

Contents

<i>Preface</i>	page ix
Chapter 1 <i>The origins of language</i>	1
The divine source; The natural sounds source; The oral-gesture source; Physiological adaptation; Speech and writing; Study questions; Discussion topics/projects; Further reading	
Chapter 2 <i>The development of writing</i>	8
Pictograms and ideograms; Logograms; Rebus writing; Syllabic writing; Alphabetic writing; Written English; Study questions; Discussion topics/projects; Further reading	
Chapter 3 <i>The properties of language</i>	16
Communicative versus informative; Unique properties; Displacement; Arbitrariness; Productivity; Cultural transmission; Discreteness; Duality; Other properties; Study questions; Discussion topics/projects; Further reading	
Chapter 4 <i>Animals and human language</i>	25
Teaching chimpanzees; Washoe; Sarah and Lana; Nim Chimpsky; Hans, Buzz and Doris; The controversy; Study questions; Discussion topics/projects; Further reading	
Chapter 5 <i>The sounds of language</i>	33
Phonetics; Voiced and voiceless sounds; Place of articulation; Charting consonant sounds; Manner of articulation; Vowels; Study questions; Discussion topics/projects; Further reading	
Chapter 6 <i>The sound patterns of language</i>	44
Phonology; Phonemes; Minimal pairs and sets; Phones and allophones; Assimilation; Elision; Study questions; Discussion topics/projects; Further reading	
Chapter 7 <i>Words and word-formation processes</i>	51
Word-formation processes; Coinage; Borrowing; Compounding; Blending; Clipping; Backformation; Conversion; Acronyms; Derivation; Prefixes and suffixes; Infixes; Multiple processes; Study questions; Discussion topics/projects; Further reading	
Chapter 8 <i>Morphology</i>	59
Morphology; Morphemes; Free and bound morphemes; Free morphemes; Bound morphemes; Morphological description; Problems in morphological description; Morphs and allomorphs; Other languages; Study questions; Discussion topics/projects; Further reading	

Chapter 9 Phrases and sentences: grammar	68
Grammar; Types of grammar; The parts of speech; Traditional grammar; Traditional categories; Traditional analysis; The prescriptive approach; Captain Kirk's infinitive; The descriptive approach; Structural analysis; Immediate constituent analysis; Labeled and bracketed sentences; Study questions; Discussion topics/projects; Further reading	
Chapter 10 Syntax	80
Generative grammar; Some properties of the grammar; Deep and surface structure; Structural ambiguity; Different approaches; Symbols used in syntactic description; Labeled tree diagrams; Phrase structure rules; Transformational rules; Study questions; Discussion topics/projects; Further reading	
Chapter 11 Semantics and pragmatics	91
Neither God nor Humpty Dumpty; Conceptual versus associative meaning; Semantic features; Lexical relations; Synonymy; Antonymy; Hyponymy; Homophony, homonymy and polysemy; Interpreting what speakers mean; Context; Deictic expressions; Presupposition; Speech acts; Study questions; Discussion topics/projects; Further reading	
Chapter 12 Discourse analysis	104
Interpreting discourse; Cohesion; Coherence; Speech events; Conversational interaction; The co-operative principle; Background knowledge; Study questions; Discussion topics/projects; Further reading	
Chapter 13 Language and machines	115
Speech synthesis; Artificial intelligence; Parsers; Understander-systems; ELIZA; SHRDLU; Study questions; Discussion topics/projects; Further reading	
Chapter 14 Language and the brain	124
Parts of the brain; Broca's area; Wernicke's area; Supplementary motor area; The localization view; Other views; Tongue tips and slips; Aphasia; Broca's aphasia; Wernicke's aphasia; Dichotic listening; The critical period; Genie; Study questions; Discussion topics/projects; Further reading	
Chapter 15 First language acquisition	136
Basic requirements; The acquisition schedule; Some controversies; Caretaker speech; Pre-language stages; The one-word or holophrastic stage; The two-word stage; Telegraphic speech; The acquisition process; Morphology; Syntax; Questions; Negatives; Semantics; Study questions; Discussion topics/projects; Further reading	
Chapter 16 Second language acquisition/learning	150
Acquisition barriers; Acquisition aids; Grammar–translation method; Direct method; Audiolingual method; The communicative	

approach; Acquisition processes; Study questions; Discussion topics/projects; Further reading

Chapter 17 Sign language

158

Oralism; Signed English; Origins of ASL; The structure of signs; The meaning of signs; Writing in ASL; ASL as a linguistic system; Study questions; Discussion topics/projects; Further reading

Chapter 18 Language history and change

167

Family trees; Family relationships; Cognates; Comparative reconstruction; Language change; Old English; Middle English; Sound changes; Syntactic changes; Lexical changes; The process of change; Study questions; Discussion topics/projects; Further reading

Chapter 19 Language varieties

180

The Standard Language; Accent and dialect; Regional dialects; Isoglosses and dialect boundaries; The dialect continuum; Bilingualism; Language planning; Pidgins and Creoles; Study questions; Discussion topics/projects; Further reading

Chapter 20 Language, society and culture

190

Social dialects; Education, occupation, social class; Age, sex; Ethnic background; Idiolect; Style and register; Diglossia; Language and culture; Linguistic determinism; The Sapir–Whorf hypothesis; Language universals; Study questions; Discussion topics/projects; Further reading

Appendix: Suggested answers to Study questions
