

FSCS 2006

Symposium on Fuzzy Systems in Computer Science 2006

**Otto-von-Guericke-Universität
Magdeburg, Germany**

September 27th and 28th, 2006

Edited by

**Eyke Hüllermeier
Rudolf Kruse
Andreas Nürnberger
Jens Strackeljan**

Contents

Invited Talks

- A New Frontier in Computation – Computation with Information Described in Natural Language (*Otto-von-Guericke Lecture*)** 1
Lotfi A. Zadeh, University of California, Berkeley
- Fuzzy Sets and Systems - History and Future in Science** 3
Rudolf Seising, University of Vienna

Fuzzy Data Mining

- Improved Fuzzy Partitions for Clustering** 23
Frank Höppner, Univ. of Applied Sciences Braunschweig/Wolfenbüttel
- Visualization of Fuzzy Rule Classifiers for Flight Duration Forecast** 26
Frank Rehm, German Aerospace Center (DLR), Braunschweig
- On the role of Interpretability in Fuzzy Data Mining** 27
Corrado Mencar, Giovanna Castellano, Anna M. Fanelli, University of Bari, Italy
- Mining Fuzzy Rules with Different Semantics** 31
F. Berzal, J.C. Cubero, D. Sanchez, J.M. Serrano, M.A. Vila
- Interpreting Data Mining Quantifiers in Mathematical Fuzzy Logic** 33
Emilia Ylirinne, Esko Turunen, Tampere University of Technology, Finland
- Fuzzy Functional Dependencies in Multiargument Relationships** 42
Krzysztof Myszkorowski, Technical University of Lodz, Poland

Classification

- Obtaining Compact and still Accurate Linguistic Fuzzy Rule-Based Rule-Based Systems by Using Multi-Objective Genetic Algorithms** 53
R. Alcalá, J. Alcalá-Fdez, M. J. Gacto, and F. Herrera, University of Granada, Spain
- A First Study on the Use of Fuzzy Rule Based Classification Systems for Problems with Imbalanced Data Sets** 63
María José del Jesus, Alberto Fernández, Salvador García, Francisco Herrera, University of Jaén and University of Granada, Spain
- Classification via Fuzzy Preference Learning** 73
Eyke Hüllermeier, University of Magdeburg
