Agency Adjustments to Internal Performance	244
Conclusions	247
Notes	248
6 The Judiciary	251
Introduction	251
Organization of the Judicial Branch	252
Trends and Patterns in Judicial Review	253
Conditions Affecting the Role of the Courts in Risk Management	271
Conclusions	280
Notes	281

CONCLUSION

7 Traditional Approaches and New Initiatives	285
The Stages in Risk Management	287
Ramifications for Future Risk Management	300
Notes	306

Bibliography	309
Glossary of Abbreviations and Acronyms	333
Index	337

Figure 2.1	Cumulative growth in laws (risk laws vs total laws)	37
Figure 2.2	Cumulative ratios of major and all environmental laws to total laws	37
Figure 2.3	Change in the orientation of major environmental health laws over time	41
Figure 2.4	Order in which standards emerge in the regulatory process and complexity of establishing causality between chemicals and health effects	70
Figure 2.5	Order in which standards emerge in the regulatory process and degree of discretion afforded to regulated entity and regulatory agency	71
