List of Tables	xvi
List of Figures	xvii
List of Abbreviations	xix
Introduction and Overview	1
1 A Regional Puzzle of Child Mortality and Undernutrition	11
1.1 Introduction	12
1.1.1 Child Mortality and Undernutrition	12
1.1.2 The South Asia - Sub-Saharan Africa Enigma	12
1.2 Methodology	16
1.2.1 Multilevel Analysis	16
1.2.2 The Basic Multilevel Model	18
1.2.3 Model Specification	19
1.3 Empirical Analysis	20
1.3.1 Data Description	20
1.3.2 Descriptive Statistics	24
1.3.3 Regression Results	28
1.3.4 Simulations	41
1.4 Conclusion	42
2 The Impact of HIV on Childrens' Welfare	45
2.1 Introduction	46
2.2 Literature Review on the Impact of HIV/AIDS	48
2.2.1 Development of the HIV/AIDS Epidemic	48
2.2.2 The Macro-Economic Impact of HIV/AIDS	49
2.2.3 The Micro-Economic Impact of HIV/AIDS	51
2.3 Methodology	53
2.3.1 Survival Model Framework	53

2.3.2 Ordinary Least Squares and Logistic Model	56
2.4 Empirical Analysis	57
2.4.1 Data Description	57
2.4.2 Descriptive Statistics	59
2.4.3 Estimation Results	67
2.5 Conclusion	77
3 Measuring Pro Poor Growth in Non-Income Dimensions	79
3.1 Introduction	80
3.2 The Concept of Pro-Poor Growth	81
3.2.1 Definition of Pro-Poor Growth	81
3.2.2 Multidimensionality of Pro-Poor Growth	84
3.3 Methodology	85
3.3.1 The Growth Incidence Curve	85
3.3.2 The Non-Income Growth Incidence Curve	86
3.3.3 Specification of the Non-Income Indicators	88
3.3.4 Limitations of the Indicators	91
3.4 Empirical Analysis	95
3.4.1 Inequality	95
3.4.2 Pro-Poor Growth	103
3.5 Conclusion	119
4 Estimating Vulnerability to Covariate and Idiosyncratic Shocks	121
4.1 Introduction	122
4.2 The Concept of Vulnerability	124
4.3 Estimates of Vulnerability	125
4.4 Idiosyncratic and Covariate Shocks	127
4.5 Methodology	129
4.5.1 Mean and Variance in Consumption	129
4.5.2 Assumptions and Critical Issues	130
4.5.3 Multilevel Analysis	133
4.5.4 The Impact of Idiosyncratic and Covariate Shocks	136
4.6 Empirical Analysis	138
4.6.1 Data Description and Model Specification	138
4.6.2 Estimation Results	142
4.6.3 Vulnerability to Poverty	145
4.7 Conclusion	151

Appendix A	155
Appendix B	163
Bibliography	171

List of Tables

1.1	Infant Mortality and Anthropometric Indicators	25
1.2	Summary Statistics	26
1.3	Mortality and Stunting by Asset and Access to Health Facility Index	29
1.4	Regression Results of Infant Mortality	31
1.5	Regression Results of Stunting (Old Reference Standard)	32
1.6	Regression Results of Stunting (New Reference Standard)	33
1.7	Global Regression of Infant Mortality and Stunting	40
2.1	HIV Infection Rates	61
2.2	HIV Infection by Asset Index	64
2.3	Child Mortality, Undernutrition, and Education by Asset Index . .	65
2.4	Summary Statistics	67
2.5	Regression Results of Child Mortality (HIV Status of Mother) . .	70
2.6	Regression Results of Child Mortality (HIV Status of Partner) . .	71
2.7	Regression Results of Stunting	75
2.8	Regression Results of School Enrollment	76
3.1	Illustration of Pro-Poor Growth Definitions	83
3.2	Income and Non-Income Indicators (Unconditional)	98
3.3	Income and Non-Income Indicators (Conditional)	100
3.4	Deciles of the Composite Welfare Index	102
3.5	Pro-Poor Growth Rates	107
4.1	Households with Exposure to Different Shocks	139
4.2	Correlations of Shocks	140
4.3	Summary Statistics	141
4.4	Regression Results of Per Capita Consumption	143
4.5	Estimated Mean and Standard Deviation	144
4.6	Vulnerability Decomposition	146
A.1	Scoring Coefficients	153
A.2	Regression Results of Infant Mortality (Logistic Regression) . .	154

A.3	Regression Results of Stunting (Logistic Regression)	155
A.4	Regression Results of Stunting (Logistic Regression)	156
A.5	Regression Results of Stunting (OLS Regression)	157
A.6	Regression Results of Stunting Z-Scores (OLS Regression)	158
A.7	Regression Results of Stunting Z-Scores (Multilevel Regression) .	159
A.8	Regression Results of Stunting Z-Scores (Multilevel Regression) .	160
B.1	Sample Comparison	162
B.2	Regression Results of Mortality (Global Data Set)	163
B.3	Regression Results of Stunting (OLS Regression)	164
B.4	Regression Results of Stunting (Global Data Set)	165
B.5	Regression Results of School Enrollment	166
B.6	Regression Results of Enrollment (Global Data Set)	167

List of Figures

1.1	Mean Stunting Z-Scores By Age	34
2.1	Number of Reported AIDS Cases	61
2.2	HIV Infection by Age	62
2.3	HIV Infection by Asset Index	63
3.1	GIC (absolute and relative)	103
3.2	NIGIC for Average Education	105
3.3	NIGIC for Individual Education	106
3.4	NIGIC for Gender Gap in Education	109
3.5	NIGIC for Vaccinations	112
3.6	NIGIC for Under Five Survival	113
3.7	NIGIC for Stunting	116
3.8	NIGIC for the Composite Welfare Index	117
3.9	NIGIC for Education (Burkina Faso)	118
4.1	Variance Decomposition in Multilevel Models	135
4.2	Cumulative Densities of Vulnerability - Poverty Lines	149
4.3	Cumulative Densities of Vulnerability - Probability Thresholds . .	150
B.1	Survival Rates by Age	161
