FOREWORD <i>by Ira Rubinoff</i>	ix
EXECUTIVE SUMMARY <i>by Michael A. Lang</i>	xii
INTRODUCTION <i>by Igor Krupnik, Michael A. Lang, and Scott E. Miller</i>	xiv
<b>IPY HISTORIES AND LEGACIES</b>	
Advancing Polar Research and Communicating Its Wonders: Quests, Questions, and Capabilities of Weather and Climate Studies in International Polar Years <i>James R. Fleming, Colby College</i> <i>Cara Seitchek, Woodrow Wilson International Center for Scholars</i>	1
Cooperation at the Poles? Placing the First International Polar Year in the Context of Nineteenth-Century Scientific Exploration and Collaboration <i>Marc Rothenberg, National Science Foundation</i>	13
The Policy Process and the International Geophysical Year, 1957–1958 <i>Fae L. Korsmo, National Science Foundation</i>	23
Preserving the Origins of the Space Age: The Material Legacy of the International Geophysical Year (1957–1958) at the National Air and Space Museum <i>David H. DeVorkin, National Air and Space Museum, Smithsonian Institution</i>	35
From Ballooning in the Arctic to 10,000-Foot Runways in Antarctica: Lessons from Historic Archaeology <i>Noel D. Broadbent, National Museum of Natural History, Smithsonian Institution</i>	49

## CULTURAL STUDIES

- “Of No Ordinary Importance”: Reversing Polarities  
in Smithsonian Arctic Studies **61**  
*William W. Fitzhugh, National Museum of Natural History,  
Smithsonian Institution*
- Yup’ik Eskimo Contributions to Arctic Research at the Smithsonian **79**  
*Ann Fienup-Riordan, National Museum of Natural History  
Arctic Studies Center, Anchorage*
- Smithsonian Contributions to Alaskan Ethnography:  
The First IPY Expedition to Barrow, 1881–1883 **89**  
*Ernest S. Burch Jr., National Museum of Natural History  
Arctic Studies Center, Camp Hill*
- The Art of Iñupiaq Whaling: Elders’ Interpretations  
of International Polar Year Ethnological Collections **99**  
*Aron L. Crowell, National Museum of Natural History  
Arctic Studies Center, Anchorage*
- From Tent to Trading Post and Back Again: Smithsonian  
Anthropology in Nunavut, Nunavik, Nitassinan, and  
Nunatsiavut—The Changing IPY Agenda, 1882–2007 **115**  
*Stephen Loring, National Museum of Natural History,  
Smithsonian Institution*
- “The Way We See It Coming”: Building the Legacy  
of Indigenous Observations in IPY 2007–2008 **129**  
*Igor Krupnik, National Museum of Natural History,  
Smithsonian Institution*

## SYSTEMATICS AND BIOLOGY OF POLAR ORGANISMS

- Species Diversity and Distributions of Pelagic Calanoid  
Copepods from the Southern Ocean **143**  
*E. Taisoo Park, Texas A&M University  
Frank D. Ferrari, National Museum of Natural History,  
Smithsonian Institution*
- Brooding in Species Diversity in the Southern Ocean: Selection  
for Brooders or Speciation within Brooding Clades? **181**  
*John S. Pearse, University of California, Santa Cruz  
Richard Mooi, California Academy of Sciences  
Susanne J. Lockhart, California Academy of Sciences  
Angelika Brandt, Zoologisches Institut und Zoologisches  
Museum, Hamburg*
- Persistent Elevated Abundance of Octopods  
in an Overfished Antarctic Area **197**  
*Michael Vecchione, National Marine Fisheries Service  
Louise Allcock, Queen’s University Belfast  
Uwe Piatkowski, Universitat Kiel, Germany*

*Elaina Jorgensen, Alaska Fisheries Science Center*  
*Iain Barratt, Queen's University Belfast*

Cold Comfort: Systematics and Biology of Antarctic Bryozoans **205**  
*Judith E. Winston, Virginia Museum of Natural History*

Considerations of Anatomy, Morphology, Evolution, and Function  
for Narwhal Dentition **223**

*Martin T. Nweeia, Harvard School of Dental Medicine*  
*Cornelius Nutarak, Elder, Community of Mittimatilik, Nunavut*  
*Frederick C. Eichmiller, Delta Dental of Wisconsin*  
*Naomi Eidelman, ADAF Paffenbarger Research Center*  
*Anthony A. Giuseppetti, ADAF Paffenbarger Research Center*  
*Janet Quinn, ADAF Paffenbarger Research Center*  
*James G. Mead, National Museum of Natural History,*  
*Smithsonian Institution*

*Kaviqanguak K'issuk, Hunter, Community of Qaanaaq, Greenland*  
*Peter V. Hauschka, National Museum of Natural History,*  
*Smithsonian Institution*

*Ethan M. Tyler, National Institutes of Health*  
*Charles Potter, National Museum of Natural History, Smithsonian*  
*Institution*

