

Foreword	5
Summary	7
1. Introduction	13
2. Exposure to noise at work	15
2.1. Exposure to loud noise	18
<i>General prevalence</i>	18
<i>Noise exposure — data from Member States</i>	21
<i>Noise exposure — which are the groups most concerned?</i>	25
<i>Sectors at risk</i>	25
<i>Noise and loud machinery</i>	29
<i>Relationship with age</i>	38
<i>Noise in the entertainment sector</i>	38
<i>Relationship with employment status</i>	40
<i>Wearing personal protective equipment and information about the risk</i>	40
2.2. Combined exposures	43
2.3. Impulse noise	44
2.4. Medium-level noise	45
<i>Noise in education</i>	45
<i>Recommended noise levels</i>	46
3. Health effects	49
3.1. Noise-induced hearing loss	51
<i>General prevalence</i>	52
<i>Hearing loss — information from the Member States</i>	56
<i>What is the extent of the problem?</i>	56
<i>Which are the groups most concerned by hearing loss?</i>	58
<i>What is the cost of hearing loss?</i>	60
<i>Effects of sudden/varying/impulse noise</i>	61
<i>Acoustic shock</i>	61
<i>Noise and ototoxic substances</i>	63
3.2. What other effects can noise cause?	67
<i>Tinnitus/ringing in the ear</i>	67
<i>Exposure of pregnant workers to high noise levels</i>	68
3.3. Non-auditory effects of noise	70
<i>Stress due to noise (schools, healthcare, restaurants, offices, call centres)</i>	71
<i>Effects of hearing impairment</i>	73
<i>Noise and problems with oral communication</i>	75
<i>Noise and accidents</i>	76
<i>Noise and voice disturbances</i>	76
4. The Agency surveys on emerging risks	79
4.1. Expert survey results — emerging risks related to noise	82
5. Methodology	87
5.1. Data collection methodology of the Agency's risk observatory	88
<i>Administrative data sources</i>	89

<i>Surveys</i>	91
<i>Additional sources</i>	91
<i>Comparability of data</i>	92
<i>Time trends</i>	92
5.2. How noise at work and its effects are monitored	93
<hr/>	
6. Legislation	97
6.1. European workplace legislation on noise exposure	98
6.2. Other EU policy areas.....	100
<i>Machinery</i>	100
<i>Environmental noise</i>	101
<i>Research on noise</i>	103
<hr/>	
7. Conclusions.....	105
7.1. Implementing the new directive in practice	106
<i>Targeting specific sectors</i>	106
<i>Control measures and the use of personal protective equipment</i>	108
<i>Loud machinery</i>	109
<i>Acoustic measures</i>	109
<i>Medium-level noise</i>	110
<i>Addressing the needs of specific groups</i>	110
<i>Disablement due to noise</i>	110
7.2. Research needs	113
<i>Monitoring health effects</i>	113
<i>Assessing exposures in specific workplaces</i>	113
<i>Combined exposures</i>	113
<hr/>
