

CONTENTS

| | |
|---|------|
| Tables and Figures | xi |
| Preface | xiii |
| 1. Introduction to the Study of Crime | 1 |
| What Is To Be Integrated? | 1 |
| Linking Theory and Data | 5 |
| The Current Study | 7 |
| 2. Theories of Criminality | 9 |
| Theoretical Legacies | 10 |
| The Criminal as a Unifying Concept | 13 |
| Two Major Problems, Some Exceptions, and New Directions | 18 |
| Crime and the Community | 21 |
| Some Hypotheses | 26 |
| Summary and Conclusions | 27 |
| 3. Theories of Victimization and Criminal Opportunities | 29 |
| Historical Foundations for Current Victimization Theories | 30 |
| The Lifestyle-Exposure Theory of Victimization | 32 |
| The Routine Activity Theory | 35 |
| Alternative Theoretical Models | 39 |
| Contextual Effects in Models of Victimization | 44 |
| Major Concepts in Victimization Theories | 46 |
| Problems with Previous Evaluations of Victimization Theories | 52 |
| Summary and Research Hypotheses | 56 |

| | |
|--|-----|
| 4. An Integrated Perspective | 59 |
| Compatibility of Theories of Criminality and Victimization | 60 |
| A Heuristic Model | 63 |
| Summary | 72 |
| 5. Data Sources for Evaluating Criminological Theories | 73 |
| UCR Data and Census Reports | 74 |
| National Crime Surveys | 77 |
| Seattle Telephone Survey | 79 |
| Measures of Major Concepts | 84 |
| Analytic Procedures | 93 |
| Summary and Conclusions | 94 |
| Measures of Concepts and Descriptive Statistics | 95 |
| 6. The Empirical Distribution of Crime and Victimization | 101 |
| Victim-Offender Relationship | 101 |
| Physical Location of Crime | 103 |
| Time of Occurrence of Crime | 111 |
| Social Characteristics of Offenders and Victims | 112 |
| Summary and Conclusions | 119 |
| 7. Predicting Crime Rates | 121 |
| Crime Rates and Theoretically Derived Variables | 122 |
| Variation in the Predictors of Crime Rates | 134 |
| The Value of Theoretical Integration | 138 |
| Conclusions and Implications | 139 |
| 8. Predicting Individuals' Risks of Victimization | 141 |
| Explaining the Victimization Experience | 141 |
| Conclusions and Implications | 147 |
| 9. Crime and Context | 149 |
| Types of Contextual Effects | 149 |
| The Importance of Contextual Effects | 151 |
| Main and Mediation Effects of Contextual Factors | 152 |
| Interactions between Contextual and Individual Factors | 153 |
| Conclusions and Implications | 162 |
| 10. Summary and Implications | 165 |
| Summary of Results | 165 |
| Implications for Macro-Level Theories of Criminality | 167 |

| | |
|---|-----|
| Implications for Theories of Victimization | 168 |
| Implications for a General Theory of Crime | 170 |
| Implications of Data Limitations for Testing Theories | 172 |
| Implications for Crime Control Policy | 174 |
| Criminal Propensities and the Social Context | 177 |
| Conclusions | 179 |
| Notes | 181 |
| Bibliography | 189 |
| Author Index | 203 |
| Subject Index | 207 |

TABLES AND FIGURES

Figures

| | | |
|------|--|----|
| 3.1. | Hindelang et al.'s (1978) Lifestyle-Exposure Model | 33 |
| 3.2. | Hough's Framework for Explaining Target Selection | 43 |
| 4.1. | Heuristic Model of Criminal Events | 65 |

Tables

| | | |
|------|---|-----|
| 5.1. | Sample Characteristics for Seattle Survey and 1989 NCS Data | 83 |
| 6.1. | Violent Crime Rates per 100,000 by Categories of Theoretically Relevant Variables and Aggregate Units | 104 |
| 6.2. | Places of Occurrence for Violent Crimes by Strangers for 1973-75, 1980-82, and 1987-89 Time Periods Based on NCS Data | 108 |
| 6.3. | Property Crime Rates per 100,000 by Categories of Theoretically Relevant Variables and Aggregate Units | 110 |
| 6.4. | Victimization Rates per 1,000 by Select Characteristics of the Resident (NCS 1989 Data, N = 16,855) | 114 |
| 6.5. | Victimization Rates per 1,000 by Select Characteristics of the Resident (Seattle Victimization Survey, N = 5,302) | 116 |

| | | |
|------|--|-----|
| 7.1. | Bivariate Correlations between Theoretically Relevant Variables and Crime Rates for Various Aggregate Units | 124 |
| 7.2. | Unstandardized Regression Coefficients for Models of Crime Rates that Include All Theoretically Relevant Variables | 126 |
| 7.3. | Models of Change in Crime Rates Over Time | 128 |
| 8.1. | Predictors of Individuals' Risks of Victimization | 144 |
| 9.1. | Variables, Coding, and Descriptive Statistics | 154 |
| 9.2. | Logistic Regression Estimates for Models of Individuals' Risks of Violent and Property Victimization | 156 |
| 9.3. | Context-Specific Models of Individuals' Risks of Violent and Property Victimization | 159 |