*Jack R. Orr, Fisheries and Oceans, Canada, Arctic Research Division*  
*Rasmus Avike, Hunter, Community of Qaanaaq, Greenland*  
*Pavia Nielsen, Elder, Community of Uummannaq, Greenland*  
*David Angnatsiak, Elder, Community of Mittimatilik, Nunavut*

## METHODS AND TECHNIQUES OF UNDER-ICE RESEARCH

Scientific Diving Under Ice: A 40-Year Bipolar Research Tool **241**  
*Michael A. Lang, Office of the Under Secretary for Science,*  
*Smithsonian Institution*

*Rob Robbins, Raytheon Polar Services Company*

Environmental and Molecular Mechanisms of Cold Adaptation  
in Polar Marine Invertebrates **253**  
*Adam G. Marsh, University of Delaware, Lewes*

Milestones in the Study of Diving Physiology: Antarctic Emperor  
Penguins and Weddell Seals **265**  
*Gerald Kooyman, Scripps Institution of Oceanography*

Interannual and Spatial Variability in Light Attenuation: Evidence  
from Three Decades of Growth in the Arctic Kelp, **271**  
*Laminaria solidungula*

*Kenneth H. Dunton, University of Texas Marine Science Institute*  
*Susan V. Schonberg, University of Texas Marine Science Institute*  
*Dale W. Funk, LGL Alaska Research Associates, Inc.*

Life under Antarctic Pack Ice: A Krill Perspective **285**  
*Langdon B. Quetin, University of California, Santa Barbara*  
*Robin M. Ross, University of California, Santa Barbara*

## ENVIRONMENTAL CHANGE AND POLAR MARINE ECOSYSTEMS

- Inhibition of Phytoplankton and Bacterial Productivity by Solar Radiation in the Ross Sea Polynya **299**  
*Patrick J. Neale, Smithsonian Environmental Research Center*  
*Wade H. Jeffrey, University of West Florida*  
*Cristina Sobrino, University of Vigo, Spain*  
*J. Dean Pakulski, University of West Florida*  
*Jesse Phillips-Kress, Smithsonian Environmental Research Center*  
*Amy J. Baldwin, Florida Department of Environmental Protection*  
*Linda A. Franklin, Smithsonian Environmental Research Center*  
*Hae-Cheol Kim, Harte Research Institute*
- Southern Ocean Primary Productivity: Variability and a View to the Future **309**  
*Walker O. Smith Jr., Virginia Institute Marine Sciences*  
*Josefino C. Comiso, NASA Goddard Space Flight Center*
- Chromophoric Dissolved Organic Matter Cycling during a Ross Sea *Phaeocystis antarctica* Bloom **319**  
*David J. Kieber, SUNY College of Environmental Science and Forestry*  
*Dierdre A. Toole, Woods Hole Oceanographic Institution*  
*Ronald P. Kiene, University of South Alabama*
- Capital Expenditure and Income (Foraging) during Pinniped Lactation: The Example of the Weddell Seal (*Leptonychotes weddellii*) **335**  
*Regina Eisert, National Zoological Park, Smithsonian Institution*  
*Olav T. Oftedal, Smithsonian Environmental Research Center*
- Latitudinal Patterns of Biological Invasions in Marine Ecosystems: A Polar Perspective **347**  
*Gregory M. Ruiz, Smithsonian Environmental Research Center*  
*Chad L. Hewitt, Australian Maritime College*
- POLAR ASTRONOMY: OBSERVATIONAL COSMOLOGY**
- Cosmology from Antarctica **359**  
*Robert W. Wilson, Smithsonian Astrophysical Observatory*  
*Antony A. Stark, Smithsonian Astrophysical Observatory*
- Feeding the Black Hole at the Center of the Milky Way: AST/RO Observations **370**  
*Christopher L. Martin, Oberlin College*
- HEAT: The High Elevation Antarctic Terahertz Telescope **373**  
*Christopher K. Walker, University of Arizona*  
*Craig A. Kulesa, University of Arizona*

Watching Star Birth from the Antarctic Plateau	<b>381</b>
<i>Nick F. H. Tothill, University of Exeter</i>	
<i>Mark J. McCaughrean, University of Exeter</i>	
<i>Christopher K. Walker, University of Arizona, Tucson</i>	
<i>Craig Kulesa, University of Arizona, Tucson</i>	
<i>Andrea Loehr, Smithsonian Astrophysical Observatory</i>	
<i>Stephen Parshley, Cornell University</i>	
Antarctic Meteorites: Exploring the Solar System from the Ice	<b>387</b>
<i>Timothy J. McCoy, National Museum of Natural History,</i>	
<i>Smithsonian Institution</i>	
<i>Linda C. Welzenbach, National Museum of Natural History,</i>	
<i>Smithsonian Institution</i>	
<i>Catherine M. Corrigan, National Museum of Natural History,</i>	
<i>Smithsonian Institution</i>	
INDEX	<b>395</b>
