WATER, SANITATION AND HEALTH

RESOLVING CONFLICTS BETWEEN DRINKING-WATER DEMANDS AND PRESSURES FROM SOCIETY'S WASTES

Proceedings of the International Conference held in
Bad Elster, Germany, 24–28 November 1998

EDITED BY
I. CHORUS, U. RINGELBAND, G. SCHLAG and O. SCHMOLL

Schriftenreihe des Vereins fuer Wasser-, Boden- und Lufthygiene **105**

IWA Publishing

für Mensch und Umwelt

WABOLU

Contents

Editorial 1
I. Chorus

Rethinking Sanitation: Panacea or Pandora's Box 7
S. A. Esrey

Re-engineering the urban drainage system for resource recovery and protection of drinking water supplies 15
B. Gumbo

Some recent and ongoing initiatives for the development of strategies, models and tools in the field of environmental sanitation in economically less developed countries 23
R. Schertenleib

Section 1
Health risks potential from drinking-water polluted with domestic sewage and excreta

Health impairments arising from drinking water resources contaminated with *Vibrio cholerae* 29
T. Ramamurthy, S. Chakraborty, G. B. Nair and S. K. Bhattacharya

Efficiency of wastewater treatment plants at removing *Giardia* sp. cysts in Southern France 35
S. Wiandt, A. M. Grimason, B. Baleux and J. Bontoux

Health impairments arising from drinking water polluted with domestic sewage and excreta in China 43
B. Ling

Water, sanitation and diarrhoea 47
B. Amin Hoque

Challenges for health and water resources in the Birim districts of Eastern Ghana 53
N. O. Laryea

Drugs, diagnostic agents and disinfectants in wastewater and water - a review 59
K. Kümmerer

Section 2
Policy and acceptance, institutional and management aspects

Establishing mutual trust – a prerequisite to public partnership 75
P. Hotchkiss Bakir

Management of rural drinking water supplies and waste using the participatory hygiene and sanitation transformation (PHAST) initiative in Zimbabwe 81
N. Musabayane

Protecting drinking water: water quality testing and PHAST in South Africa 89
E. D. Breslin

The development of a protocol to manage the potential of groundwater contamination from on-site sanitation 95
S. Hartley

Regulation as a tool for improving the management of water supply and sanitation companies 99
T. Lee

Water management for development of water quality in the Ruhr river basin 105
R. Klopp

New regulatory framework for wastewater quality control in Mexico 111
L. Saade Hazin

Pollution of water sources due to poor waste management - the case of Dar-es-Salaam 117
D. E. Makule

Section 3
Protection of surface water (reservoirs, rivers, lakes) and groundwater from domestic sewage and excreta

Resource protection and resource management of drinking water-reservoirs in Thuringia - a prerequisite for high drinking-water quality 125
H. Willmitzer

Using the example of Istanbul to outline general aspects of protecting reservoirs, rivers and lakes used for drinking water abstraction 133
A. Tanik

Wastewater discharge and water quality standards in Brazil - implications for the selection of wastewater treatment technologies 141
M. von Sperling

Monitoring of *Cryptosporidium* and *Giardia* in Czech drinking water sources 147
P. Dolejš, O. Ditrich, T. Machula, N. Kalousková and G. Puzová

The suitability of sand abstraction systems for community-managed domestic water supplies 153
S. W. Hussey

Groundwater protection policies and practices in the United Kingdom 159
P. A. Chave

Conflict of technologies for water and sanitation in developing countries 167
R. R. Bannerman

Pit latrine effluent infiltration into groundwater: the Epworth case study 171
M. Chidavaenzi, M. Bradley, M. Jere and C. Nhandara

A comparison of the extent and impacts of sewage contamination on urban groundwater in developed and developing countries 179
M. Barrett, G. Howard, S. Pedley, R. Taylor and M. Nalubega

Sanitary survey of the drinking water supply of Kombinati suburb - Tirana, Albania 187
V. Angjeli, B. Reme, L. Leno, R. Bukli and G. Bushati

Nitrate pollution study in the aquifer of Dakar (Senegal) 191
A. A. Tandia, E. S. Diop, C. B. Gaye and Y. Travi

