Part I	INTRODUCTION TO MODELLING THE ENVIRONMENT AND THE ECONOMY	
1	Background and Introduction Bjarne Madsen, Chris Jensen-Butler, Jørgen Birk Mortensen and Anne Marie Bruun Christensen	1
Part II	SURVEY OF THE STATE OF THE ART: MODELLING THE ENVIRONMENT AND THE ECONOMY	
2	Interaction between the Agricultural Economy and the Environment: An Overview of Dutch Problems, Policies and Models Henk Folmer and Geert Thijssen	12
3	Transport Infrastructure, Productivity and Employment Piet Rietveld	37
Part III	EFFECTS ON ECONOMIC ACTIVITY	
4	A CGE Model for Denmark Applied to CO₂ Targets and GATT Liberalization Søren Elkjær Frandsen, Jan V. Hansen and Peter Trier	62
5	Costs and Benefits of Climate Policies: An Integrated Economy-Energy-Environment Model Approach for Norway Morten Aaserud	77
6	Regional Consequences of Environmental Taxes Mette Gørtz	93

- 7 **Regional Impacts of a Future Reduction of Agricultural Subsidies in Norway. An Input-output Approach** 117
Steinar Johansen

Part IV EFFECTS ON EMISSIONS

- 8 **A Model for Energy Consumption and Energy-related Emissions from the Danish Production Sector - INDUS/EMIS** 136
Fritz Møller Andersen
- 9 **Input-output Analysis and Emissions of CO₂, SO₂ and NO_x - Linking Physical and Monetary Data** 146
Ole Gravgård Pedersen
- 10 **The CO₂ Tax and its Ability to Reduce CO₂ Emissions Related to Oil and Gas Production in Norway** 169
Frode Rømo and Morten W. Lund
- 11 **The Regional Economic Consequences of Taxation on Commercial Fertilizers** 187
Thomas Jensen and Poul Erik Stryg
- 12 **Set-aside - Economics and the Environment** 210
Nils Groes and Kirsten Mohr
- 13 **A National Forecasting Model System for the Evaluation of the Impacts of Alternative Policy Measures on Transport and the Environment** 221
Farideh Ramjerdi and Lars Rand

Part V INTEGRATED APPROACHES

- 14 **Multicriteria Assessments of National Road Programs** 239
Ulla M. Forslund, Gunnar Lindberg
- 15 **Environmental Benefits from Export of Electricity from Non-fossil Sources in Scandinavia** 259
Poul Erik Grohnheit

- 16 Reducing Nutrient Loadings of Marine Waters: A Cost Effectiveness Analysis** 285
Henrik Paaby, Jan Juhl Jensen, Peter Kristensen, Flemming Møller and Eli Skop
- 17 Modelling the Regional Economic Consequences of Environmental Policy Instruments Applied to the Transport Sector** 308
Chris Jensen-Butler and Bjarne Madsen

Part VI PERSPECTIVES FOR FUTURE RESEARCH

- 18 Conclusions and Perspectives** 331
Bjarne Madsen, Chris Jensen-Butler, Jørgen Birk Mortensen, Anne Marie Bruun Christensen and Morten Aaserud
- Author index** 353
- Subject index** 355
- Contributors** 360
