INCUBATION IN PROBLEM SOLVING AND CREATIVITY

Unconscious Processes

Kenneth J. Gilhooly
CONTENTS

Preface viii
Acknowledgements ix

1 Problems, problem solving and creativity 1

Introduction: problems, problems, problems 1
Solving non-insight problems: forward search and hill-climbing 3
Problem reduction and means-ends analysis 7
Solving insight problems: re-structuring 8
Barriers to insight: set 11
Further barriers to insight: functional fixity 12
Comparing insight vs non-insight problems 12
Representational change theory 14
Working memory, insight and non-insight problem solving 17
Impasse → insight sequence: necessary or not? 18
Generic Parts Technique 18
Insight processes: conclusions 19
Creative problems 19
Creative problem solving: divergent thinking 22
Incubation? 24
### Contents

2 Historical background to the “incubation” concept  
   **Personal accounts** 25  
   The Wallas model: background 31  
   Wallas’s stages of control 34  
   Wallas's Five Stage model in detail 35  
   Incubation: validity of personal accounts? 37  
   Historical background: concluding comments 43

3 Early laboratory based studies of incubation 45  
   Delayed Incubation effects 46  
   Incubation literature reviews: narrative and meta-analytic 49  
   Delayed Incubation: post Sio and Ormerod (2007) studies 51  
   In conclusion 52

4 Broad theoretical approaches to incubation:  
   empirical evidence 53  
   **Introduction** 53  
   Intermittent work: evidence 56  
   Fresh Look: evidence 57  
   Unconscious work: evidence 58  
   Mind-wandering and incubation 63

5 Unconscious work: theoretical discussion 67  
   The subliminal self hypothesis 68  
   The unconscious: yes, it can? 69  
   Unconscious combinations: blind variation, selective retention 71  
   Mechanisms for blind variation 72  
   Chater's (2018) objections to unconscious work/processing hypothesis 73  
   Inspiration: how do solutions suddenly become conscious? 74  
   Semantic network modelling 76  
   Goal + Associative Network Interaction (GANI) model 79

6 Sleep on it? 84  
   Sleep and its stages 85  
   Personal accounts 86  
   Empirical studies of sleep effects on problem solving 92  
   Methodological notes 100  
   Sleep on it? Discussion and concluding comments 103
7 Overview and conclusions

Waking incubation 106
Sleep on it? 109
Waking and sleeping incubation in real life 109
Gaps for future research 110
