

- 1    **Part I Foundations of Domain Decomposition Methods**
- 3    **Domain Decomposition Method: Some Results of Theory and Applications**  
       V. I. Agoshkov
- 19   **The ‘Scalar’ Poincare-Steklov Operator and the ‘Vector’ One: Algebraic Structures Which Underlie Their Duality**  
       A. Bossavit
- 27   **Practical Uses of Domain Reduction Methods**  
       Craig C. Douglas
- 35   **On Some Modern Approaches to Constructing Spectrally Equivalent Grid Operators**  
       E. G. D’Yakonov
- 41   **Domain Decomposition in Boundary Element Methods**  
       George C. Hsiao and Wolfgang L. Wendland
- 50   **Domain Decomposition for Two-Point Boundary Value Problems**  
       Herbert B. Keller
- 58   **Theory and Application of Steklov-Poincare’ Operators for Boundary-Value Problems: The Heterogeneous Operator Case**  
       Alfio Quarteroni and Alberto Valli
- 82   **Domain Decomposition Method in Partial Symmetric Eigenvalue Problem**  
       A. L. Skorokhodov
- 89   **Part II Preconditioning Methods**
- 91   **Domain Decomposition Methods for Problems with Uniform Local Refinement in Two Dimensions**  
       James H. Bramble, Richard Ewing, Rossen R. Parashkevov, and Joseph E. Pasciak
- 101   **An Application of the Probing Technique to the Vertex Space Method in Domain Decomposition**  
       Tony F.C. Chan and Tarek P. Mathew
- 112   **Analysis and Test of a Local Domain Decomposition Preconditioner**  
       Yann-Hervé De Roeck and Patrick LeTallec

- 129 **Domain-Decomposable Preconditioners for Second-Order Upwind Discretizations of Multicomponent Systems**  
David E. Keyes and William D. Gropp
- 140 **A Clustered Element-by-Element Iteration Method for Finite Element Computations**  
J. Liou and T. E. Tezduyar
- 151 **Preconditioning Boundary Conditions:  $L_2$  and  $H_1$  Theory**  
Seymour V. Parter
- 161 **Part III Multilevel Methods**
- 163 **Algebraic Multilevel Preconditioning Methods, III**  
O. Axelsson and P. S. Vassilevski
- 178 **A Fourier Analysis of the Two-Level Hierarchical Basis Multigrid Method for Convection-Diffusion Equations**  
Randolph E. Bank and Mohamed Benbourenane
- 185 **An Analysis of Convergence of the Multigrid Method for Stiff Problems**  
V. Kucherenko
- 195 **Part IV Solution of Elliptic Problems**
- 197 **Iterative Methods for Solving Equations with Highly Varying Coefficients**  
N. S. Bakhvalov, A. V. Knyazev, and G. M. Kobel'kov
- 206 **Mixed Finite Element Solutions of Second Order Elliptic Problems on Grids with Regular Local Refinement**  
R. E. Ewing, R. D. Lazarov, and P. S. Vassilevski
- 213 **Algorithms of Box Domain Decomposition for Solution of 3-D Elliptic Problems**  
B. N. Khoromskij, G. E. Mazurkevich, and E. P. Zhidkov
- 223 **Overlapping Domain Decomposition Methods for FE-Problems with Elliptic Singular Perturbed Operators**  
Yu. A. Kuznetsov
- 242 **Application of Domain Decomposition to Elliptic Problems with Discontinuous Coefficients**  
S. V. Nepomnyaschikh
- 253 **Part V Solution of Parabolic Problems**
- 255 **A Domain Decomposition Method for Parabolic Equations Based on Finite Elements**  
Clint N. Dawson and Qiang Du

- 264 **Substructuring Methods for Parabolic Problems**  
Maksymilian Dryja
- 273 **Part VI Application to Fluid Dynamics and Electromagnetics**
- 275 **Control Approach to Fictitious-Domain Methods Application to Fluid Dynamics and Electro-Magnetics**  
C. Atamian, Q. V. Dinh, R. Glowinski, Jiwen He, and J. Périaux
- 310 **Domain Decomposition Methods for the Navier-Stokes Equations**  
M. Fortin, R. Aboulaich, C. Kari, and F. Pitt
- 319 **Part VII Domain Decomposition and Parallel Computing**
- 321 **Parallel Substructuring Algorithms in Structural Analysis, Direct and Iterative Methods**  
Petter E. Bjørstad, Jon Brækhus, and Anders Hvidsten
- 341 **Domain Decomposer: A Software Tool for Mapping PDE Computations to Parallel Architectures**  
N. P. Chrisochoides, C. E. Houstis, E. N. Houstis, P. N. Papachiou, S. K. Kortesis, and J. R. Rice
- 358 **Parallel Domain Decomposition Method for Mixed Finite Elements for Elliptic Partial Differential Equations**  
Lawrence C. Cowsar and Mary F. Wheeler
- 373 **Parallel Domain Decomposition and the Solution of Nonlinear Systems of Equations**  
William D. Gropp and David E. Keyes
- 382 **On a Parallel Schwarz Algorithm for Symmetric Strongly Elliptic Integral Equations**  
F. K. Hebeker
- 394 **Numerical Experiments with Domain Decomposition Method for Parabolic Problems on Parallel Computers**  
Gerard Meurant
- 409 **Distributed Computing and Adaptive Solution to Nonlinear PDES**  
Jeffrey S. Scroggs and Joel S. Saltz
