Contents

vii Preface

viii Preface to the Second Edition

1 The Dictionary

325 Appendices

- 1 Geological time scale
- 2 Terrestrial chronology of the Quaternary Ice Age in the northern hemisphere
- 3 Marine oxygen isotope chronology of the Quaternary Ice Age
- 4 Wallace's zoogeographical regions
- 5 Phytogeographical regions
- 6 Terrestrial biomes
- 7 Tectonic plates
- 8 Major oceanic surface currents
- 9 Marine depth zones
- 10 Lacustrine depth zones
- 11 Soil profile and horizon nomenclature
- 12 Zonation of the atmosphere
- 13 Plankton size categories
- 14 Sediment particle size categories
- 15 Taxonomic hierarchy
- 16 SI units
- 17 Temperature conversion chart
- 18 The Beaufort wind scale
- 19 Chemical elements
- 20 The electromagnetic spectrum
- 21 Composition of the atmosphere
- 22 Global distribution of water
- 23 The genetic code and amino acids
- 24 Signs and symbols
- 25 Acronyms and abbreviations
- 26 Latin abbreviations
- 27 Greek and Russian alphabets: Roman numerals
- 28 Proof correction marks
- 29 International paper sizes
