Mud and Mudstones

Introduction and Overview

With 261 Figures and 48 Tables

 Springer

Contents

1	Overview	1
	Milestones	4
	Supporting References for Table 1.2	4
	Books on Mudstones	4
	References	4
2	Production of Mud and Silt	7
2.1	Introduction	7
2.2	Sedimentary Differentiation	8
2.2.1	Residence Time, Relief, and Rainfall	9
2.2.2	Source Rock Control	13
2.3	Silt	14
2.4	Pre-Devonian Landscapes	18
2.5	Summary	20
2.6	Challenges	20
	References	21
	Digging Deeper	21
3	Transport and Deposition	23
3.1	Introduction	23
3.2	Mass Movements	24
3.2.1	Liquefaction	24
3.2.2	Creep	26
3.2.3	Failure	26
3.2.4	Stability of Underwater Slopes	28
3.3	Settling, Suspension, and Entrainment	30
3.4	Dispersion of Fines	35
3.4.1	Rivers	35
3.4.2	Waves and Coastal Currents	35
3.4.3	Gravity and Turbidity Currents	37
3.4.4	Contour Currents	40
3.4.5	Wind	40

3.5	Sedimentary Structures	40
3.5.1	Hydraulic Structures	41
3.5.2	Soft-sediment Structures	44
3.5.3	Biogenic Structures	44
3.6	Paleocurrent Systems	46
3.7	Small Scale Sequences and Tidal Rhythmites	47
3.8	Summary	50
3.9	Challenges	51
	References	52
	Digging Deeper	53
4	Role of Oxygen	55
4.1	Introduction	55
4.2	Redox Fronts, Organisms, and Mudstone Properties	56
4.3	Water Column Oxygenation and Basin Geometry	61
4.4	The Value of Biomarkers	63
4.5	Trace Element Indicators	64
4.6	Color and Oxygen	66
4.7	Summary	71
4.8	Challenges	72
	References	72
	Digging Deeper	73
5	Muddy Depositional Systems	75
5.1	Introduction	75
5.2	Continental Environments	78
5.2.1	Mass Wasting on Slopes	78
5.2.2	Alluvial	79
5.2.3	Glacial	86
5.2.4	Loess	90
5.2.5	Non-glacial Lakes	91
5.3	Transitional Environments	96
5.3.1	Deltas	96
5.3.2	Estuarine Deltas and Fjords	100
5.3.3	Coastlines	102
5.4	Marine Environments	107
5.4.1	Shelves	108
5.4.2	Slopes and Toes of Slopes	116
5.4.3	Submarine Fans and Aprons	117
5.4.4	Contour Currents and the Deep Ocean	119
5.5	Summary	121
5.6	Challenges	122
	References	122
	Digging Deeper	124

6	Burial	127
6.1	Introduction	127
6.2	Physical Processes: Compaction and Deformation	129
6.2.1	Shallow Burial	130
6.2.2	Deeper Burial	133
6.3	Chemical and Mineralogical Changes	137
6.3.1	Shallow Burial	137
6.3.2	Deeper Burial	147
6.4	Metamorphic Equivalents	150
6.5	Summary	152
6.6	Challenges	152
	References	153
	Digging Deeper	155
7	Provenance of Mudstones	157
7.1	Introduction	157
7.2	Stratigraphic Methods: Architecture of the Basin Fill	158
7.3	Petrographic Methods: Interbedded Sandstones and Siltstones	159
7.4	Mineralogical Methods	160
7.5	Chemical Methods	162
7.5.1	Major Element Chemistry	163
7.5.2	Trace Element Chemistry	164
7.5.3	Isotope Chemistry	166
7.6	Recycling	169
7.7	Ash Fall Mudstones	169
7.8	Provenance of Clays in Archeology	170
7.9	Summary	171
7.10	Challenges	171
	References	172
	Digging Deeper	174
8	Muddy Basins	175
8.1	Introduction	175
8.2	Controlling Processes	176
8.2.1	Mud Supply and Transport	176
8.2.2	Mudstone Distribution and Thickness	178
8.3	Mudstone Geometry	180
8.4	Lateral Extent and Correlation	182
8.5	Sequence Stratigraphy	185
8.6	Mudstones and Basins	191
8.6.1	Intracratonic and Pericratonic Basins	192
8.6.2	Foreland Basins	195
8.6.3	Rift Basins	199

8.6.4	Pull-apart basins	202
8.6.5	Forearc, Intra-arc, and Backarc Basins	204
8.6.6	Glacial Basins	206
8.7	Stratigraphy of Black and Red Mudstones	207
8.8	Milankovitch Cyclicality and Mudstone Deposition	215
8.9	Mudstone Through Time	217
8.10	Summary	218
8.11	Challenges	218
	References	219
	Digging Deeper	222
9	Practicalities	225
9.1	Introduction	225
9.2	Mudstones as Barriers to Flow	225
9.3	Ores in Mudstones	228
9.4	Industrial Minerals	230
9.5	Hydrocarbons	232
9.6	Construction and the Environment	234
9.6.1	Slopes	236
9.6.2	Volume Changes	238
9.6.3	Liquefaction	239
9.6.4	Pyrite	240
9.6.5	Coal Quality and Mudstones	241
9.6.6	Importance of Defining Mudstone Lithologies	241
9.7	Summary	241
	References	242
	Digging Deeper	243
A	Appendices	245
	Introduction	245
	References	246
A.1	Field and Core Description	246
	References	254
	Digging Deeper	255
A.2	Terminology	256
	References	257
	Digging Deeper	258
A.3	Clay Minerals	258
	References	263
	Digging Deeper	263
A.4	Soils and Paleosols	263
	References	265
	Digging Deeper	266

A.5	Petrographic Study	266
	References	268
	Digging Deeper	268
A.6	Organic Matter	268
	References	270
	Digging Deeper	270
A.7	Isotopes: the Stable Isotopes of C, O, H, S, and N	271
	References	274
	 Glossary	 275
	 Subject Index	 289
