Part I Theoretical Framework ........................................................................................................ 15

1 Introduction ................................................................................................................................. 15
1.1 Research Questions .................................................................................................................. 15
1.2 Structure of Research .............................................................................................................. 17
1.3 Definitions of Terms in the Context of the German-Mexican Internationalization Process .................................................................................................................. 19
1.4 Contextualizing Internationalization in Higher Education ...................................................... 20
1.4.1 Concepts of Internationalization in Higher Education ....................................................... 20
1.4.2 Methods and Approaches in Studies of Internationalization in Higher Education ............. 25
1.4.3 Intercultural Approaches and Internationalization in Higher Education ......................... 29
1.4.4 Studies Related to Internationalization in Higher Education between Mexico and Germany .................................................................................................................. 31
1.4.5 Internationalization in Higher Education and Comparative Education ................................ 33
1.4.6 Other Sources ..................................................................................................................... 34
1.5 Summary .................................................................................................................................. 35

2 Theoretical Approach .................................................................................................................. 36
2.1 Introduction .............................................................................................................................. 36
2.2 Socioeconomic Relations in the World, the Emphasis of Wallerstein's World-System Approach ......................................................................................................................... 36
2.2.1 The World-System: Capitalist Principles in Higher Education, Massification and Social Movements .................................................................................................................. 42
2.2.2 Differentiation between Globalization and Internationalization in Higher Education ........ 45
2.3 National, International and Transnational Educational Spaces .............................................. 54
2.4 Education and Comparative Education .................................................................................... 58
2.5 International and Intercultural Education in Higher Education ............................................. 62
2.6 Summary .................................................................................................................................. 66
Part II  Internationalization in Mexican Higher Education  .......... 68

3  The Mexican Education System  ..................................... 68
3.1  The National Education System: an Introduction ............... 68
3.1.1  Compulsory Education: Pre-school, Primary, Secondary School and Upper Middle Education 69
3.1.2  Higher Education (Tertiary Education) .......................... 72
3.1.3  Special Education Programs .......................... 73
3.2  The History of Mexican Higher Education ......................... 73
3.2.1  Pre-colonial Times ............................................. 75
3.2.2  Colonial Times ................................................ 77
3.2.3  The Post-colonial Period ...................................... 77
3.3  Mexican Higher Education at Present ......................... 82
3.3.1  The Mexican Higher Education System: Between Public and Private Sectors ..................... 83
3.3.2  National Mexican Institutions/Associations in the Mexican Higher Education System ............. 88
3.3.3  Mexican and International Organizations in Higher Education in Mexico ................. 92
3.3.4  Student Financing and Investment in Mexican Higher Education: Between Subsidy and Credit .......... 96
3.3.5  The Socioeconomic and Political Situation in Mexico and its International Relations ............... 100
3.4  Reviewing the Mexican Education System ....................... 103
3.5  Summary .......................................................... 104

4  The Internationalization of Mexican Higher Education ........ 106
4.1  Introduction .......................................................... 106
4.2  Higher Education Providers: Mexican Transnational Education (TNE) ................................. 108
4.2.1  Distance Education ............................................. 109
4.2.2  Locally Supported Distance Education ......................... 115
4.2.3  Branch Campus ................................................ 119
4.2.4  Franchising .................................................... 123
4.2.5  Corporative Programs ......................................... 124
4.2.6  Twinning Programs and Articulated Programs .................. 125
