
Heterogeneous Reaction Dynamics

Steven L. Bernasek

Contents

1. Introduction 1

References 4

2. Surface Characterization Methods 7

2.1 Structural Information 9

2.2 Compositional Information 14

2.3 Electronic Structure Information 18

References 22

3. Inelastic Scattering and Energy Transfer 25

3.1 Introduction 25

3.2 Experimental Methods 26

3.3 Illustrative Examples 28

3.4 Comments 42

References 43

4. Adsorption, Epitaxial Growth, and Adsorbate Interactions 45

4.1 Experimental Methods 45

4.2 Illustrative Examples	47
4.3 Comments	62
<i>References</i>	<i>63</i>
5. Surface Diffusion	65
5.1 Experimental Methods	66
5.2 Illustrative Examples	68
5.3 Comments	74
<i>References</i>	<i>76</i>
6. Dynamics of Dissociative Adsorption	79
6.1 Experimental Methods	80
6.2 Illustrative Examples	84
6.3 Comments	96
<i>References</i>	<i>97</i>
7. Atom Recombination Dynamics	99
7.1 Introduction	99
7.2 Experimental Methods	100
7.3 Examples	103
7.4 Comments	116
<i>References</i>	<i>117</i>
8. Catalytic Oxidation	121
8.1 Experimental Methods	121
8.2 Illustrative Examples	123
8.3 Comments	132
<i>References</i>	<i>134</i>
9. Small Molecule Decomposition Processes	135
9.1 Experimental Methods	135
9.2 Illustrative Examples	138
9.3 Comments	150
<i>References</i>	<i>152</i>
Index	155