Tools of groundwater protection below the city of Caracas, Venezuela 199
K.-P. Seiler

Improvements of wastewater treatment for groundwater protection in the Haertsfeld 207
F. Haakh

Wastewater reuse with groundwater safeguard 213
N. Ouazzani, S. Lyakhloufi, S. Errouane and A. Boussaid

Section 4
Re-use

National research council report on potable reuse 221
J. Crook

Efficiency and sustainability of soil-aquifer treatment for indirect potable reuse of reclaimed water 227
J. E. Drewes, P. Fox & M. H. Nellor

Reuse of wastewater in aboriginal communities in Western Australia 233
K. Mathew, G. E. Ho and M. Anda

Health effect of wastewater reuse in agriculture 241
K. Bouhoum and O. Amahmid

Health risk in agricultural villages practicing wastewater irrigation in Central Mexico: perspectives for protection 249
E. Cifuentes, U. Blumenthal, G. Ruiz-Palacios, S. Bennett and M. Quigley

Carbon, nitrogen and heavy metal dynamics in long-term wastewater irrigated Mexican soils 257
A. Herre, Ch. Siebe and M. Kaupenjohann

Evaluation of groundwater pollution potential of sewage-irrigated vegetable growing areas of the eastern fringe of Calcutta city 261
A. Mitra and S. K. Gupta

Sanitation without pollution 269
U. Winblad

Reuse - the ultimate sink? Urine-diverting toilets to protect groundwater quality and fertilise urban agriculture 275
J.-O. Drangert

Measurement of bacterial growth potential in a reclaimed water 281
N. Funamizu, M. Kanno and T. Takakuwa

Section 5
Technologies for the protection of drinking-water resources

Selection criteria for wastewater treatment technologies to protect drinking water 289
M. von Sperling

Upgrading wastewater treatment plants 297
W. Hegemann

Constructed wetlands as a tool for sewage and stormwater pollution control 305
P. Thomas

The use of reed plants for wastewater treatment: the Iraq experience 311
A. A. Al-Samawi

Membrane-supported biological wastewater treatment 319
U. Krüger

Improved purification of water and waste-water with low-cost dead-end-ultrafiltration 325
T. A. Peters

Sewage disinfection towards protection of drinking water resources 331
A. Kolch

Sewage sludge treatment with lime 337
B. Herbst

Experimental model of faecal coliform removal in anoxic wastewater stabilisation ponds 341
A. Almasi and M. B. Pescod

A small pit emptying machine: an appropriate solution for a Nairobi slum 347
M. Wegelin-Schuringa and M. Coffey

On-site sanitation: when the pits are full – planning for resource protection in faecal sludge management 353
M. Strauss, U. Heinss and A. Montangero

Volta watertight vip latrine 361
K. Dadie-Amoah and S. Komba

Public standpost systems in periurban settings 367
R. Bergthaler

Evaluation of the oestrogen-receptor activating potency of environmental samples by means of yeast oestrogen assays 371
K. Rehmann, K.-W. Schramm and A. A. Kettrup

Section 6
Case studies

Rural sanitation problems in Uganda – institutional and management aspects 377
D. Mukama Mukungu

Review of the wastewater situation in Morocco 383
L. Mandi

An assessment of septage and faecal sludge discharges into surface water sources in Ghana 389
L. Y. Salifu and F. Mumuni

Ground water in Nigerian urban centres: problems and options 393
M. K. C. Sridhar

Health risks of rural water supply due to lack of proper sanitation in Southeast Asian countries 399
S. Takizawa, T. V. N. Tran and L. Fu

Status of domestic wastewater management in relation to drinking-water supply in two states of India 405
R. A. Pandey and S. N. Kaul

Pollution of water sources and removal of pollutants by advanced drinking-water treatment in China 413
L. Wang and B. Wang

Sludge treatment and disposal in Slovakia 421
J. Námer and J. Šumná

New policies and measures for saving a great man-made reservoir providing drinking water for 20 million people in the republic of Korea 427
K.-H. Ahn

The Cyprus experience with protection of ground- and surface waters from domestic sewage and excreta 433
C. Andreou

Conference Participants 437
